Merger Control in the EU and Turkey Fevzi Toksoy, Bahadır Balki, Hanna Stakheyeva, 2022-05-11 As a country on the way to integration with the European Union (EU), Turkey has been following EU principles in establishing and improving its merger control regime, as well as overall competition law, keeping pace with changes in relevant EU legislation and case law. This book presents, for the first time, a description and analysis of the relationship between the EU and Turkish merger control law and practice. The second edition of the book considers the legislative changes that occurred in 2020-2021, including the reform of the Turkish Competition Law which

introduced the significant impediment to effective competition (SIEC) test into the Turkish concentration control. The authors—all three, both practicing lawyers and academicians in Turkey—focus on comparing substantive, procedural and jurisdictional issues and draw parallels on their regulation in the two jurisdictions. These matters include the following: determining whether a transaction shall be regarded as a notifiable merger, hence be subject to control; financial thresholds used for allocating jurisdictions; extraterritoriality of merger control; relationship between the SIEC test and the dominance test; determination of the relevant market; techniques used for assessment of horizontal and non-horizontal mergers; notification requirements; procedural duties of competition authorities in relation to remedies; third-party rights; gun-jumping fines and other sanctions for failure to comply with merger control requirements; and peculiarities of assessment of mergers in the Big Data world. Each chapter provides an overview of the respective issues in the EU and Turkey, projecting a clear understanding of the main similarities and differences in the two regimes. A notable feature is an in-depth analysis of applicable case law concerning each issue, with most of the Turkish decisions available in English for the first time. The book's comparative approach will prove to be of great value. With its clear answers to questions about what transactions are subject to merger control, what criteria are used in assessing those transactions, and the main issues that a foreign company should be aware of while merging with another foreign company with effect in Turkey and/or EU, the book will be of immeasurable value for lawyers and their business clients dealing with multijurisdictional merger cases. Interested academics and policymakers will also find much here to attract their attention.

Mobile Media and Social Intimacies in Asia Jason Vincent A. Cabañes, Cecilia S. Uy-Tioco, 2020-01-09 This edited volume brings together cutting-edge studies from emerging scholars of East/Southeast Asia who explore the role of mobile media in the contemporary transformation of the region's social intimacies, from the romantic to the familial to the communal. By providing a regional and transnational overview of such studies, it affords new insights into how these mobile technologies have contributed to the rise of 'glocal intimacies'. This pertains to the normalisation and intensification of how people's relationships of closeness are entangled in the ever-shifting and constantly negotiated flows between global modernity and local everyday life. In providing case studies of mobile media and glocal intimacies, the chapters in the volume attend to a broad range of countries that include China, Korea, Malaysia, the Philippines, Singapore, Vietnam, and Taiwan. This illustrates the differing ways in which mobile media might be embedded in the region's divergent articulations of social intimacies, which reflect the ongoing tensions between Western and Asian imaginaries of modernity. The chapters also discuss a wide array of mobile media that people use, from social media platforms like Facebook and Instagram, to messaging apps like KakaoTalk and WhatsApp, to dating apps like Tinder and Blued. This allows for a mapping out of the different levels of impact that mobile media might have on social intimacies in a region that contains some of the most technologically advanced as well as the most technologically behind societies in the world. In summary, this book allows readers to take a comparative approach to understanding the complexity of the glocal intimacies that are emerging from the ways people in Asia use mobile media to reconfigure their local ties and to enact global relationships. This volume will benefit students, academics, and researchers who are keen in media and communication, cultural studies, sociology, anthropology, and Asian studies. “This exciting and much-needed book will greatly advance our efforts to decolonise media and communications research. The chapters offer empirically rich and nuanced accounts that

challenge the dominant paradigms about mediated intimacy.” Mirca Madianou, Goldsmiths, University of London “This collection develops the original concept of ‘glocal intimacies’ to describe how mobile media have become a crucial site where new social intimacies are enacted, reinforced and transformed in Asia. It introduces fresh empirical research from emerging scholars to furnish deep theoretical insights into these imaginaries and practices.” Audrey Yue, National University of Singapore
