women's volleyball coach in 2000, John Cook has led the team to four national championships, seven NCAA semifinal appearances, and the nation's top winning percentage in women's volleyball. In *Dream Like a Champion* Cook shares the coaching and leadership philosophy that has enabled him to become one of the game's winningest coaches. Growing up in San Diego, Cook acquired his coaching philosophy from his experiences first as a football coach, then as a student of the sport of volleyball on the beaches of Southern California. After a stint as an assistant volleyball coach at Nebraska, he returned to Nebraska as head coach in 2000 and won the national championship in his first season. Even with a bar set so high, Cook saw at Nebraska's tradition-rich program the potential for even greater growth and success. He decided to focus on higher expectations, training, motivation, goal setting, and other ways to build the strongest teams possible. In *Dream Like a Champion* Cook shares the philosophy behind Nebraska's culture of success and reveals how he's had to learn, evolve, and be coached himself, even in his fifth decade as a coach. With openness and candor he delivers insights about his methods and passes along lessons that can be used by leaders in any field. Cook also shares behind-the-scenes anecdotes about Nebraska volleyball moments and players—and how he coaches and teaches his players about life beyond the court.

Private Lessons Whitney Bartiuk, 2020-08-16 Have you ever heard yourself saying something like, Olivia is such a natural athlete. If she just worked on her timing a little more she'd be a beast at

the net! If so, you should probably be teaching private lessons. If you've coached for a couple of seasons, you've got the experience to help. What holds coaches back, though, isn't a lack of interest. It's not knowing where to begin. Why coaches don't offer private lessons: They don't know... Where to hold private lessons. Who would take lessons from them. How much to charge. If they should even charge at all. What drills they would use. And the list goes on and on. Don't worry, I get it. These are the same reasons I put off lessons for a long time, too. But once I got started, man did I love running private lessons! Not only do lessons help athletes grow tremendously in a short amount of time... they're pretty fun for you, too! And if you bring value to your athletes, you can even turn these lessons into a profitable side-hustle (you know, if you want). A few topics covered in this book: The absolute first thing to do before you offer anyone a private lesson. The equipment I recommend (and what impresses players and parents the most). How to price your lessons. Creating rules and policies so you don't get burned. The types of players you'll work with. Best practices for interacting with parents. A template you can use for every lesson. 10 volleyball drills I use in almost every lesson. And that's just scratching the surface! I want you to feel fully prepared, so I share everything I know about running lessons with you. On top of that, I give plenty of examples throughout the book of things I've experienced. My advice isn't just based on concepts and theories... it's based on what I've seen work in the real world. I'm going to be blunt with you. I hope you get this book. Why? Because I believe that we coaches have the power to change our communities. Every lesson is an opportunity to help an athlete develop their skills, feel confident in their abilities, and build up their self-esteem. Knowing how to get started is the first step towards making that impact. So stop thinking about running lessons. Make the choice to get started! About The Author Whitney Bartiuk is a long time volleyball coach dedicated to helping others succeed. She is the host of the top-rated

volleyball podcast Get The Pancake, creator of www.getthepancake.com, and author of *Coaching Volleyball: A Survival Guide For your First Season*.

The Complete Volleyball Handbook Toshiaki Yoshida, Makoto Katsumoto, Bob Bertucci, Yasumi Nakanishi, 2012

The Volleyball Handbook Bob Miller, 2005-08-12 In volleyball, the little things often mean the difference between being good and being great. Prepare to perform like a champion every time you step on the court. The Volleyball Handbook will show you the same methods that Miller used to guide his teams to 950 wins and 7 state championship titles during his phenomenal coaching career.

Brain Training for Volleyball Stephanie Schleuder, 2017-07-25 If you're looking for insights beyond X's and O's on how to be a better volleyball coach, Stephanie Schleuder's Brain Training for Volleyball is a must read. Diving into topics like team chemistry, shaping leaders, personal motivation, developing competitors, managing behaviors and defeating distractions, Schleuder offers specific solutions - worksheets, even - based on her many years of collegiate coaching experience. Winning volleyball matches, as Schleuder points out, is not just about having a good game plan and good players. It's also about knowing which buttons to push to bring out the best in your athletes and how to integrate them into a single unit that will function at the height of its potential.

Stop Competing and Start Winning Beth Launier, Leo Hopf, 2020-10 The pairing of a business consultant with a Division I head coach may seem unusual, but management consulting has many lessons to bring to coaching. Conversations between friends connected by their love of volleyball developed into innovative ideas about how coaches can run the business component of their program, stay connected with their players, and elevate their team's success. Over the past five years, the authors have worked together to bring select concepts and tools from the world of business into the University of Utah's volleyball program. We have presented our approach to numerous coaches' groups, and, based on the positive feedback from coaches at all levels, we have decided to collect these concepts and tools into this book. Many coaches share a similar career trajectory. They started as players, entered coaching as a volunteer assistant coach or as a director of operations, earned promotion to assistant coach, and, eventually, were hired into a head coaching role. What they learned along the way depended on who they had to learn from. If they were fortunate to learn from great thinkers and communicators, they were well prepared when their turn came to run a program. If they had less capable teachers, they had to learn by trial and error and by

developing on their own their approach to managing a program. But no matter how effective the coaches they trained under, they learned lessons from inside the world of their sport. Because of this, many coaches have similar bodies of knowledge. A given coach may be better or worse than their competition, but they are all drawing from the same storehouse of ideas. Winning as a coach requires incorporating ideas wherever you can find them and blending those which make sense to you into your program to make it more effective and more efficient. If you can access relevant ideas and tools from outside of coaching (whether from business, politics, healthcare, charity, volunteer work, or other fields), you will provide yourself with lasting competitive advantages.
