No Limit John L. Smith, 1997 Of all the modern Las Vegas casino operators, none had more flair than Bob Stupak. The self-proclaimed Polish Maverick rose from humble origins as the son of a Pittsburgh boss gambler to head one of the largest privately owned casinos in Las Vegas, the infamous Vegas World. Stupak parlayed a small slot joint into a \$100 million-a-year gambling operation by manipulating the local and national media with outrageous stunts and promotions. His headline-grabbing handiwork is now the stuff of Las Vegas legend. Remember Vegas World's VIP Vacation? Stupak's cleverly worded advertisements flooded millions of mailboxes around the country and appeared in dozens of prominent national periodicals, including Playboy, Parade, and USA Today, attracting hordes of tourists to his out-of-the-way casino. Though the VIP Vacation became the most successful promotional campaign in the history of Las Vegas, it was also the most controversial. It prompted sanctions and fines from casino-industry regulators, but not before generating enough seed money to fund early construction of the \$550 million Stratosphere Tower, Hotel & Casino. Of all of Stupak's big ideas, the Stratosphere Tower was the biggest. It was to be the tower to end all towers, the greatest mousetrap in a city of great mousetraps. But the tallest observation tower in the country was erected on a wobbly financial foundation of oppressive interest rates and sky-high debt, which ultimately turned the no-lose proposition into one of Las Vegas' most high-profile flops.

The Fallen Tower Conrad Hubbard, Rachelle Udell, 2003-02 The Ascension War sputtered to an end, thanks to human apathy. The Council of Nine Traditions now sits on a cusp, as certain mages try once more to re-ignite hope in themselves and others -- not just hope, but a striving for something, anything. Others want things to stay the same, to maintain the current, feeble status quo. This conflict threatens to destroy all truces -- not just the cease-fire between the Technocracy and the Traditions, but the long-standing bonds between the Traditions themselves.

The Eiffel Tower Restaurant Cookbook Jean Joho, 2008-09-01 Atop the Paris Hotel & Resort in Las Vegas stands the Eiffel Tower Restaurant, a must-go attraction renowned for its exquisite French cuisine and its breathtaking panoramic view of the Strip. Acclaimed chef Jean Joho takes readers into his kitchen, where he shares 50 of his signature dishes: from teasing amuse bouche such as The Everest Spoons to delicate desserts like Alsace Apple Strudel and an assortment of soufflés. With a plush red suede cover and 75 photos capturing the food and ambience of Las Vegas's most romantic restaurant, The Eiffel Tower Cookbook brings a touch of Parisian magic back into the home kitchen.

Above Them All: The Story of the Landmark Hotel & Casino Marc Wagner, 2018-11-20 The Landmark Hotel & Casino was considered by many to be an

eyesore and a failure before it was even completed. Developer Frank Carroll's dream struggled to become reality through seven years of stop-and-go construction. Money problems and legal disputes plagued the Landmark throughout its construction as well as its entire operational life. A string of owners, including the eccentric Howard Hughes, struggled to make the Las Vegas property a success but fate refused to roll the dice in their favor. Filled with rare photos, interviews with employees, and backed by over a decade of research. From its development and construction, through its operational life, to its twilight years of abandonment and eventual destruction to make room for a parking lot, this is the story of the tower above them all in Las Vegas.

Manhattanizing Las Vegas - How to Profit from the Next Phase of Mega Growth
Paul Murad, 2005-06

The Strip Stefan Al, 2017-03-03 The transformations of the Strip—from the fake Wild West to neon signs twenty stories high to “starchitecture”—and how they mirror America itself. The Las Vegas Strip has impersonated the Wild

West, with saloon doors and wagon wheels; it has decked itself out in midcentury modern sleekness. It has illuminated itself with twenty-story-high neon signs, then junked them. After that came Disney-like theme parks featuring castles and pirates, followed by replicas of Venetian canals, New York skyscrapers, and the Eiffel Tower. (It might be noted that forty-two million people visited Las Vegas in 2015—ten million more than visited the real Paris.) More recently, the Strip decided to get classy, with casinos designed by famous architects and zillion-dollar collections of art. Las Vegas became the “implosion capital of the world” as developers, driven by competition, got rid of the old to make way for the new—offering a non-metaphorical definition of “creative destruction.” In *The Strip*, Stefan Al examines the many transformations of the Las Vegas Strip, arguing that they mirror transformations in America itself. The Strip is not, as popularly supposed, a display of architectural freaks but representative of architectural trends and a record of social, cultural, and economic change. Al tells two parallel stories. He describes the feverish competition of Las Vegas developers to build the snazziest, most tourist-grabbing casinos and resorts—with a cast of characters including the mobster Bugsy Siegel, the eccentric billionaire Howard Hughes, and the would-be political kingmaker Sheldon Adelson. And he views the Strip in a larger social context, showing that it has not only reflected trends but also magnified them and sometimes even initiated them. Generously illustrated with stunning color images

throughout, The Strip traces the many metamorphoses of a city that offers a vivid projection of the American dream.

Building the Nation Steven Conn, Max Page, 2003 Some anthologies seem slapdash or opportunistic; others are labors of love, informed by a mastery of a particular field and a passion for sharing the heterogeneous richness of their documents. Building the Nation is happily one of the latter. . . . Vastly useful.--Preservation

Goodman for Architects Remei Capdevila-Werning, 2013-10-15 American philosopher Nelson Goodman (1906-1998) was one of the foremost analytical thinkers of the twentieth century, with groundbreaking contributions in the fields of logic, philosophy of science, epistemology, and aesthetics. This book is an introduction to the aspects of Goodman's philosophy which have been the most influential among architects and architectural theorists. Goodman specifically discussed architecture in his major work on aesthetics, *The Languages of Art: An Approach to a Theory of Symbols* (1968), and in two essays *How Buildings Mean* (1985), and *On Capturing Cities* (1991). His main philosophical notions in *Ways of Worldmaking* (1978) also apply well to architecture. Goodman's thought is particularly attractive because of its constructive aspect: there is not a given and immutable world, but both knowledge and reality are constantly built and rebuilt. Whereas other theories, such as deconstruction, implicitly entail an undoing of modern precepts, Goodman's conception of world-making offers a positive, constructive way to understand how a plural reality is made and remade.

Goodman's approach to architecture is not only relevant thinking in providing new insights to understanding the built environment, but serves also as an illustration of analytical thinking in architecture. This book shows that the methods, concepts, and ways of arguing characteristic of analytical philosophy are helpful tools to examine buildings in a novel and fruitful way and they will certainly enhance the architect's critical skills when designing and thinking about architecture.
