PC Basics with Windows 7 and Office 2010 Kim Lindros,2010-10-12 This book presents a complete survey of the computer technologies necessary for achieving basic technology literacy. It provides a strong foundation by giving the reader the background needed to make smart buying decisions about computer technology. It then gives a description of the hardware that is the foundation of all of the technologies used every day, whether it's a laptop, personal computer, smartphone, or other digital device. From there, it explains how the Internet actually works. It then guides the reader through engaging, step-by-step tutorials on how to use the Windows 7 operating system and the popular Office 2010 productivity tools, including Word, Excel, and Powerpoint. The book is written in a conversational and engaging style. At the end of each chapter, there are review questions, and a project to apply what has been learned. --
