*Believing Is Seeing* Errol Morris,2014-05-27 Academy Award-winning director Errol Morris turns his eye to the nature of truth in photography In his inimitable style, Errol Morris untangles the mysteries behind an eclectic range of documentary photographs. With his keen sense of irony, skepticism, and humor, Morris shows how photographs can obscure as much as they reveal, and how what we see is often determined by our beliefs. Each essay in this book is part detective story, part philosophical meditation, presenting readers with a conundrum, and investigates the relationship between photographs and the real world they supposedly record. *Believing Is Seeing* is a highly original exploration of photography and perception, from one of America's most provocative observers.

Assessing Young Learners of English: Global and Local Perspectives Marianne Nikolov,2015-10-29 This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment, diagnostic testing, self-perception, and computer-based testing; and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for learning have emerged as key issues. In line with this development, there is a clear and emerging need to make early language programs accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.
