You can also download additional RibbonX examples and an easy-to-use RibbonCustomizer utility from this book's companion web site, www.quepublishing.com/usingword2007.

Microsoft Office Word 2007 a Beginners Guide W. R. Mills,2010 This book is not intended to be an Everything you will ever need to know about Microsoft Word 2007, although in some cases it might be. It is as the name implies a beginner's guide to Word 2007. This book has two purposes: First to provide the inexperienced user with a working knowledge of Word 2007, so Word becomes more than just a way to write a letter. The second purpose is to explain the new user interface, the Ribbon. I hope this helps.

Word 2007 E. N. I. Publishing,ENI Publishing, France,2008-01-07 This practical guide to Microsoft® Word 2007 will enable you to make full use of the new version of this popular word processing programme. After becoming familiar with the new environment of the 2007 version, you will learn how

to create and save your documents, how to enter and edit text, and how to format and print your documents. The following sections teach you how to format text (character, paragraph and page formatting). To be able to take full advantage of Word's formatting possibilities, you will then learn how to apply a theme to a document and create styles and templates. You will then go to the next step of text management by learning how to use the Find and Replace feature, the automatic spell check, the synonym dictionary, and the translation feature. Section 8 discusses working with lengthy documents and teaches you how to create a note or a bookmark, an outline, a table of contents, an index, a bibliography, or a master document. As a Word document can contain much more than just text, you will also learn how to work with tables, graphic objects, and pictures. The last part teaches you how to create forms, mail-merges, macro commands, and how multiple users can work on a single document by using the Track Changes feature.

Office 2007: The Missing Manual Chris Grover,Matthew MacDonald,E. A. Vander Veer,2007-04-27 Quickly learn the most useful features of Microsoft Office 2007 with our easy to read four-in-one guide. This fast-paced book gives you the basics of Word, Excel, PowerPoint and Access so you can start using the new versions of these major Office applications right away.Unlike every previous version, Office 2007 offers a completely redesigned user interface for each program. Microsoft has replaced the familiar menus with a new tabbed toolbar (or ribbon), and added other features such as live preview that lets you see exactly what each option will look like in the document before you choose it. This is good news for longtime users who never knew about some amazing Office features because they were hidden among cluttered and outdated menus.Adapting to the new format is going to be a shock -- especially if you're a longtime user. That's where Office 2007: The Missing Manual comes in. Rather than present a lot of arcane detail, this quick & friendly primer teaches you how to work with the most-used Office features, with four separate sections covering the four programs. The book offers a walkthrough of Microsoft's redesigned Office user interface before taking you through the basics of creating text documents, spreadsheets, presentations, and databases with: Clear explanations Step-by-step instructions Lots of illustrations Plenty of friendly advice It's a great way to master all 4 programs without having to stock up on a shelf-load of different books. This book has everything you need to get you up to speed fast. Office 2007: The Missing Manual is truly the book that should have been in the box.
