The papers of DUXU 2021, Part II are organized in topical sections named: Experience Design across Cultures; Design for Inclusion and Social Development, Design for Health and Well-being; DUXU Case Studies.

Asia Branding Bang Nguyen, T C Melewar, Don E. Schultz, 2017-09-16 This core adoptable textbook provides a comprehensive treatment of branding in Asia, focusing on a wide range of key Asian countries including China, India, Japan, South Korea and members of ASEAN. This edited collection includes a unique blend of theory, research and practice across both consumer and corporate branding and discusses the topics of brand communication, brand relationships, social media branding, brand reputation, place brands, university branding and brand innovation. Looking at the relationship between companies, brands and consumers, this book highlights the need for a variety of strategic responses to meet the needs of different Asian consumers. Asia Branding is the perfect resource for branding and international marketing undergraduate, postgraduate and MBA students looking to gain further insight into this fascinating subject.

Smart Trends in Computing and Communications Tomonobu Senjyu, Chakchai So-In, Amit Joshi, 2023 This book gathers high-quality papers presented at the Seventh International Conference on Smart Trends in Computing and Communications (SmartCom 2022), organized by Global Knowledge Research Foundation (GR Foundation) from January 24-25, 2023, in Jaipur, India. It covers the state-of-the-art and emerging topics in information, computer communications, and effective strategies for their use in engineering and managerial applications. It also explores and discusses the latest technological advances in, and future directions for, information and knowledge computing and its applications.

**Emotions in the Digital World** Robin L. Nabi, Jessica Gall Myrick, 2023 The 21st century has seen rapid and profound technological innovations that have fundamentally changed our media environment. Our now unlimited access to information, entertainment, and social interaction is simply unprecedented. It is undeniable that this new media landscape impacts important aspects of our daily experiences - how we spend our time, who we connect with, what we know about each other and the world around us. But at a deeper level, this newer, digitized media age influences a fundamental aspect of what it means to be human: our emotional experiences. Given the centrality of emotions to both psychological and physical well-being, as well as to shaping human behavior, understanding how our current media environment impacts our emotional experiences - in ways both helpful and harmful - is critical to understanding the role media use plays in emotional development, life experiences, and societal events--

**Customer Relationship Management** Roger J. Baran, Robert J. Galka, 2016-12-08 This book balances the behavioral and database aspects of customer relationship management, providing students with a comprehensive introduction to an often overlooked, but important aspect of marketing strategy. Baran and Galka deliver a book that helps students understand how an enhanced customer relationship strategy can differentiate an organization in a highly competitive marketplace. This edition has several new features: Updates that take into account the latest research and changes in organizational dynamics, business-to-business relationships, social media, database management, and technology advances that impact CRM. New material on big data and the use of mobile technology. An overhaul of the social networking chapter, reflecting the true state of this dynamic aspect of customer relationship management today. A broader discussion of the relationship between CRM and the marketing function, as well as its implications for the organization as a whole. Cutting

edge examples and images to keep readers engaged and interested A complete typology of marketing strategies to be used in the CRM strategy cycle: acquisition, retention, and win-back of customers With chapter summaries, key terms, questions, exercises, and cases, this book will truly appeal to upper-level students of customer relationship management. Online resources, including PowerPoint slides, an instructor's manual, and test bank, provide instructors with everything they need for a comprehensive course in customer relationship management.

The Impact of Online Addiction on General Health, Well-Being and Associated Societal Costs Georgios D. Floros,Konstantinos Ioannidis,2021-05-31

**Uncertainty of Communication Interpreting Global Social Media Communication in a Way of Philosophy of Science** Dong Chao,2021-05-26 This paper attempts to jump out of the original interpretation framework of social science and to explain new communication phenomena in a novel way of philosophy of science. The paper believes that the development of the communication revolution, especially the recent information technology revolution, not only makes human being step into an advanced information society but also fundamentally changes the traditional communication methods. So, when traditional communication science is insufficient to interpret novel media phenomena, using the philosophy of science to explain these new communication phenomena is not only feasible but also necessary. This paper thinks that the so-called philosophy of science is the product of transforming science knowledge into wisdom, including not only the concept and methodology of natural science, but also the humanistic understanding of modern science.

