DOMÓTICA - Automação Residencial e Casas Inteligentes com Arduino e ESP8266 Sergio Luiz Stevan Junior e Felipe Adalberto

Farinelli,2018-11-23 Vivemos em um mundo em que cada vez mais encontramos sistemas de automatização ao nosso redor. Já nos acostumamos com controles remotos em televisões, sistemas de home theaters, aparelhos de ar-condicionados, entre outras comodidades. Em casas mais modernas, vemos sistemas de climatização, controle de iluminação personalizado e diferentes sistemas de monitoramento. Mas somente isso não basta; queremos mais. Estamos vivendo um período de Internet das Coisas (IoT) e desejamos ter comunicação e informações nos mais diferentes lugares. Queremos nos comunicar com o que é nosso e não apenas automatizar, mas inserir conforto e inteligência à nossa volta. Diante deste cenário, este livro tenta fazer com que o leitor compreenda a necessidade de utilizar vários sensores e equipamentos para que uma casa automatizada e inteligente seja viável, abordando os requisitos para personalização de ambientes, com requisito de baixo custo, inseridos nos conceitos da IoT.

Landscape Architecture Theory Michael Murphy,2016-12-13 For decades, landscape architecture was driven solely by artistic sensibilities. But

in these times of global change, the opportunity to reshape the world comes with a responsibility to consider how it can be resilient, fostering health and vitality for humans and nature. Landscape Architecture Theory re-examines the fundamentals of the field, offering a new approach to landscape design. Drawing on his extensive career in teaching and practice, Michael Murphy begins with an examination of influences on landscape architecture: social context, contemporary values, and the practicalities of working as a professional landscape architect. He then delves into systems and procedural theory, while making connections to ecosystem factors, human factors, utility, aesthetics, and the design process. He concludes by showing how a strong theoretical understanding can be applied to practical, every-day decision making and design work to create more holistic, sustainable, and creative landscapes. Students will take away a foundational understanding of the underpinnings of landscape architecture theory, as well as how it can be applied to real-world designs; working professionals will find stimulating insights to infuse their projects with a greater sense of purpose.

Surveillance Studies David Lyon,2007-07-30 The study of surveillance is more relevant than ever before. The fast growth of the field of surveillance studies reflects both the urgency of civil liberties and privacy questions in the war on terror era and the classical social science debates over the power of watching and classification, from Bentham to Foucault and beyond. In this overview, David Lyon, one of the pioneers of surveillance studies, fuses with aplomb classical debates and contemporary examples to provide the most accessible and up-to-date introduction to surveillance available. The book takes in surveillance studies in all its breadth, from local face-to-face oversight through technical developments in closed-circuit TV, radio frequency identification and biometrics to global trends that integrate surveillance systems internationally. Surveillance is understood in its ambiguity, from caring to controlling, and the role of visibility of the surveilled is taken as seriously as the powers of observing, classifying and judging. The book draws on international examples and on the insights of several disciplines; sociologists, political scientists and geographers will recognize key issues from their work here, but so will people from media, culture, organization, technology and policy studies. This illustrates the diverse strands of thought and critique available, while at the same time the book makes its own distinct contribution and offers tools for evaluating both surveillance trends and the theories that explain them. This book is the perfect introduction for anyone wanting to understand surveillance as a phenomenon and the tools for analysing it further, and will be essential reading for students and scholars alike.

Suddenly We Didn't Want to Die Elton Mackin,2009-03-12 In the tradition of All Quiet on the Western Front, Elton E. Mackin’s memoirs are a haunting portrayal of war as seen through the eyes of a highly decorated Marine who fought in every Marine Brigade battle from Belleau Wood to the crossing of the Meuse on the eve of the Armistice. Praise for Suddenly We Didn't Want to Die “This beautifully written and truly gripping war memoir is a significant addition to battlefield literature. A minor classic . . . An altogether remarkable job [comparable] to Crane, Remarque and Mailer. Deserves the widest possible audience.”—The Cleveland Plain Dealer “This immediate, eloquent report merit[s] comparison with Thomas Boyd’s Marine Corps [1923] classic Through the wheat.”—Publishers Weekly “A real curiosity: a highly mannered World War I diary, published nearly 80 years after being written and 20 years after its author’s death. Bright snapshots abound...sometimes a young man’s lyricism takes over [but] the horror of war never departs. The diary has the faults one expects, and the promise one prays for. A fine addition to WWI literature.”—Kirkus Reviews “A forthright, eloquent, and powerful memoir certain to become an enduring testament to the drama and tragedy of World War I. Threaded with no small measure of poetry, this superb memoir is sure to become a classic.”—Great Battles “A plain but powerful tale . . . [in] vivid prose loaded with details that bring the

horrors of World War I to life, he tells an exceptional new version of the old story of battle transforming a boy into a veteran.”—American Library Association Booklist “To the ranks of Erich Maria Remarque, E.E. Cummings, John Dos Passos and Siegfried Sassoon, we must now add Elton Mackin . . . who, in a terse style reminiscent of Hemingway, [succeeds] in making someone unfamiliar with war truly now the frightfulness of the trenches and the greatness of the many men who fought in them.”—Marine Corps Gazette
