**Fundamentals of Data Visualization** Claus O. Wilke, 2019-03-18 Effective visualization is the best way to communicate information from the increasingly large and complex datasets in the natural and social sciences. But with the increasing power of visualization software today, scientists, engineers, and business analysts often have to navigate a bewildering array of visualization choices and options. This practical book takes you through many commonly encountered visualization problems, and it provides guidelines on how to turn large datasets into clear and compelling figures. What visualization type is best for the story you want to tell? How do you make informative figures that are visually pleasing? Author Claus O. Wilke teaches you the elements most critical to successful data visualization. Explore the basic concepts of color as a tool to highlight, distinguish, or represent a value Understand the importance of redundant coding to ensure you provide key information in multiple ways Use the book's visualizations directory, a graphical guide to commonly used types of data visualizations Get extensive examples of good and bad figures Learn how to use figures in a document or report and how employ them effectively to tell a compelling story

**Preceptor's Handbook for Pharmacists** Lourdes M. Cuellar, Diane B. Ginsburg, 2019-12-31 ASHP's significantly updated 4th edition of our widely popular Preceptor's Handbook for Pharmacists expands the content to include current challenges and issues impacting preceptors since fundamental changes have occurred that greatly affect modern practice including: The onboarding process Wellness and resiliency Misconduct and inappropriate behaviors Teaching across diverse student populations Ethics To be an effective preceptor, a pharmacist should exhibit clinical competency skills, possess excellent communication skills, and also demonstrate humanistic skills. This edition includes perspectives from across the country and from different or unique practice programs to bring a wide variety of expertise to this edition. The intent is for this book to be reflective on broad practice guidelines. The Preceptor's Handbook for Pharmacists, 4th edition is the updated and expanded authoritative resource for both new and experienced pharmacy preceptors to create a lifelong impact on young pharmacists.

**Indonesia, Etc.: Exploring the Improbable Nation** Elizabeth Pisani, 2014-06-23 Contains 12 videos, 22 slideshows, 39 stand-alone photographs, 2 audio recordings, 11 archival documents, 12 maps, 13 illustrations, 37 hand-drawn icons. Indonesia is one of the most compelling countries on earth; it offers unexpected adventures that range from taking tea with a corpse or a sultan to negotiating crowds of thugs dressed as Islamists protesting against pop star Lady Gaga. Indonesia Etc.: Exploring the Improbable Nation has been celebrated by The New Yorker, the Wall Street Journal, National Geographic, and many other publications as a lively and deeply insightful account of the country's complexities, but many readers have yearned for illustrations; Indonesia is also visually compelling. This enhanced edition is the answer: it includes videos, slide shows, and archival material collected by the author during her 22,000-kilometer trek around the country in 2012 as well as old letters from generals and rebels harvested from the archives she has kept in her twenty-five-year association with the country. The videos, edited and voiced by Elizabeth Pisani herself, provide an extra insight into the things she found most striking or curious. You don't need to be online to access any of the content, and the analog-look design ensures that the multimedia materials never get in the way of a good, old-fashioned read. This is a very large file (200 MB), and it works best on an iPad.

**Rethinking Reintegration and Veteran Identity** Jeni Ruth Hunnicutt, 2022-02-07 This book analyzes and discusses the U.S. Military Veteran identity. Throughout seven chapters spanning narrative, literature, theory and analysis, the book combines the author's own personal story of joining, serving in, and separating from the U.S. military with corresponding research about military transitions, reintegration, Veteran suicides, and psychosocial adjustment challenges. The purpose of the book is to help readers understand Veteran identity in a way that centers the social implications of belonging to and serving in the military institution. In the final chapters of the book, existing theories and models related to military transitions are dissected before a new Model of Veteran Identity Hierarchy as well as a reconceptualization of Veteran identity are presented.

**Digital Personae and Profiles in Law** Arnold Roosendaal, 2013 Every individual is represented in digital form in numerous data sets. Commercial companies use these digital representations as a basis for making decisions that affect the individual. This has implications for privacy and autonomy of the individual and the ability to construct one's own identity. This study describes how digital representations are created and for what purposes. An analysis is made of the implications this has for individuals and why privacy, autonomy, and identity construction are at stake. In this context legal protection of individuals is provided by data protection legislation. The current framework, however, appears to be insufficient in relation to the problems identified in this study. Other legal constructs are assessed to see whether alternative approaches could help offer legal protection. Finally, a proposal is presented to embed the concepts of digital personae and profiles (as forms of digital representations) as portraits in data protection law.

