This stirring book looks at all the evidence, examining the different theories behind the lost city of Atlantis.

Theodosia and the Serpents of Chaos R. L. LaFevers, 2007 Theodosia Throckmorton has her hands full at the Museum of Legends and Antiquities in London. Her father may be head curator, but it is Theo--and only Theo--who is able to see all the black magic and ancient curses that still cling to the artifacts in the museum. When Theo's mother returns from her latest archaeological dig bearing the Heart of Egypt--a legendary amulet belonging to an ancient tomb--Theo learns that it comes inscribed with a curse so black and vile that it threatens to crumble the British Empire from within and start a war too terrible to imagine. Intent on returning the malevolent artifact to its rightful place, Theo devises a daring plan to put things right. But even with the help of her younger brother, a wily street urchin, and the secret society known as the Brotherhood of the Chosen Keepers, it won't be easy . . . she quickly finds herself pursued down dark alleys, across an ocean, through the bustling crowds of Cairo, and straight into the heart of an ancient mystery. Theo will have to call upon everything she's ever learned in order to prevent the rising chaos from destroying her country--and herself!

101 Relaxation Games for Children Allison Bartl, Almuth Bartl, 2007 The games in this book help teachers, parents, and others who work with children maintain or restore order, refocus children's attention, and break up the classroom routine. Most of the games are quite short and can be used between academic activities as a treat or quick break. Many are noncompetitive, most don't require props, and none require special skills or training. All can be played with the whole class; there are partner games, small group games, and outdoor games. Clear, complete instructions are included for each activity, and icons denote appropriate age levels, time, and group size. Author Allison Bartl has tested all of the games herself and recommends that the teacher or parent fully participate in each game, both to relax and to provide a model of good social behavior. Tips and thoughtful quotations from Goethe, Rudolf Steiner, Seneca, Lao Tse, Mother Theresa, and others are also included.

Summer and Bird Katherine Catmull, 2012-10-02 An enchanting--and twisted--tale of two sisters' quest to find their parents When their parents disappear in the middle of the night, young sisters Summer and Bird set off on a quest to find them. A cryptic picture message from their mother leads them to a familiar gate in the woods, but comfortable sights quickly give way to a new world entirely--Down--one inhabited by talking birds and the evil Puppeteer queen. Summer and Bird are quickly separated, and their divided hearts lead them each in a very different direction in the quest to find their parents, vanquish the Puppeteer, lead the birds back to their Green Home, and discover the identity of the true bird queen. With breathtaking language and deliciously inventive details, Katherine Catmull has created a world unlike any other, skillfully blurring the lines between magic and reality and bringing to life a completely authentic cast of characters and creatures.

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Fantastic Undersea Life of Jacques Cousteau Dan Yaccarino, 2012-05-08 Jacques Cousteau was the world's ambassador of the oceans. His popular TV series brought whales, otters, and dolphins right into people's living rooms. Now, in this exciting picturebook biography, Dan Yaccarino introduces young readers to the man behind the snorkel. From the first moment he got a glimpse of what lived under the ocean's waves, Cousteau was hooked. And so he set sail aboard the *Calypso* to see the sea. He and his team of scientists invented diving equipment and waterproof cameras. They made films and television shows and wrote books so they could share what they learned. The oceans were a vast unexplored world, and Cousteau became our guide. And when he saw that pollution was taking its toll on the seas, Cousteau became our guide in how to protect the oceans as well.

The Land of the Silver Apples Nancy Farmer, 2015-07-28 "Like the druidic life force Jack taps, this hearty adventure, as personal as it is epic, will cradle readers in the 'hollow of its hand' (Booklist, starred review). Jack has caused an earthquake. He was trying to save his sister Lucy from being thrown down a well, but sometimes the magic doesn't quite work out. Not only does Jack demolish a monastery, but Lucy is carried off by the Lady of the Lake, and Jack has to follow her through the Hollow Road, which lies underground. Aided by Pega, a slave, and the berserker Thorgil, Jack encounters hobgoblins, kelpies, yarthkins, and elves—not the enchanted sprites one would expect, but fallen angels who steal human children for pets. In the eighth century, the world is caught between belief in the Old Gods and Christianity, and what Jack and his companions do will decide the fate of both religions. From National Book Award winner Nancy Farmer, this second book in the *Sea of Trolls* trilogy brilliantly enlarges the world of the first story. Look for the conclusion in *The Islands of the Blessed*.

The book is not meant to provide a comprehensive nor complete academic reference, but rather an accessible distillation, a delightful confection in its own right, about a film that is one of the most beloved pieces of motion picture art and one that has resonated across three-quarters of a century.
