Five Days That Shocked the World Nicholas Best, 2012-01-17 In the momentous days from April 28 to May 2, 1945, the world witnessed the death of two Fascist dictators and the fall of Berlin. Mussolini's capture and execution by Italian partisans, the suicide of Adolf Hitler, and the fall of the German capital signaled the end of the four-year war in the European Theater. In Five Days That Shocked the World, Nicholas Best thrills readers with the first-person accounts of those who lived through this dramatic time. In this valuable work of history, the author's special achievement is weaving together the reports of famous and soon-to-be-famous individuals who experienced the war up close. We follow a young Walter Cronkite as he parachutes into Holland with a Canadian troop; photographer Lee Miller capturing the evidence of Nazi atrocities; the future Pope Benedict returning home and hoping not to get caught and shot after deserting his infantry unit; Audrey Hepburn no longer having to fear conscription into a Wehrmacht brothel; and even an SS doctor's descriptions of a decadent sex orgy in Hitler's bunker. In skillfully synthesizing these personal narratives, Best creates a compelling chronicle of the five earth-shaking days when Fascism lost its death grip on Europe. With this vivid and fast-paced narrative, the author reaffirms his reputation as an expert on the final days of great wars.

**Five Days in August** Michael D. Gordin, 2015-08-18 Most Americans believe that the Second World War ended because the two atomic bombs dropped on Japan

forced it to surrender. Five Days in August boldly presents a different interpretation: that the military did not clearly understand the atomic bomb's revolutionary strategic potential, that the Allies were almost as stunned by the surrender as the Japanese were by the attack, and that not only had experts planned and fully anticipated the need for a third bomb, they were skeptical about whether the atomic bomb would work at all. With these ideas, Michael Gordin reorients the historical and contemporary conversation about the A-bomb and World War II. Five Days in August explores these and countless other legacies of the atomic bomb in a glaring new light. Daring and iconoclastic, it will result in far-reaching discussions about the significance of the A-bomb, about World War II, and about the moral issues they have spawned.

*Most Secret War* R.V. Jones, 2009-08-06 Reginald Jones was nothing less than a genius. And his appointment to the Intelligence Section of Britain's Air Ministry in 1939 led to some of the most astonishing scientific and technological breakthroughs of the Second World War. In *Most Secret War* he details how Britain stealthily stole the war from under the Germans' noses by outsmarting their intelligence at every turn. He tells of the 'battle of the beams'; detecting and defeating flying bombs; using chaff to confuse radar; and many other ingenious ideas and devices. Jones was the man with the plan to save Britain and his story makes for riveting reading.

*SE 5/5a Aces of World War I* Norman Franks, 2013-02-20 The Royal Aircraft Factory SE 5/5a was, along with the Sopwith Camel, the major British fighting scout of the last 18 months of the war in France. It equipped several major squadrons, the first being No 56 Sqn in April 1917. This unit became famous for the number of aces it had among its pilots, including Albert Ball, James McCudden, Geoffrey Bowman, Richard Maybery, Leonard Barlow, Hank Burden and Cyril Crowe. In all, 26 aces flew the aircraft with No 56 Sqn alone. Other well-known units were Nos 1, 24, 29, 32, 40, 41, 60, 64, 2 AFC, 74, 84, 85 and 92 Sqns. A number of Victoria Cross winners also flew SE 5/5as, namely Ball, Mannock, McCudden, Beauchamp Proctor and Bishop. Among the aces, no fewer than 20 scored more than 20 victories. In all, there were almost 100 SE 5/5a aces, and a large number of them are profiled in this volume. Supporting the text are more than 110 photographs, 37 brand new colour artworks and detailed appendices listing every pilot who 'made ace' on the SE 5/5a.

**The British Empire and the First World War** Ashley Jackson, 2017-06-26 The British Empire played a crucial part in the First World War, supplying hundreds of thousands of soldiers and labourers as well as a range of essential resources, from foodstuffs to minerals, mules, and munitions. In turn, many imperial territories were deeply affected by wartime phenomena, such as inflation, food shortages, combat, and the presence of large numbers of foreign troops. This collection offers a comprehensive selection of essays illuminating the extent of the Empire's war contribution and experience, and the richness of scholarly research on the subject. Whether supporting British military operations, aiding the British imperial economy, or experiencing significant wartime effects on the home fronts of the Empire, the war had a profound impact on the colonies and their people. The chapters in this volume were originally published in Australian Historical Studies, The Journal of Imperial and Commonwealth History, First World War Studies or The Round

Table: The Commonwealth Journal of International Affairs.

*Twenty-Five Yards of War* Stephen Ambrose, Ronald J. Drez, 2016-12-13 From the sinking decks of a navy cruiser to the cockpit of a doomed B-25 bomber, Ronald J. Through Drez's gripping narrative style, we meet twelve men, all ordinary soldiers, and learn what the war was like through their eyes, experiencing their own 'twenty-five yards of war.' The men in these pages represent all branches of the military who were sent on impossible missions, where they witnessed triumphs and tragedies. As a result of Drez's ten years of research and over 1,400 interviews, *Twenty-Five Yards of War* is a tribute to all of the soldiers who fought in World War II -- those who walked away with amazing stories to tell, and those who did not make it home.