**ICOPE 2020** Ryzal Perdana, Gede Eka Putrawan, Sunyono, 2021-03-24 We are delighted to introduce the Proceedings of the Second International Conference on Progressive Education (ICOPE) 2020 hosted by the Faculty of Teacher Training and Education, Universitas Lampung, Indonesia, in the

heart of the city Bandar Lampung on 16 and 17 October 2020. Due to the COVID-19 pandemic, we took a model of an online organised event via Zoom. The theme of the 2nd ICOPE 2020 was “Exploring the New Era of Education”, with various related topics including Science Education, Technology and Learning Innovation, Social and Humanities Education, Education Management, Early Childhood Education, Primary Education, Teacher Professional Development, Curriculum and Instructions, Assessment and Evaluation, and Environmental Education. This conference has invited academics, researchers, teachers, practitioners, and students worldwide to participate and exchange ideas, experiences, and research findings in the field of education to make a better, more efficient, and impactful teaching and learning. This conference was attended by 190 participants and 160 presenters. Four keynote papers were delivered at the conference; the first two papers were delivered by Prof Emeritus Stephen D. Krashen from the University of Southern California, the USA and Prof Dr Bujang Rahman, M.Si. from Universitas Lampung, Indonesia. The second two papers were presented by Prof Dr Habil Andrea Bencsik from the University of Pannonia, Hungary and Dr Hisham bin Dzakiria from Universiti Utara Malaysia, Malaysia. In addition, a total of 160 papers were also presented by registered presenters in the parallel sessions of the conference. The conference represents the efforts of many individuals. Coordination with the steering chairs was essential for the success of the conference. We sincerely appreciate their constant support and guidance. We would also like to express our gratitude to the organising committee members for putting much effort into ensuring the success of the day-to-day operation of the conference and the reviewers for their hard work in reviewing submissions. We also thank the four invited keynote speakers for sharing their insights. Finally, the conference would not be possible without the excellent papers contributed by authors. We thank all authors for their contributions and participation in the 2nd ICOPE 2020. We strongly believe that the 2nd ICOPE 2020 has provided a good forum for academics, researchers, teachers, practitioners, and students to address all aspects of education-related issues in the current educational situation. We feel honoured to serve the best recent scientific knowledge and development in education and hope that these proceedings will furnish scholars from all over the world with an excellent reference book. We also expect that the future ICOPE conference will be more successful and stimulating. Finally, it was with great pleasure that we had the opportunity to host such a conference.

Ethical and Social Issues in the Information Age Joseph M. Kizza, 2013-03-09 An introduction to the social and policy issues which have arisen as a result of IT. Whilst it assumes a modest familiarity with computers, the book provides a guide to the issues suitable for undergraduates. In doing so, the author prompts students to consider questions such as: \* How do morality and the law relate to each other? \* What should be covered in a professional code of conduct for information technology professionals? \* What are the ethical issues relating to copying software? \* Is electronic monitoring of employees wrong? \* What are the moral codes of cyberspace? Throughout, the book shows how in many ways the technological development is outpacing the ability of our legal systems, and how different paradigms applied to ethical questions often proffer conflicting conclusions. As a result, students will find this a thought-provoking and valuable survey of the new and difficult ethical questions posed by the Internet, artificial intelligence, and virtual reality.

**Technology and Assessment Strategies for Improving Student Learning in Chemistry** Thomas Holme, 2018-02-02 Although the difficulties many students encounter when learning chemistry have been known and explored for decades, there is no consensus on how best to assist and assess their learning. Over the past ten years, the availability of a range of technological innovations that are intended to improve student learning and assessment has made the choice of teaching and assessment strategies more complex. Many teachers are rapidly adopting new technologies in teaching and assessment although their impacts have not yet been extensively studied. Many researchers have investigated the use of specific technologies in aspects of their teaching and assessment, and this book contributes to a growing body of literature that allows some generalizations

to be drawn. Most importantly, specific strategies are described in detail making it possible for others to take advantage of the learning experiences and allowing practitioners to adopt the practice best suited to their needs. General tools for chemistry education range from tailored websites (including Web 2.0 interactive features), to optimizing the use of flipped classrooms, to the application of commercial packages in a coherent manner. The book focuses on these aspects of using technology directly in teaching chemistry. One area of great interest in chemistry education is the role of the teaching laboratory and how best to optimize laboratory learning. The use of short videos, animations, and best assessment practices are also covered. The chapters in the book reflect the somewhat different teaching contexts of the countries in which the authors work.

