How to Live with Autism and Asperger Syndrome Chris Williams, Barry Wright, Olive Young, 2004 This accessible introduction to caring for a child with autism is an ideal resource for the families of children with Autism Spectrum Disorders as well as for the professionals who work with them. In clear and simple language and with many illustrations, the authors explain the nature of this condition and its variations, and tackle common problems experienced in everyday activities such as eating, sleeping and going to the toilet. They also suggest strategies for coping with aggression and tantrums, approaches to preoccupations and compulsions, and suggest ways in which to improve communication and social skills. Based on up-to-date research and using many case examples, the authors consider each problem and its causes step by step, and suggest a number of solutions.

Live Your Joy Bonnie St. John, 2009-04-28 Joy is something that comes from the inside out. It feels like a flowing grace, a feeling of goodness all around, a sense of well-being through good and bad. It is love, gratitude, faith and empowerment all wrapped together. Joy deepens our experiences. It opens us to seeing a more beautiful sunset, appreciating rather than fault finding, to believing in oneself. Here are some of the things Bonnie St. John has learned about finding joy. . . Discover the power of your own dreams and personal vision. Each day make the choice of joy over bitterness. Strengthen your self-confidence. . . shape yourself, don't let others shape you Clarify what matters most to you Allow spontaneous, surprising gifts of joy to redirect your schedule. Partner with God...the entire power of the universe is on our side. Become more helping, more healing and more accepting . None of this is easy and Bonnie admits that she's not able to live her joy every minute of every day. But she does so now more often than she used to. And, more often than she used to, she feels love from others, feels compassion in painful situations, and lives more fully and joyfully.

I Live in the Future & Here's How It Works Nick Bilton, 2011-10-04 Are we driving off a digital cliff and heading for disaster, unable to focus, maintain concentration, or form the human bonds that make life worth living? Are media and business doomed and about to be replaced by amateur hour? The world, as Nick Bilton—with tongue-in-cheek—shows, has been going to hell for a long, long time, and what we are experiencing is the twenty-first-century version of the fear that always takes hold as new technology replaces the old. In fact, as Bilton shows, the digital era we are part of is, in all its creative and disruptive forms, the foundation for exciting and engaging experiences not only for business but society as well. Both visionary and practical, *I Live in the Future & Here's How It Works* captures the zeitgeist of an emerging age, providing the understanding of how a radically changed media world is influencing human behavior: • With a walk on the wild side—through the porn industry—we see how this business model is leading the way, adapting product to consumer needs and preferences and beating piracy. • By understanding how the Internet is creating a new type of consumer, the “consumnivor,” living in a world where immediacy trumps quality and quantity, we see who is dictating the type of content being created. • Through exploring the way our brains are adapting, we gain a new understanding of the positive effect of new media narratives on thinking and action. One fascinating study, for example, shows that surgeons who play video games are more skillful than their nonplaying counterparts. • Why social networks, the openness of the Internet, and handy new gadgets are not just vehicles for telling the world what you had for breakfast but are becoming the foundation for “anchoring communities” that tame information overload and help determine what news and information to trust and consume and what to ignore. • Why the map of tomorrow is centered on “Me,” and why that simple fact means a totally new approach to the way media companies shape content. • Why people pay for experiences, not content; and why great storytelling and extended relationships will prevail and enable businesses to engage with customers in new ways that go beyond merely selling information, instead creating unique and meaningful experiences. *I Live in the Future & Here's How It Works* walks its own talk by creating a unique reader experience: Semacodes embedded in both print and eBook versions will take readers directly to Bilton's website (www.NickBilton.com), where they can access videos of the author further developing his point of view and also delve into the research that was key to shaping the central ideas of the book. The website will also offer links to related content and the ability to comment on a chapter, allowing the reader to join the conversation.

A Live Coal in the Sea Madeleine L'Engle, 2017-05-02 A family's deepest secrets are exposed in this “haunting domestic drama” from the award-winning author of *A Wrinkle in Time* (Publishers Weekly). When her teenage granddaughter comes to her with a troubling question, Camilla Dickinson must confront the painful history she's long kept hidden. Forced to relive her past, she relates a complex saga involving her beautiful, adulterous mother, her troubled son, and the difficult choices that have affected three generations of her family. As she goes through the difficult process of revealing her secrets, Camilla also lets go of the burden of lies she's told. A testament to the power of acceptance and forgiveness, *A Live Coal in the Sea* is ultimately an exploration of the lengths to which people will go for love—and the things they'll do to protect family. This ebook features an illustrated biography of Madeleine L'Engle including rare images from the author's estate.

