Reenactment Case Studies: Global Perspectives on Experiential History examines reenactment's challenge to traditional modes of understanding the past, asking how experience-based historical knowledge-making relates to memory-making and politics. Reenactment is a global phenomenon that encompasses living history, historical reality television, performance art, theater, historically-informed music performance, experimental archeology, pilgrimage, battle reenactment, live-action role play, and other forms. These share a concern with simulating the past via authenticity, embodiment, affect, the performative and subjective. As such, reenactment constitutes a global form of popular historical knowledge-making, representation, and commemoration. Yet, in terms of its historical subject matter, styles, and subcultures, reenactment is often nationally or locally inflected. The book thus asks how domestic reenactment practices relate to global ones, as well as to the spread of new populisms, and postcolonial and decolonizing movements. The book is the first to address these questions through reenactment case studies drawn from various world regions. Forming a companion volume to the *Reenactment Studies Handbook: Key Terms in the Field* (2020), *Reenactment Case Studies* is aimed at a wide academic readership, especially in the fields of history, film studies, memory studies, performance studies, museum and heritage studies, cultural and literary studies, and anthropology.

The Italian Army 1940-45 (2) Philip Jowett, 2001-01-25 At its peak the Italian Army contributed 2.5 million troops to the Axis war effort during World War II (1939-1945). In addition to its major role in North Africa, Italy's army invaded, and later bore the main burden of occupying, the Balkan countries. Italy also sent 250,000 men to fight on the Russian Front. In this second book of a three-part study Philip Jowett covers the organisation, uniforms and insignia of the Italian troops committed to both the North African campaign, and the often neglected East African fighting of 1940-41, including the colourful colonial units. Stephen Andrew's meticulous colour plates illustrate a wide range of uniforms.

MPLS has grown to be the new default network layer for service providers and is finding its way into enterprise networks as well. This book focuses on the building blocks of MPLS (architecture, forwarding packets, LDP, MPLS and QoS, CEF, etc.). This book also reviews the different MPLS applications (MPLS VPN, MPLS Traffic Engineering, Carrying IPv6 over MPLS, AToM, VPLS, MPLS OAM etc.). The Italian Army 1940-45 (1) Philip Jowett, 2000-04-25 At its peak the Italian Army contributed 2.5 million troops to the Axis war effort of World War II (1939-1945). English-speaking readers tend to think of this army in terms of the North African campaign; but far more Italian troops served in other theatres. They invaded, and later bore the major burden of occupying, the Balkan countries; and Italy sent 250,000 troops to fight on the Russian Front. In this, the first of a three-part study, Philip Jowett covers the European theatre - including Russia - from 1940 to Italy's armistice with the Allies in 1943. Many interesting uniforms, a number of them new to most readers, are meticulously illustrated by Stephen Andrew.
