Wallpapers in Historic Preservation Catherine Lynn,1977 The papered and bordered wall was an important feature of American interiors during the 18th, 19th, and early 20th centuries. Paper hangings, both imported and of domestic manufacture, were more widely used than many of our restored buildings might lead us to believe. This book attempts to catalog and describe the variety, as well as accounting for restoration and preservation of pieces as part of the historical record. --Amazon.

Bitter Demons Sarra Cannon,2011-02-24 So far, life in Peachville has been tough for Harper Madison. She's survived attacks on her life, learned how to control her magic and met the most gorgeous boy with an unbelievable secret. After her latest stunt at Brighton Hospital, life has gotten even more complicated. The Order of Shadows is determined to tighten their control on her life. When a future Prima from a nearby demon gate comes to town, she and Harper decide to use glamours to switch places at a party. All Harper wants is to have a little fun. But the night will end in blood. And Harper will find out the attack was meant for her...

The Yellow Wallpaper Charlotte Gilman,2018-09-23 It is very seldom that mere ordinary people like John and myself secure ancestral halls for the summer.A colonial mansion, a hereditary estate, I would say a haunted house, and reach the height of romantic felicity-but that would be asking too much of fate!Still I will proudly declare that there is something queer about it.Else, why should it be let so cheaply? And why have stood so long untenanted?John laughs at me, of course, but one expects that in marriage.John is practical in the extreme. He has no patience with faith, an intense horror of superstition, and he scoffs openly at any talk of things not to be felt and seen and put down in figures.John is a physician, and perhaps-(I would not say it to a living soul, of course, but this is dead paper and a great relief to my mind)-perhaps that is one reason I do not get well faster.You see, he does not believe I am sick!And what can one do?If a physician of high standing, and one's own husband, assures friends and relatives that there is really

nothing the matter with one but temporary nervous depression-a slight hysterical tendency-what is one to do?My brother is also a physician, and also of high standing, and he says the same thing.

Wallpapers in Historic Preservation Catherine Lynn Frangiamore,Park Service National Park Service,2005-01-01 The papered and bordered wall was an important feature of American interiors during the 18th, 19th, and early 20th centuries. Paper hangings, both imported and of domestic manufacture, were more widely used than many of our restored buildings might lead us to believe. In the late 17th and early 18th centuries, not only were American walls whitewashed, painted, and wainscoted, but they were also hung with a variety of materials. An English visitor of 1750, James Birket, commented on the number of rooms in Newport, Rhode Island, that were hung with printed canvas and paper. There is also documentation in the 18th century for the use of leather and textile wall hangings in this country.As early as 1700, wallpapers were recorded among the stock of a Boston merchant, and by the late 18th century, paper hangings were available to the middle class as well as to the rich. American advertisers claimed that the low prices at which they will be sold will make papering cheaper than whitewashing. Easily transported, papers were available at surprisingly early dates not only in the seaboard urban centers, but also in the back country.During the 1840's, industrialization transformed the business of producing wallpapers and made them affordable in the average household. An appetite for papers was stimulated by manufacturers: their advertisements in this period promoted wallpaper for use in churches, banks, and offices, as well as in houses. The resulting popularity of

patterned walls is reflected in statistics of soaring production. In 1840, observers of the industry reported that this country produced two million rolls of paper. By the 1880's paper was the standard wall finish and production rose to 100 million rolls in 1890. This wallpaper craze continued until World War I, for almost every imaginable use, from nursery to butcher shops. Architects increasingly specified wallpapers for their designs, and many examples of the late 19th-century period survive both on site and in photographs. Today, wallpaper is rarely given adequate consideration in the restoration of interiors. However, it should be remembered that 18th- and 19th-century owners, architects, and builders may have visualized certain spatial effects of light, warmth, mood, and proportion dependent on the use of wallpaper--effects which are completely distorted when the walls are painted a solid color. Therefore, attempts to create rooms in restored houses require careful consideration of the appropriate interior wall finish. The likelihood that wallpaper may have been used should be recognized and investigated. Whether the objective is to accurately restore an interior to a specific date, or to convey the feeling of a period, wallpaper can contribute positively to the overall success of a restoration. Striving for an accurate restoration, a high level of objectivity must be maintained and the evidence carefully considered. There are some pitfalls to avoid in choosing the paper. Not just any paper will achieve the proper historical ambience, and finding the proper documented paper is not always easy. Many expensively restored late 19th-century rooms have been unwittingly papered with reproductions of distinctly 18th-century patterns which were readily available. The personal tastes of the board of directors, local decorators, influential donors or volunteer committees can pose great problems. Often, after professional research reveals the actual paper that

was used in a room, the results are ignored by members of an influential committee who consider the paper ugly and therefore inappropriate. The impulse to decorate in conformity with 20th-century taste is commonly allowed to prevail, but should be suppressed. If paper is to be hung, patterns consistent with any evidence found in situ, or contemporary to the restoration target date and the type of room, should be carefully chosen.

10,000 Wallpapers Matt Shears, 2011 Poetry. Matt Shears's new chapbook of poems, 10,000 WALLPAPERS, is a phenomenal hybrid that borrows from many genres and operates on many levels. It's fun, experimental, mythic, mealy-mouthed and unprotected. Sonically, it's flabbergasting, but never flabby. Thematically it's indefinable but refined, self-reflexive and aware but awkward as a first kiss, or a first kill. It operates almost as a misheard fable traveling from ice age to Ave C, a place where Masque meets Western, where the Renaissance slips into its finest Greek to watch a dreamy commedia dell'arte production. It's a place where heroes come unhinged, their singing severed from our fullest judgment by lost or destroyed pages, or who perhaps are being unsung themselves by a culture separating itself at its seams. In the end it's a joyride. Or an open letter to a mastodon from an endangered element. Or each of us, emptied on an open page like some beautiful thing.

Wallpaper Zoë Hendon, 2018-09-20 We agonise and argue when choosing it; we admire, compliment and criticise it (or keep politely quiet about it); and the rest of the time we don't even notice it. Wallpaper has been the backdrop to our homes for hundreds of years. It can make a house feel cosy or trendy, modern or traditional, and it is one of the key elements of home décor through which to express personal taste. Despite the threat from plain-painted minimalism, wallpaper maintains a strong presence in modern domestic decoration. Zoë Hendon traces the history of wallpaper in Britain and its foremost designers, examining how social mobility and new technologies have influenced design trends. From early Chinoiserie, through William Morris and on to the 'feature wall', this book looks at wallpaper's surprisingly controversial place in shaping our sense of home.