Learning to Live with Huntington's Disease Sandy Sulaiman, 2007-04-15 Huntington's Disease (HD) is a hereditary illness passed on via a defective gene. There is a fifty per cent chance of inheriting it from a parent and there is yet no cure. *Learning to Live with Huntington's Disease* is one family's poignant story of coping with the symptoms, the diagnosis and the effects of HD. This book presents the struggles and strengths of the whole family when one member loses their future to a terminal illness. Told by the sufferer and other significant family members, the individuals describe the burden of watching yourself and others for symptoms of HD, including involuntary movements, depression, clumsiness, weight loss, slurred speech and sometimes violent tendencies. The

family recounts the challenge to remain united and describes how they approached issues such as whether or not to be tested for HD, how much information to disclose to relatives, whether to have children or not and guilt if one sibling inherits the illness and one does not. Both honest and positive, the author stresses the importance of re-inventing yourself and your present, prioritising relationships and retaining a sense of humour.

They Should Live So Long Jim Moore,2001 In a terrifying series of events, someone is killing older people in nursing homes, for humanitarian reasons. How Shall I Live?: A Field Guide to an Examined Life Peter Sheldrake,2013-05-14 Taking as its starting point the much quoted comment by Socrates that 'an unexamined life is not worth living, this book is a 'field guide to living an examined life', a book to help you, the reader, to think about the life you are living, and to consider what you might want to do differently in the future. Like a good field guide, it does not provide answers, but provides the you with tools to identify and examine what is important. It does not tell you how you should live your life, or what decisions you should make, but rather it is a 'questioner's guide', asking you to think more carefully about such subjects as loyalty, artistic creativity, wisdom and knowledge, managing your time, and determining how to live with others. At the end of each chapter, there are some questions that may help you decide what you could do differently as a result of living an 'examined life'.

Hard Sell Colin Clark,2014-08-01 Market pitchers routinely transform a patch of bare ground into a sea of eager purchasers using little more than their 'gift of the gab' and some homespun 'psychology' to convince passers-by to stop and buy their goods. Employing some of the world's most successful selling techniques, in one of the oldest and most difficult of all marketing situations, their rhetoric and social skills have to equal that employed by the most accomplished salespersons, politicians and professional persuaders. Between 1984 and 1994 sociologists Clark and Pinch recorded over 75 pitching routines on street markets and other sales sites throughout the UK, mainland Europe and the United States. Using examples of pitchers attracting a crowd, describing and demonstrating their goods, building bargains, cajoling the unconvinced to make a purchase and coping with problem customers, the authors reveal, for the very first time, the reasons for these traders' extraordinary success-both on and away from the markets. Comparing their findings with more orthodox sales situations-direct response TV home shopping and infomercials, as well as other forms of grass-roots selling (fly pitching, the mock auction sales con, street entertaining and urban 'hustling')-the authors highlight many important lessons that have relevance for everyone involved in all types of marketing, advertising and persuasion.In this revised, updated and extended edition the authors also reveal why, today, pitching on markets appears to have become a dying art. Original, authoritative and highly readable, The Hard Sell is an essential and often hilarious guide for anyone who wants to understand how real-life selling really works.

This Is Where We Live Janelle Brown,2010-06-15 A "wildly entertaining" (San Francisco Chronicle) novel about a young marriage unraveling under the pressure of a subprime mortgage and ruthless Hollywood economics—from the New York Times bestselling author of Watch Me Disappear "Part social satire, part melodrama, part intimate domestic portrait . . . Brown has an uncanny eye for contemporary characters and settings."—Los Angeles Times Claudia and Jeremy, a young married couple (she's an aspiring filmmaker, he's an indie musician), are on the verge of making it. Her first film was a sensation at Sundance and is about to have its theatrical release; he's got a new band that is a few songs shy of an album. They've recently purchased their first home—a mid-century bungalow with a breathtaking view of Los Angeles—with the magical assistance of an adjustable-rate mortgage. But a series of seismic events—the tanking of Claudia's film, the return of Jeremy's manipulative, art-star ex-girlfriend, and the staggering adjustment of their monthly mortgage payments—threaten to deal a crushing blow to their dreams of the bohemian life and their professional aspirations and make them question their shared vision of the future.