The Oxford Handbook of Mobile Communication and Society Rich Ling,Leopoldina Fortunati,Gerard Goggin,Sun Sun Lim,Yuling Li,2020-04-06 Mobile communication has dramatically changed over the past decade with the diffusion of smartphones. Unlike the basic 2G mobile phones, which merely facilitated communication between individuals on the move, smartphones allow individuals to

communicate, to entertain and inform themselves, to transact, to navigate, to take photos, and countless other things. Mobile communication has thus transformed society by allowing new forms of coordination, communication, consumption, social interaction, and access to news/entertainment. All of this is regardless of the space in which users are immersed. Set in the context of the developed and the developing world, *The Oxford Handbook of Mobile Communication and Society* updates current scholarship surrounding mobile media and communication. The 43 chapters in this handbook examine mobile communication and its evolving impact on individuals, institutions, groups, societies, and businesses. Contributors examine the communal benefits, social consequences, theoretical perspectives, organizational potential, and future consequences of mobile communication. Topics covered include, among many other things, trends in the Global South, location-based services, and the application of mobile communication and society.

**Human-Computer Interaction. Novel User Experiences** Masaaki Kurosu, 2016-07-04 The 3-volume set LNCS 9731, 9732, and 9733 constitutes the refereed proceedings of the 18th International Conference on Human-Computer Interaction, HCI 2016, held in Toronto, ON, Canada, in July 2016. The total of 1287 papers and 186 posters presented at the HCI 2016 conferences and were carefully reviewed and selected from 4354 submissions. The papers thoroughly cover the entire field of Human-Computer Interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The volumes constituting the full 27-volume set of the conference proceedings.

**CALL communities and culture - short papers from EUROCALL 2016** Salomi Papadima-Sophocleous, Linda Bradley, Sylvie Thouësny, 2016-12-18 The 23rd EUROCALL conference was organised by the Cyprus University of Technology Language Centre. The theme of the conference was "CALL communities and Culture". Between the 24th and 27th August 2016, over 135 presentations were delivered and 27 posters were presented; 84 of these presentations appear in this volume of selected peer-reviewed short papers.

**Dark and Bright Side of Social Media in Current Normal** Ali Nawaz Khan, Ahsan Ali, Naseer Abbas Khan, Tahir Islam, 2022-08-03

**Green Communication and China** Jingfang Liu, Phaedra C. Pezzullo, 2020-09-01 How does China speak for nature? How are the pollution and climate change crises being addressed? What are the possibilities and limitations of mobilizing publics to care about the environment through new media, tourism, and government policy? *Green Communication and China* is the first volume to identify the importance of studying environmental communication in, about, and with China, a rising global environmental leader whose ecological and political controversies often make international headlines. Organized into three sections on communicating crisis, communicating care, and environmental futurity, these essays span multimodal communication practices and methods in green public culture and address topics ranging from The North Face advertisements to NGO advocacy to global governmental policy. The volume showcases the work of leading scholars, all of them deeply intimate with China, in disciplines ranging from cultural studies and rhetoric to public opinion polling, discourse analysis, ethnic studies, and sociology. These complex projects engage transnational and national politics, ecological and economic challenges, media saturation, and government control. Holding these tensions together without glossing over differences, *Green Communication and China* will inform new agendas for environmental communication in China, the United States, and beyond.

