**Love Notes From My Phone** Cat Hopes, 2022-01-31 'Walking in the dark abyss of pain and anguish made me feel like there was no hope for survival and that it was not worth it to carry on. I viewed love through a dark haze at times, and heartbreak embodied my life for many years; I took solace in drunken escapades with men and meaningless sexual experiences. This is my story; this is my truth; this is the real, raw, emotional, passionate, ecstatic, painful, genuine tale of my life. This is

a tale of longing for so long when, if only I had held my head high and my shoulders upright, I would have realized it was me I was looking for in the mirror all along.’ Cat Hopes

**Me and My Cell Phone** Crystal Powell, 2012-04-24 Cell phones and the Internet have been the recipients of in-depth research on their increased and rapid integration into everyday life and the innovative appropriations associated with them in many societies. The cell phone has attracted particular attention in its perceived abilities to both enhance and destruct social relationships. Our increased access to social media and to the cell phone has taken social networking to an unprecedented level. These communication technologies are revered by many as great, all-purpose, all-positive communication devices in spite of their flaws. They are overwhelmingly bestowed with agency and superiority. Too often, they are idolized with little regard to how they affect and are affected by their users on a personal level. The mutual shaping between technology and society is not adequately acknowledged. Technologies, in spite of the seemingly endless possibilities offered by their many functions, can quite literally be sterile and useless objects outside of conscious and tangible human effort. Cell phones and the Internet, though undoubtedly capable of providing myriad beneficial opportunities for their users, need at long last to be put in their place. This book is a contribution in that regard. Kindled by her own intimate history with her cell phone and a growing curiosity about ICTs in general, this book is a culmination of Crystal Powells thoughts, reactions to and interpretations of some of the literature on these technologies. The book draws on and critically reviews contributions by some leading authors on the social shaping of ICTs and social media to offer a more nuanced and complex understanding of technology in relation to those who use and are used by it.

Author was unaware of the use of smart phones and was perplexed over the hold of Smart phones over people. However, forgetting all that, one night he was just pressing buttons of his 'Not so smart phone' and from the Message Inbox covered a nostalgic journey of a previous few years of his life - From the fear of Loans to the bond of Friendship; From the struggle of a Journey to a relation with a Credit card executive; From Complaints to few Memories - Some truths.. Some fiction.. Few messages.. And 'The Bottom Button' .....