**The Era of World War II** Roy Barnard, William Joseph Burns, Duane Ryan, 1977

**The Story of the Great War, Volume 5** Churchill, Miller, and Reynolds, 2016-02-19 World War I (WWI or WW1), also known as the First World War, or the Great War, was a global war centred in Europe that began on 28 July 1914 and lasted until 11 November 1918. More than 70 million military personnel, including 60 million Europeans, were mobilised in one of the largest wars in history. Over 9 million combatants and 7 million civilians died as a result of the war (including the victims of a number of genocides), a casualty rate exacerbated by the belligerents' technological and industrial

sophistication, and the tactical stalemate caused by trench warfare, a grueling form of warfare in which the defender held the advantage. It was one of the deadliest conflicts in history, and paved the way for major political changes, including revolutions in many of the nations involved. The war drew in all the world's economic great powers, assembled in two opposing alliances: the Allies (based on the Triple Entente of the United Kingdom/British Empire, France and the Russian Empire) versus the Central Powers of Germany and Austria-Hungary. Although Italy was a member of the Triple Alliance alongside Germany and Austria-Hungary, it did not join the Central Powers, as Austria-Hungary had taken the offensive, against the terms of the alliance. These alliances were reorganised and expanded as more nations entered the war: Italy, Japan and the United States joined the Allies, while the Ottoman Empire and Bulgaria joined the Central Powers. The trigger for the war was the assassination of Archduke Franz Ferdinand of Austria, heir to the throne of Austria-Hungary, by Yugoslav nationalist Gavrilo Princip in Sarajevo on 28 June 1914. This set off a diplomatic crisis when Austria-Hungary delivered an ultimatum to the Kingdom of Serbia, and entangled international alliances formed over the previous decades were invoked. Within weeks, the major powers were at war and the conflict soon spread around the world. On 28 July, the Austro-Hungarians declared war on Serbia and subsequently invaded. As Russia mobilised in support of Serbia, Germany invaded neutral Belgium and Luxembourg before moving towards France,

leading the United Kingdom to declare war on Germany. After the German march on Paris was halted, what became known as the Western Front settled into a battle of attrition, with a trench line that would change little until 1917. Meanwhile, on the Eastern Front, the Russian army was successful against the Austro-Hungarians, but was stopped in its invasion of East Prussia by the Germans. In November 1914, the Ottoman Empire joined the Central Powers, opening fronts in the Caucasus, Mesopotamia and the Sinai. Italy joined the Allies in 1915 and Bulgaria joined the Central Powers in the same year, while Romania joined the Allies in 1916, followed by United States in 1917. The Russian government collapsed in March 1917, and a subsequent revolution in November brought the Russians to terms with the Central Powers via the Treaty of Brest Litovsk, which constituted a massive German victory. After a stunning German offensive along the Western Front in the spring of 1918, the Allies rallied and drove back the Germans in a series of successful offensives. On 4 November 1918, the Austro-Hungarian empire agreed to an armistice, and Germany, which had its own trouble with revolutionaries, agreed to an armistice on 11 November 1918, ending the war in victory for the Allies. By the end of the war, the German Empire, Russian Empire, Austro-Hungarian Empire and the Ottoman Empire had ceased to exist. National borders were redrawn, with several independent nations restored or created, and Germany's colonies were parceled out among the winners. During the Paris Peace Conference of 1919, the Big Four (Britain, France, the United States

and Italy) imposed their terms in a series of treaties. The League of Nations was formed with the aim of preventing any repetition of such a conflict. This, however, failed with economic depression, renewed European nationalism, weakened member states, and the German feeling of humiliation contributing to the rise of Nazism. These conditions eventually contributed to World War II.

**Five Lieutenants** James Carl Nelson, 2012-11-13 James Carl Nelson tells the dramatic true story of five brilliant young soldiers from Harvard, a thrilling tale of combat and heroism Five Lieutenants tells the story of five young Harvard men who took up the call to arms in the spring of 1917 and met differing fates in the maelstrom of battle on the Western Front in 1918. Delving deep into the motivations, horrific experiences, and ultimate fates of this Harvard-educated quintet—and by extension of the brilliant young officer class that left its collegiate and post-collegiate pursuits to enlist in the Army and lead America's rough-and-ready doughboys—Five Lieutenants presents a unique, timeless, and fascinating account of citizen soldiers at war, and of the price these extraordinary men paid while earnestly giving all they had in an effort to end the war to end all wars. Drawing upon the subjects' intimate, eloquent, and uncensored letters and memoirs, this is a fascinating microcosm of the American experience in the First World War, and of the horrific experiences and hardships of the educated class of young men who were relied upon to lead doughboys in the trenches and, ultimately, in open battle.