**Chinese Social Networks in an Age of Digitalization** Anson Au, 2023-12-01 *Chinese Social Networks in an Age of Digitalization* investigates the impact of digital media on the traditional Chinese model of social interaction, trust-building, and social capital, known as *guanxi*. *Guanxi* is a system of cultural and psychological rules of networking that orders every interaction in China, from the labor market, to politics, to business, and even law. It is the lifeblood of the nation and nearly just as old. But how has *guanxi* kept pace with the modern rapids of digitalization? This book is the first to examine how the rise of social networking sites is transforming *guanxi* in everyday networking in China, home to the largest population of users worldwide and nearly universal adoption in the nation. This monograph argues that digitalization is making *guanxi* liquid: that social and geographical

boundaries are being melted away – and with it, people are experiencing a newfound liberation in how they network, trust, and feel toward others. Au asserts that Chinese modernity itself is transforming into what it calls a digital agora, a new intermediary space between the public and private spheres that balances obligations to both realms. The book offers researchers and students a window into how digitalization is changing how people in *guanxi* fundamentally think about who to trust, how to interact and compose themselves, and what it takes to socially survive in a rapidly advancing age of digitalization.

**Ageing with Smartphones in Urban China** Xinyuan Wang, 2023-09-04 If we want to understand contemporary China, the key is through understanding the older generation. This is the generation in China whose life courses almost perfectly synchronised with the emergence and growth of the ‘New China’ under the rule of the Communist Party (1949). People in their 70s and 80s have double the life expectancy of their parents’ generation. The current eldest generation in Shanghai was born in a time when the average household could not afford electric lights, but today they can turn their lights off via their smartphone apps. Based on 16-month ethnographic fieldwork in Shanghai, *Ageing with Smartphones in Urban China* tackles the intersection between the ‘two revolutions’ experienced by the older generation in Shanghai: the contemporary smartphone-based digital revolution and the earlier communist revolutions. We find that we can only explain the smartphone revolution if we first appreciate the long-term consequences of these people’s experiences during the communist revolutions. The context of this book is a wide range of drastic social transformations in China, from the Cultural Revolution to the individualism and Confucianism in Digital China. Supported by detailed ethnographic material, the observations and analysis provide a panorama view of the social landscape of contemporary China, including topics such as the digital and everyday life, ageing and healthcare, intergenerational relations and family development, community building and grassroots organizations, collective memories and political attitudes among ordinary Chinese people.

**Cuteness Engineering** Aaron Marcus, Masaaki Kurosu, Xiaojuan Ma, Ayako Hashizume, 2017-10-30 This state of the art monograph presents a unique introduction to thinking about cuteness and its incorporation into modern, especially computer-based, products and services. Cuteness is defined and explored in relation to user-centered design concepts and methods, in addition to considering the history of cuteness and cuteness in other cultures, especially in relation to eastern Asia. The authors provide detailed analyses and histories of cuteness in Japan and in China, the rise of Kawaii and Moe cultural artifacts, and their relation to social, psychological, and design issues. They also attempt an initial taxonomy of cuteness. Finally, detailed interviews with leading designers of cute products and services, such as Hello Kitty, provide an understanding of the philosophy and decision-making process of designers of cuteness. *Cuteness Engineering: Designing Adorable Products and Services* will be of interest and use to a wide range of professionals, researchers, academics, and students who are interested in exploring the world of cuteness in fresh new ways and gaining insights useful for their work and studies.

*The Routledge Companion to Global Internet Histories* Gerard Goggin, Mark McLelland, 2017-02-17 The *Routledge Companion to Global Internet Histories* brings together research on the diverse Internet histories that have evolved in different regions, language cultures and social contexts across the globe. While the Internet is now in its fifth decade, the understanding and formulation of its histories outside of an anglophone framework is still very much in its infancy. From Tunisia to Taiwan, this volume emphasizes the importance of understanding and formulating Internet histories outside of the anglophone case studies and theoretical paradigms that have thus far dominated academic scholarship on Internet history. Interdisciplinary in scope, the collection offers a variety of historical lenses on the development of the Internet: as a new communication technology seen in the context of older technologies; as a new form of sociality read alongside previous technologically mediated means of relating; and as a new media vehicle for the communication of content.
