**Solving the Homework Problem by Flipping the Learning** Jonathan Bergmann,2017-04-11 Teachers view homework as an opportunity for students to continue learning after the bell rings. For many students, it's often just the dreaded "H" word. How can educators change the way students view homework while ensuring that they still benefit from the additional learning it provides? It's easy. Flip the learning! In Solving the Homework Problem by Flipping the Learning, Jonathan Bergmann, the co-founder of the flipped learning concept, shows you how. The book outlines why traditional homework causes dread and frustration for students, how flipped learning—completing the harder or more analytical aspects of learning in class as opposed to having students do it on their own—improves student learning, and how teachers can create flipped assignments that both engage students and advance student learning. Bergmann introduces the idea of flipped videos, and provides step-by-step guidance to make them effective. The book also includes useful forms, a student survey, and a sample letter to send to parents explaining the flipped learning concept. You want your students to learn, and your students want learning to be accessible. With that in mind, read through these pages, flip the learning in your classroom, and watch students get excited about homework!

**It's All Too Much** Peter Walsh,2009-08-01 Are your counters covered with appliances you had to have but rarely use? Are your cupboards stuffed with clothes that you hope to fit back into or that you paid a fortune for but only wore once? Have you been hanging on to that hideous teapot your mother gave you 10 years ago only because she gave it to you? Every time you go shopping do you come back with bags of more stuff because that pillow/blouse/cd/mixer will be the one thing that changes your life and then it doesn't change your life because you have nowhere to put it? In *It's All Too Much*,organisational guru Peter Walsh challenges you to answer a very simple but scary question: Does the stuff you own contribute to the life you hope to achieve or does it get in the way of your vision? Peter helps you assess the state of your home without any sugar coating and will teach you how to confront and conquer the stuff that is holding you back by identifying the purpose of each and every object in your home and assessing your reasons for holding onto it. He shows you how to identify which room is the heart of your home and then shows you why it is so important to keep that space clean and clear of clutter - if the heart of your home is clogged what does that say about you? He then helps you go room by room to ask the important questions: What is the room? What's its purpose? What is this item? Does it contribute positively to the life you want? The answers to these questions will help you understand your priorities and fix your relationship with your stuff. And in gaining this understanding you can start to clear out the clutter!

**Strategies for Writing in the Social Studies Classroom** Kathleen Kopp,2013 In *Strategies for Writing in the Social Studies Classroom*, award-winning author and veteran educator Kathleen Kopp offers simple and practical writing strategies that any social studies teacher can integrate into every phase of the learning process. Writing is a valuable learning tool that can quite effectively--and easily--help students learn and understand social studies content. Teaching it, however, can be challenging for content-area teachers now under pressure from the Common Core Standards' refocused attention on reading and writing. With step-by-step directions, rubrics, student examples, templates, technology tips, and ideas for differentiation, Kopp goes beyond journals or reports to show how social studies teachers can use writing to develop critical-thinking skills, improve understanding of social studies concepts, assess students' progress, and hone skills in content-area writing. Her writing strategies support the Common Core Standards and, because the focus is on applying writing skills--and not teaching writing as an end in itself--social studies teachers can easily incorporate these strategies in any unit of study. This comprehensive resource makes it easy to incorporate writing in your social studies class today--and every day!

In Sweden there is a kind of decluttering called döstädning, dö meaning “death” and städning meaning “cleaning.” This surprising and invigorating process of clearing out unnecessary belongings can be undertaken at any age or life stage but should

be done sooner than later, before others have to do it for you. In *The Gentle Art of Swedish Death Cleaning*, artist Margareta Magnusson, with Scandinavian humor and wisdom, instructs readers to embrace minimalism. Her radical and joyous method for putting things in order helps families broach sensitive conversations, and makes the process uplifting rather than overwhelming. Margareta suggests which possessions you can easily get rid of (unworn clothes, unwanted presents, more plates than you'd ever use) and which you might want to keep (photographs, love letters, a few of your children's art projects). Digging into her late husband's tool shed, and her own secret drawer of vices, Margareta introduces an element of fun to a potentially daunting task. Along the way readers get a glimpse into her life in Sweden, and also become more comfortable with the idea of letting go.
