Review of Some Text to Speech Converters, Voice Changers, Video Editors, Animators, Speaking Avatar Makers and Live Str Dr. Hedaya Mahmood

Alasooly, 2020-09-23 As videos are so much important today, I believe that everyone must have some knowledge on creating and editing videos for common tasks required by his personal or business use. This book has mainly an objective to evaluate some text to speech converters, voice changers, video editors, cartoon animators and video recording and live streaming programs. As I am Arabic, I gave special importance to look for the best tools that can convert Arabic text to voice with good quality because of the lack of these tools. And I also gave special importance to look for the best tools that can change the voice tone as a lot of people don't like to make videos with their voice for special reasons. Then I gave quick guide on how to use the two important video editors, VSDC Free Video Editor and Camtasia Studio. Then I gave quick guide on how to use two websites that enable people to create cartoon animation videos in a simple way, animaker.com/ website and powtoon.com website. Then I gave quick guide on how to use one of the best animator programs, which is Reallusion Cartoon Animator 4. I explained also how it is possible to make face mockup through Cartoon Animator 4 Motion Live 2D Plugin. Then I introduced Adobe Character Animator as alternative program to make face mockup. Finally I explained about one of the video recording and live streaming programs, which is OBS Studio. I mentioned briefly how to

setup OBS studio to create livestream video on Youtube and Facebook. At the end, I showed how to use Voki website to create customizable speaking avatars. This work is divided into the following sections. 1. Some tools to reshape the Arabic letters so they can be converted to voice in other tools. 2. Some tools to convert English text to speech TTS. 3. Some tools to convert Arabic text to speech TTS. 4. Evaluation of some voice changers. 5. Creating video of audio file with list of images (slideshow) using VSDC Free Video Editor.: 6. Screen capture using VSDC Free Video Editor. 7. Video capture using VSDC Free Video Editor. 8. Using animaker.com/ website to create simple cartoon animation video. 9. Learning from Communicators in Social Change Jan Servaes, 2020-12-01 This book presents the perspectives of some of the main players, both academics and professionals, in communication for sustainable development and social change so as to provide valuable lessons for future generations of change agents. It places emphasis on both the theoretical foundation and practical applications and ethical concerns in communication for development and social change. Most of the available historical accounts in development communications make a distinction between the modernization paradigm, the dependency paradigm and the multiplicity or participatory paradigm. These historical accounts have been dominated by framing developments within these paradigms, as the logical offspring of the Western drive to develop the world after colonization and the Second World War. The subsequent collapse of the Soviet Union in the late eighties, together with the rise of the U.S. as the only remaining 'superpower,' the emergence of the European Union and China, the gradual coming to the fore of regional powers, such as the BRICS countries, and the recent meltdown of the world financial system has rendered disastrous consequences for people everywhere. This book responds to these changes and challenges in presenting a rethinking of the "power" of development, and consequently the place and role of communication in it. It is aimed at both emerging research students, policymakers and social research practitioners who are interested in the history of communication for

development and social change and the role and place of mayor players in it. This is most applicable to the political and educational sector, as well as scholars of history, social work, and human rights. The book will provide valuable insights for beginners in these fields who are not yet familiar with the increasingly important and emerging field of global social change.
