The Linguaging of Higher Education in the Global South Sinfree Makoni, Cristine G. Severo, Ashraf Abdelhay, Anna Kaiper-Marquez, 2022-01-06 By foregrounding language practices in educational settings, this timely volume offers a postcolonial critique of the languaging of higher education and considers how Southern epistemologies can be used to further the decolonization of post-secondary education in the Global South. Offering a range of contributions from diverse and minoritized scholars based in countries including South Africa, Rwanda, Sudan, Qatar, Turkey, Portugal, Sweden, India, and Brazil, *The Linguaging of Higher Education in the Global South* problematizes the use of language in various areas of higher education. Chapters demonstrate both subtle and explicit ways in which the language of pedagogy, scholarship, policy, and participation endorse and privilege Western constructs and knowledge production, and utilize Southern theories and epistemologies to offer an alternative way forward – practice and research which applies and promotes Southern epistemologies and local knowledges. The volume confronts issues including integrationism, epistemic solidarity, language policy and ideology, multilingualism, and the increasing use of technology in institutions of higher education. This innovative book will be of interest to researchers, scholars, and postgraduate students in the fields of higher education, applied linguistics, and multicultural education. Those with an interest in the decolonization of education and language will find the book of particular use.

WhatsApp Amelia Johns, Ariadna Matamoros-Fernández, Emma Baulch, 2023-11-28 In the 2010s, as chat apps became a primary mode of communication for many people across the world, WhatsApp quickly outpaced rival messaging apps and developed into a platform. In this book, the authors provide a comprehensive account of WhatsApp's global growth. Charting WhatsApp's evolution from its founding in 2009 to the present day, they argue that WhatsApp has been transformed from a simple, 'gimmickless' app into a global communication platform. Understanding this development can shed light on the trajectory of Meta's industrial development, and how digital economies and social media landscapes are evolving with the rise of 'superapps'. This book explores how WhatsApp's unique characteristics mediate new kinds of social and commercial transactions; how they pose new opportunities and challenges for platform regulation, civic participation and democracy; and how they give rise to new kinds of digital literacy as WhatsApp becomes integrated into everyday digital cultures across the globe. Accessibly written, this book is an essential resource for students and scholars of digital media, cultural studies, and media and communications.

Approaches to Specialized Genres Kathy Ling LIN, Isaac N. Mwinlaaru, Dennis Tay, 2020-12-29 Approaches to Specialized Genres provides a timely update of the field of genre studies, with 14 cutting-edge contributions split into five sections using and integrating an exceptionally wide variety of methods and perspectives (such as ESP genre research, corpus linguistics, systemic functional linguistics, ethnographic and multimodal research) to analyse genres in written, spoken, visual and auditory modes across a multiplicity of pedagogic, professional and digital settings. It highlights and illustrates the growing trend of a multiperspective and inter-theoretic approach to genre studies and demonstrates how such methodological rigour can extend our knowledge of language, in general, and genres, in particular. It also examines a rich variety of underexplored genres such as the digital genre of synchronous videoconferencing, instructional slides, video ads, engineers' training log book entries, the narrative story genres, fundraising letters and retraction notices. It demonstrates not only the prominent value of genre research, but wide applications of genre knowledge in various educational and professional domains. The book brings together experts spreading across the world, including countries in South-East Asia, Europe, America, West Africa and South America. Accordingly, it will appeal to readers of diversified socio-cultural backgrounds working in all the aforementioned inter-related fields of applied linguistics and communication studies.

Ember Academy for Young Witches: Books 1-6 L.C. Mawson, 2021-09-10 Ancient curses. Blocked memories. And an Academy for young witches that might just hold the answers. I should have known something was wrong when my weird aunt arrived in town just as I started getting killer headaches. But how was I supposed to know that it was a sign of repressed magic? Or that an ancient witch had escaped her tomb and sent demons after me? Demons who cursed my mother. I wanted to stay with her, even if she wouldn't wake, but I was sent to Ember Academy for Young Witches instead. Somewhere the demons hopefully can't get me. Pragmatic Markers, Discourse Markers and Modal Particles Chiara Fedriani, Andrea Sansó, 2017-11-15 This book offers new perspectives into the description of the form, meaning and function of Pragmatic Markers, Discourse Markers and Modal Particles in a number of different languages, along with new methods for identifying their 'prototypical' instances in situated language contexts, often based on cross-linguistic comparisons. The papers collected in this volume also discuss different factors at play in processes of grammaticalization and pragmaticalization, which include contact-induced change and pragmatic borrowing, socio-interactional functional pressures and sociopragmatic indexicalities, constraints of cognitive processing, together with regularities in semantic change. Putting the traditional issues concerning the status, delimitation and categorization of Pragmatic Markers, Discourse Markers

and Modal Particles somewhat off the stage, the eighteen articles collected in this volume deal instead with general questions concerning the development and use of such procedural elements, explored from different approaches, both formal and functional, and from a variety of perspectives – including corpus-based, sociolinguistic, and contrastive perspectives – and offering language-specific synchronic and diachronic studies.

Words "A Brief Story Of Those That Leave" Lorena Franco,2017-06-28 A Brief Story Of Those That Leave. A play on words that becomes an addiction and has conquered all those that delve into it. WORDS is not a love story. It is a story of falling out of love. When Emma thinks she has the perfect life she has always dreamed of, Diego, the love of her life and the man she is about to marry, leaves her for another. He packs his bags and simply leaves, as if Emma's feelings were worth nothing. Months later, still heartbroken and not able to see a way out of her deep sadness, Emma decides to go to Silvia's office, a reputable psychologist in Barcelona who has unusual methods. Our protagonist needs to live again and above all, regain her self-confidence. Silvia suggests Emma a game of nine words. Each word will be a part of the story of Emma and Diego. Each word will make Emma open her eyes and understand that her

relationship was not the fairytale she thought, nor was Diego the perfect man she saw. Each of the NINE words will be key for Emma to see that there is life after a breakup and that destiny can surprise us. This is a short tale you will read a thousand times, personal and unique, that talks about those that leave and break our heart a little. The thing is: One always remember those kisses in which everything is forgotten. Let yourself be seduced by some WORDS you will never forget, and perhaps they will belong to you too.

Promised Land: Exploring South Africa's Land Conflict Karl Kemp, 2020-10-04 Land reform and the possibility of expropriation without compensation are among the most hotly debated topics in South Africa today, met with trepidation and fervour in equal measure. But these broader issues tend to obscure a more immediate reality: a severe housing crisis and a sharp increase in urban land occupations. In *Promised Land*, Karl Kemp travels the country documenting the fallout of failing land reform, from the under-siege Philippi Horticultural Area deep in the heart of Cape Town's ganglands to the burning mango groves of Tzaneen, from Johannesburg's lawless Deep South to rural KwaZulu-Natal, where chiefs own vast tracts of land on behalf of their subjects. He visits farming communities beset by violent crime, and provides gripping, on-the-ground reporting of recent land invasions, with perspectives from all sides, including land activists, property owners and government officials. Kemp also looks at burning issues surrounding the land debate in South Africa – corruption, farm murders, illegal foreign labour, mechanisation and eviction – and reveals the views of those affected. Touching on the history of land conflict and conquest in each area, as well as detailing the current situation on the ground, *Promised Land* provides startling insights into the story of land conflict in South Africa.
