*10 Hours to Go* Keely Parrack,2024-02-06 Lily wants to get home. Her friends want to get even. Lily needs a ride—a fire warning in Oregon has cancelled her train home to California. Her ex-best friend, Natasha, has offered to pick Lily up on her way back from Portland, though they're barely on speaking terms. As it turns out, Natasha's also giving a ride to Elke Azizi, the girl Lily got expelled from their school four years ago. Elke hasn't forgotten, and neither has Natasha. It's getting tense in the car, and it's not just about the past. There's smoke in the air, and with the wildfires nearby, staying on the road is becoming riskier by the hour. When Natasha and Elke decide to take a detour, Lily hopes it'll get them out of danger. She has no idea, though, what her former friends have planned for her. But as night comes, the plans change again when it becomes all too clear that leaving the main road was a mistake. Now the three of them are trapped in the woods under a burning sky, with no easy way out. To survive, Lily must depend on Elke and Natasha—but after all that's happened, can she trust them with her life?

**In Love with the World** Yongey Mingyur Rinpoche,Helen Tworikov,2021-03-30 A rare, intimate account of a world-renowned Buddhist monk's near-death experience and the life-changing wisdom he gained from it "One of the most inspiring books I have ever read."—Pema Chödrön, author of *When Things Fall Apart* "This book has the potential to change the reader's life forever."—George Saunders, author of *Lincoln in the Bardo* At thirty-six years old, Yongey Mingyur Rinpoche was a rising star within his generation of Tibetan masters and the respected abbot of three monasteries. Then one night, telling no one, he slipped out of his monastery in India with the intention of spending the next four years on a wandering retreat, following the ancient practice of holy mendicants. His goal was to throw off his titles and roles in order to explore the deepest aspects of his being. He immediately discovered that a lifetime of Buddhist education and practice had not prepared him to deal with dirty fellow travelers or the screeching of a railway car. He found he was too attached to his identity as a monk to remove his robes right away or to sleep on the Varanasi station floor, and instead paid for a bed in a cheap hostel. But when he ran out of money, he began his life as an itinerant beggar in earnest. Soon he became deathly ill from food poisoning—and his journey took a startling turn. His meditation practice had prepared him to face death, and now he had the opportunity to test the strength of his training. In this powerful and unusually candid account of the inner life of a Buddhist master, Yongey Mingyur Rinpoche offers us the invaluable lessons he learned from his near-death experience. By sharing with readers the meditation practices that sustain him, he shows us how we can transform our fear of dying into joyful living. Praise for *In Love with the World* "Vivid, compelling . . . This book is a rarity in spiritual literature: Reading the intimate story of this wise and devoted Buddhist monk directly infuses our own transformational journey with fresh meaning, luminosity, and life."—Tara Brach, author of *Radical Acceptance* and *True Refuge* "In Love with the World is a magnificent story—moving and inspiring, profound and utterly human. It will certainly be a dharma classic."—Jack Kornfield, author of *A Path with Heart* "This book makes me think enlightenment is possible."—Russell Brand

**A Dubious Expediency** Gail Heriot,2021-05-25 This book offers eight clear-sighted essays critical of racial "diversity" preferences in American higher education. Unlike more conventional books on the subject, which are essentially apologies for racial reverse discrimination, this volume forthrightly exposes the corrosive effects of identity politics on college and university life. The fact-filled and hard-hitting chapters are by Heather Mac Donald, Peter N. Kirsanow, Peter W. Wood, Lance Izumi and Rowena Itchon, John Ellis, Carissa Mulder, and the editors Gail Heriot and Maimon Schwarzschild.

**How to Do Nothing** Jenny Odell,2020-12-29 \*\* A New York Times Bestseller \*\* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY: Time • The New Yorker • NPR • GQ • Elle • Vulture • Fortune • Boing Boing • The Irish Times • The New York Public Library • The Brooklyn Public Library A complex, smart and ambitious book that at first reads like a self-help manual, then blossoms into a wide-ranging political manifesto.—Jonah Engel Bromwich, *The New York Times Book Review* One of President Barack Obama's Favorite Books of 2019 Porchlight's Personal Development & Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention, and our value is determined by our 24/7 data productivity, it can seem impossible to escape. But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action, reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, *How to do Nothing* is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world.

**Springer Handbook of Robotics** Bruno Siciliano,Oussama Khatib,2016-07-27 The second edition of this handbook provides a state-of-the-art overview on the various aspects in the rapidly developing field of robotics. Reaching for the human frontier, robotics is vigorously engaged in the growing challenges of new emerging domains. Interacting, exploring, and working with humans, the new generation of robots will increasingly touch people and their lives. The credible prospect of practical robots among humans is the result of the scientific endeavour of a half a century of robotic developments that established robotics as a modern scientific discipline. The ongoing vibrant expansion and strong growth of the field during the last decade has fueled this second edition of the *Springer Handbook of Robotics*. The first edition of the handbook soon became a landmark in robotics publishing and won the American Association of Publishers PROSE Award for Excellence in Physical Sciences & Mathematics as well as the organization's Award for Engineering & Technology. The second edition of the handbook, edited by two internationally renowned scientists with the support of an outstanding team of seven part editors and more than 200 authors, continues to be an authoritative reference for robotics researchers, newcomers to the field, and scholars from related disciplines. The contents have been restructured to achieve four main objectives: the enlargement

of foundational topics for robotics, the enlightenment of design of various types of robotic systems, the extension of the treatment on robots moving in the environment, and the enrichment of advanced robotics applications. Further to an extensive update, fifteen new chapters have been introduced on emerging topics, and a new generation of authors have joined the handbook’s team. A novel addition to the second edition is a comprehensive collection of multimedia references to more than 700 videos, which bring valuable insight into the contents. The videos can be viewed directly augmented into the text with a smartphone or tablet using a unique and specially designed app. Springer Handbook of Robotics Multimedia Extension Portal: <http://handbookofrobotics.org/>