**Dr. Junkie: One Man's Story of Addiction and Crime That Will Challenge Everything You Know About the War on Drugs** Benjamin Boyce, 2022-02 The war on drugs has long since lost any illusion of success. It is currently entering its second century of active combat, and drugs are cheaper and more abundant each year the war continues. Before 1914, drugs were legal in the United States. Heroin, cocaine, and morphine could be purchased at the corner store, and those who used drugs were generally contributing members of society. It wasn't until drugs were outlawed that all the problems began. Humans are drug-using creatures. We have always loved to get high, and we always will. All attempts to restrict drugs have thus far failed, and no penalty is harsh enough to prevent users from using. The war has resulted in little more than dangerous conditions for drug users. We must contend with risky street markets, polluted products, fake drugs, unsanitary conditions, and the violence which often accompanies underworld commodities. But there is a better way. Dr. Junkie is a roadmap for explaining how we got here, as well as how we can get out.

**Transport Investment and Economic Development** David Banister, Joseph Berechman, 2003-08-29 A major concern of all decision makers has been to ensure that there are clear benefits from transport investment proposals. The travel time savings are clear, but the wider economic developments have presented enormous difficulty in terms of both theoretical arguments and empirical evidence. This book reviews the history of the debate and argues that the agenda has changed. These issues are presented together with a major analytical investigation of macroeconomic models, evaluation in transport and microeconomic approaches. The final part of the book presents a series of case studies for road, rail and airport investment schemes, particularly focusing on the economic development aspects.

**Annual Threat Assessment of the US Intelligence Community** Avril Haines, Office of the Director of National Intelligence, 2021-04-16 On April 13 2021, Director of National Intelligence Avril Haines, in coordination with Intelligence Community leaders, released to Congress an unclassified annual report of worldwide threats to the national security of the United States. Pursuant to Section 617 of the Intelligence Authorization Act for Fiscal Year 2021, the annual assessment examines the diverse array of threats that exist against the backdrop of the COVID-19 pandemic, great power competition, and rapidly evolving technology. The American people should know as much as possible about the threats facing our nation and what their intelligence agencies are doing to protect them, said DNI Haines. This report provides transparency to Congress and our nation's citizens with the aim of bolstering trust in our work and institutions.

**Dead Simple Python** Jason C McDonald, 2022-11-22 The complete core language for existing programmers. Dead Simple Python is a thorough introduction to every feature of the Python language for programmers who are impatient to write production code. Instead of revisiting elementary computer science topics, you'll dive deep into idiomatic Python patterns so you can write professional Python programs in no time. After speeding

through Python's basic syntax and setting up a complete programming environment, you'll learn to work with Python's dynamic data typing, its support for both functional and object-oriented programming techniques, special features like generator expressions, and advanced topics like concurrency. You'll also learn how to package, distribute, debug, and test your Python project. Master how to: Make Python's dynamic typing work for you to produce cleaner, more adaptive code. Harness advanced iteration techniques to structure and process your data. Design classes and functions that work without unwanted surprises or arbitrary constraints. Use multiple inheritance and introspection to write classes that work intuitively. Improve your code's responsiveness and performance with asynchrony, concurrency, and parallelism. Structure your Python project for production-grade testing and distribution The most pedantically pythonic primer ever printed, Dead Simple Python will take you from working with the absolute basics to coding applications worthy of publication.

*The Revival of Tradition in Indonesian Politics* Jamie Davidson, David Henley, 2007-03-12 The Indonesian term adat means 'custom' or 'tradition', and carries connotations of sedate order and harmony. Yet in recent years it has suddenly become associated with activism, protest and violence. This book investigates the revival of adat in Indonesian politics, identifying its origins, the historical factors that have conditioned it and the reasons behind its recent blossoming. It considers whether the adat revival is a constructive contribution to Indonesia's new political pluralism or a divisive, dangerous and reactionary force, and examines the implications for the development of democracy, human rights, civility and political stability. *The Revival of Tradition in Indonesian Politics* provides detailed coverage of the growing significance of adat in Indonesian politics. It is an important resource for anyone seeking to understand the contemporary Indonesian political landscape.
