Alien Liaison Timothy Good,1992 In Above Top Secret, Timothy Good examined evidence of US government research into alien visitations to Earth. In this book he investigates what he describes as top-secret UFO units in Britain, Canada and the USA, in which captured spacecraft are said to be tested and aliens subjected to medical examination. The book includes interviews with RAF and USAF personnel, scientists and doctors, as well as personal stories of alleged alien contact.

UFOs, ETs, and Alien Abductions Donderi PhD, Don Crosbie,2013-06-01 Psychologist and researcher Don Donderi examines the evidence and research from the past several decades on the changing nature of UFOs. He looks at why the scientific establishment takes a dim view of UFOs and abduction evidence and examines how the US government has collected and suppressed UFO evidence. UFOs, ETs, and Alien Abductions is a wide-ranging examination of all things off-planet that falls into 3 sections. 1. UFOs: evidence and belief between 1947 through 1965 and Cold War mysteries 2. The changing nature of UFO phenomenon from 1965 to the present, which makes the case for the existence of humanoid crew members seen in and around landed UFOs. This section also examines six well-documented abduction cases, and includes the author detailing his own research involvement with the evidence. He refutes the belief that all abductees are mentally disturbed and that a psychological disturbance explains the experience. 3. The third section is devoted to a very meaty and controversial analysis of science, politics, and UFOs.

UFOs and the National Security State Richard Dolan,2002-06-01 “The documentation is spectacularly good, the best ever on the UFO subject. And the conclusion is overwhelmingly powerful.” —Whitley Strieber, New York Times—bestselling author Richard M. Dolan is a gifted historian whose study of US Cold War strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects. UFOs and the National Security State is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent “closing of the door” during the Nixon administration. “A thorough and monumental undertaking.” —Dr. Edgar Mitchell, Apollo 14 astronaut “If there ever had been a ‘must-read, must-have’ book on the subject, UFOs and the National Security State is it. I promise you that once you’ve read it, you’ll never view the subject of UFOs or the American military/intelligence establishment in the same light again.” —Don Ecker, senior editor, UFO Magazine

The Threat David M. Jacobs,2012-12-11 After fifty years of widespread speculation about UFOs and abductions by aliens, a distinguished historian and UFO researcher presents the first evidence-based explanation of alien intentions. Based on over thirty years of personal research, Professor Jacobs exposes the aliens' profoundly alarming agenda: to create a breed of alien-human 'hybrids' who will eventually colonise - and control - Earth. He explains why aliens are here, what they want and why their agenda has been kept secret. In doing so he presents a disturbing picture of a profoundly changed future in which humans will be relegated to inferior status. This incredible story is all the more remarkable because every account of an alien abduction is thoroughly documented and is corroborated by independent testimony. This book answers in astonishing depth some of the most important questions about the UFO phenomenon that researchers have been asking since the beginning of the controversy.

Witnessed Budd Hopkins,Phyllis Halldorson,1997 In *Intruders*, Hopkins focused worldwide attention on a series of alien encounters. Now, for the first time in history, an abduction has been sighted by independent third-party witnesses--including a major world leader! This book reveals this unprecedented and amazingly complex case in its entirety. Includes 16-page photo insert.

20 Essential Games to Study Joshua Bycer,2018-10-26 The purpose of this book is to look over the past 35 years of games to discuss titles whose design deserves to be studied by anyone with an interest in game design. While there are plenty of books that focus on the technical side of Game Development, there are few that study the nature of game design itself. Featuring a mix of console and PC offerings, I purposely left off some of the easy choices (Mario, Starcraft, Call of Duty, Overwatch) to focus on games that stood out thanks to their designs. Key Features An informative breakdown focusing on the design and gameplay of successful games Written to be useful for students or designers starting out in game development Books focused specifically on design are rare Perfect for students and professionals alike, or can be read for the nostalgia and history

Lord Foul's Bane Stephen R. Donaldson,2012-05-16 “Covenant is [Stephen R.] Donaldson's genius!”—The Village Voice He called himself Thomas Covenant the Unbeliever, because he dared not believe in this strange alternate world on which he suddenly found himself. Yet the Land tempted him. He had been sick; now he seemed better than ever before. Through no fault of his own, he had been outcast, unclean, a pariah. Now he was regarded as a reincarnation of the Land's greatest hero—Berek Halfhand—armed with the mystic power of White Gold. That power alone could protect the Lords of the Land from the ancient evil of the Despiser, Lord Foul. Except that Covenant had no idea how to use that power. . . .

Fire Officer's Guide to Disaster Control Charles William Bahme,1978

A Need to Know Timothy Good,2012-07-12 UFOs remain essentially a military and intelligence problem - and one demanding unprecedented security and deception, with access to information on a strictly 'need to know' basis. As early as 1960 former CIA director Admiral Hillenkoetter confirmed that, 'Behind the scenes, high-ranking air force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense.' The same could be said today. Based on many years of research by one of the world's most respected authorities on alien phenomena, *Need to Know* draws on top-secret documents, reports of encounters with large craft of unknown origin from pilots and personnel aboard aircraft carriers and destroyers and interviews with high-ranking military insiders. It is full of revelations, including the alarming escalation of aircraft accidents and the disappearance of hundreds of military aircraft during UFO encounters and recent near-misses with UFOs. The evidence is clear, balanced - and irrefutable.

What Did Jesus Look Like? Joan E. Taylor,2018-02-08 Jesus Christ is arguably the most famous man who ever lived. His image adorns countless churches, icons, and paintings. He is the subject of millions of statues, sculptures, devotional objects and works of art. Everyone can conjure an image of Jesus: usually as a handsome, white man with flowing locks and pristine linen robes. But what did Jesus really look like? Is our popular image of Jesus overly westernized and untrue to historical reality? This question continues to fascinate. Leading Christian Origins scholar Joan E. Taylor surveys the historical evidence, and the prevalent image of Jesus in art and culture, to suggest an entirely different vision of this most famous of men. He may even have had short hair.

Hunt for the Skinwalker Colm A. Kelleher,George Knapp,2005-12-06 The author of the controversial bestseller *Brain Trust* brings his scientific expertise to the chilling true story of unexplained phenomena on Utah's Skinwalker Ranch -- and challenges us with a new vision of reality. For more than fifty years, the bizarre events at a remote Utah ranch have ranged from the perplexing to the wholly terrifying. Vanishing and mutilated cattle. Unidentified Flying Objects. The appearance of huge, otherworldly creatures. Invisible objects emitting magnetic fields with the power to spark a cattle stampede. Flying orbs of light with dazzling maneuverability and lethal consequences. For one family, life on the Skinwalker Ranch had become a life under siege by an unknown enemy or enemies. Nothing else could explain the horrors that surrounded them -- perhaps science could. Leading a first-class team of research scientists on a disturbing odyssey into the unknown, Colm Kelleher spent hundreds of days and nights on the Skinwalker property and experienced firsthand many of its haunting mysteries. With investigative reporter George Knapp -- the only journalist allowed to witness and document the team's work -- Kelleher chronicles in superb detail the spectacular happenings the team observed personally, and the theories of modern physics behind the phenomena. Far from the coldly detached findings one might expect, their conclusions are utterly hair-raising in their implications. Opening a door to the unseen world around us, *Hunt for the Skinwalker* is a clarion call to expand our vision far beyond what we know.
