Windows 8.1 For Dummies Andy Rathbone,2013-09-25
The bestselling book on Windows, now updated for
the new 8.1 features Microsoft has fine-tuned
Windows 8 with some important new features, and
veteran author Andy Rathbone explains every one in
this all-new edition of a long-time bestseller.
Whether you're using Windows for the first time,
upgrading from an older version, or just moving
from Windows 8 to 8.1, here's what you need to
know. Learn about the dual interfaces, the new
Start button, how to customize the interface and
boot operations, and how to work with programs and
files, use the web and social media, manage music
and photos, and much more. You'll even find
troubleshooting tips! This edition covers the
upgrades in Windows 8.1, including the dual
interfaces, basic mechanics, file storage, and how
to get the free upgrade to Windows 8.1 Shows how
to manipulate app tiles, give Windows the look you
choose, set up boot-to-desktop capabilities,
connect to a network, and create user accounts
Covers working with programs, apps, and files;
using the Internet and social media; new apps and
capabilities for working with onboard and online
media; and how to move files to a new PC Written
by Andy Rathbone, author of every edition of the
bestselling Windows For Dummies Windows 8.1 For
Dummies is exactly what you need to get going and
be productive with the newest Windows update.

   Beginning Windows 8.1 Mike Halsey,2013-11-26
Windows 8 has been described by Microsoft as its
'boldest' Windows release ever and the 8.1 update
enhances the paradigm further. Beginning Windows
8.1 takes you through the new features and helps
you get more out of the familiar to reveal the
fullest possibilities for this amazing new
operating system. You will learn, with non-
technical language used throughout, how to get up
and running in the new Windows interface, minimize
downtime, maximize productivity, and harness the
features you never knew existed to take control of
your computer and enjoy the peace of mind and

excitement that comes with it. From tips and tweaks to easy-to-follow guides and detailed descriptions, this book takes you inside Windows 8.1 to discover the true power and flexibility that lies within, and guides you at your own pace through getting the very best from it.

  Installing Windows 8 Step by Step Stephen P Thomas ,2013-03-09 This book will quickly show you how to upgrade your Windows computer to the new Windows 8. What you will learn: • What you should know about before you attempt to upgrade your Windows computer • What is new in Windows 8 • How to backup your files • How to create your windows install DVD from ISO file • Tips and Tricks • Step by Step process of upgrading and installing your new Windows 8. Windows 8 is a major step in the right direction for the Windows operating system. It has been the least understood version of Windows but in my opinion the best upgrade since Window XP. In order to relieve one from shell shock there are things that should be initially understood. With this understanding, you will find that Microsoft has made some very good decisions with Windows 8, to adapt with the major changes in computer devices such as tablets and smart phones. These devices will dominate in the very near future and any operating system that is going to be relevant in this new world will have to be compatible with them otherwise it will go the way of the dinosaurs. The concept that made me quickly adapt to Windows 8 is to understand that in previous versions of Windows there was a start button, this start button was replaced in Windows 8 by a much more robust interactive start screen.

So rather than clicking this overcrowded nested start button, which on many computers reached its physical limit of the number of icons that can be reasonably displayed, you are now redirected to the start screen than can be personalize in ways which has never before been accomplished in desktop computing. I must say that this is the most useful desktop of any Windows version up to date. I now use the Windows 8 start screen more than ever. With previous versions of Windows I rarely used the desktop. I must say that my productivity has increased 100 percent since I started using Windows 8. My first computer was a Commodore Vic-20 so I can say I have used almost every user interface invented since the 1980s. If I can quickly adapt so can you.

Everyday Computing with Windows 8.1 Kevin Wilson,2015-01-05 Get the most out of Windows 8.1 for your every day computing tasks, with no jargon. Clear, concise and to the point. This brief book, Everyday Computing With Windows 8.1 provides the essentials of using a desktop or laptop running Windows 8 or 8.1, providing a fast read for the beginner and the enthusiast. Windows 8 can give new users fits with options that are well hidden; this book uncovers those so that the user can be relieved of frustration. Techniques are illustrated step-by-step using photography and screen prints throughout, together with concise, easy to follow explanations from an established expert in the field. Whether you have just bought your first computer or laptop or are a computer user who needs a better understanding of the basics, this book will provide you with a firm

grasp of the underpinning foundations and equip you with the skills needed to take command of your computer.

It tells you exactly what you need to know, when you need to know it. Spend less time reading and more time doing with a simple step-by-step approach to beginner and intermediate level office tasks. Brilliant guides provide the quick, easy-to-access information that you need - Numbered steps guide you through each task or problem Numerous screenshots illustrate each step Cross reference boxes point you to related tasks and information in the book "Did you know ?..." sections alert you to relevant expert tips, tricks and advice

  <u>Windows 8.1: The Missing Manual</u> David Pogue,2013-11-26 Windows 8.1 continues the evolution of the most radical redesign in Microsoft's history. It combines the familiar Windows desktop with a new, touchscreen-friendly world of tiles and full-screen apps. Luckily,

David Pogue is back to help you make sense of it?with humor, authority, and 500 illustrations. The important stuff you need to know: What's new in 8.1. The update to 8.1 offers new apps, a universal Search, the return of the Start menu, and several zillion other nips and tucks. New features. Storage Spaces, Windows To Go, File Histories?if Microsoft wrote it, this book covers it. Security. Protect your PC from viruses, spyware, spam, sick hard drives, and out-of-control kids. The network. HomeGroups, connecting from the road, mail, Web, music streaming among PCs?this book has your network covered. The software. Media Center, Photo Gallery, Internet Explorer, speech recognition?this one authoritative, witty guide makes it all crystal clear. It's the book that should have been in the box.

  <u>Windows 8.1</u> Paul McFedries,2014 Simple. Les mots simples, les explications claires, c'est tellement mieux. Pratique. Chaque procédure est décrite dans le détail, pas à pas. Visuel. A chaque étape, un écran en couleurs parfaitement lisible.

Eventually, you will unquestionably discover a other experience and achievement by spending more cash. nevertheless when? reach you take that you require to get those all needs subsequent to having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to comprehend even more on the order of the globe, experience, some places, taking into account history, amusement,

and a lot more?

It is your completely own mature to feign reviewing habit. in the middle of guides you could enjoy now is **Windows 8 Exe** below.
