Drafting Internet Agreements Gregory J. Battersby, Charles W. Grimes, Leonard T. Nuara, 2010-01-01 Drafting Internet Agreements, Second Edition is the most comprehensive single volume collection of annotated forms for the internet. The book also offers valuable insights for business executives who want to know how internet transactions are structured and how to negotiate the best deals. This easy-to-use reference with accompanying CD-ROM offers instant access to more than 40 sample agreements for every area of internet practice including: Internet advertising Internet consulting Electronic commerce Internet joint ventures Internet licensing Technology development Website agreements And more Each form has been developed by the authors or other experienced internet law practitioners and has been used in actual transactions. Organized by type of transaction, each chapter includes a full agreement that illustrates the entire transaction as a seamless whole, as well as a variety of agreements for closely related issues. For each form, the authors provide a brief overview, an analysis of the different kinds of forms that relate to the topic, and a description of the form's applicability and use. Coverage includes: Developing the content portion of the website Seeking intellectual property protection of website content Resolving domain name disputes Seeking to recover a domain name to which you have rights Linking a website to other sites Raising capital to develop and operate a site Marketing the Internet site Selling advertising on the internet site And more. A "Practice Tips" section before each form identifies the "hot spots" that are likely to arise during the transaction, and offers guidance on resolving these hotly negotiated provisions quickly. Detailed checklists assist in drafting the final agreement. Drafting Internet Agreements, Second Edition also includes a free companion CD-ROM containing over 40 forms presented in the guide, making it easy to incorporate the forms into a word processing program.

**Work Smart Now** Richard Polak, 2021-04-20 From one of the top HR specialists in the world comes this much-needed guide to help people maximize productivity and increase revenue. Whether it's in corporate America or in our own living rooms, people are wasting time. From the minute we wake up and check our Facebook page or emails—before we even crawl out of bed—to late at night when we stay up longer than we should, watching our favorite show. There's a precise moment that falls between working enough hours to be productive and working too many hours, yielding a diminishing marginal return. The difference between the person able to master this and most Americans that fail miserably at it is quality of life! If one continues to work past this moment, a negative return will ensue, and that negative return produces guilt. It lowers the amount of time for recreational activities and spending time with family. We've siloed productivity to our work life, however; the impact on our personal life is often loss. An alarming 39% of workers in high-tech companies believe they are depressed, as reported by PC Magazine in December 2018. 72% of people who have daily stress and anxiety say it interferes with their lives—anxiety and stress alone have reduced productivity by 56%. More than 80% of people have experienced some form of anxiety, stress, or depression in the workplace. People are spending more time at work than at home or with their loved ones; or, if they are at home, they are working. They are always "on." As a result of this disparity, people are not fully living their lives. And the "work-life balance" marketed by some HR consulting firms and employers simply does not work. It's all work and no life! Studies have also proven that when people are unhappy in their personal lives or careers, their productivity goes down and everything and everyone around them suffers. This causes a domino effect, which trickles into every area of their lives. Previous generations used to say, "Work harder," but we've now learned we must "work smarter." Polak has practiced and tested his methods in hundreds of opportunities and has been paid millions by the largest corporations in the world to share these tools. He feels that every individual and business should have these tools, and will share them with us here.

Getting Organized in the Google Era Douglas Merrill, James A. Martin, 2011-05-03 Whether it's a faulty memory, a tendency to multitask, or difficulty managing our time, every one of us has limitations conspiring to keep us from being organized. But, as organizational guru and former Google CIO Douglas C. Merrill points out, it isn't our fault. Our brains simply aren't designed to deal with the pressures and competing demands on our attention in today's fast-paced, information-saturated, digital world. What's more, he says, many of the ways in which our society is structured are outdated, imposing additional chaos that makes us feel stressed, scattered, and disorganized. But it doesn't have to be this way. Luckily, we have a myriad of amazing new digital tools and technologies at our fingertips to help us manage the strains on our brains and on our lives; the trick is knowing when and how to use them. This is why Merrill, who helped spearhead Google's effort to organize the world's information, offers a wealth of tips and strategies for how to use these new tools to become more organized, efficient, and successful than ever. But if you're looking for traditional, rigid, one-size-fits-all strategies for organization, this isn't the book for you. Instead, Merrill draws on his intimate knowledge of how the brain works to help us develop fresh, innovative, and flexible systems of organization tailored to our individual goals, constraints, and lifestyles. From how to harness the amazing power of search, to how to get the most out of cloud computing, to techniques for filtering through the enormous avalanche of information that assaults us at every turn, to tips for minimizing distractions and better integrating work and life, Getting Organized in the Google Era is chock-full of practical, invaluable, and often counterintuitive advice for anyone who wants to be more organized and productive—and less stressed—in our 21st-century world.

*Alone Together* Sherry Turkle,2011 Consider Facebook - it's human contact, only easier to engage with and easier to avoid. Developing technology promises closeness. Sometimes it delivers, but much of our modern life leaves us less connected with people and more connected to simulations of them. In Alone Together, MIT technology and society professor Sherry Turkle explores the power of our new tools and toys to dramatically alter our social lives. It's a nuanced exploration of what we are looking for - and sacrificing - in

a world of electronic companions and social networking tools, and an argument that, despite the hand-waving of today's self-described prophets of the future, it will be the next generation who will chart the path between isolation and connectivity.
