So You Want to Talk About Race Ijeoma Oluo, 2019-09-24 In this #1 New York Times bestseller, Ijeoma Oluo offers a revelatory examination of race in America. Protests against racial injustice and white supremacy have galvanized millions around the world. The stakes for transformative conversations about race could not be higher. Still, the task ahead seems daunting, and it's hard to know where to start. How do you tell your boss her jokes are racist? Why did your sister-in-law hang up on you when you had questions about police reform? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from police brutality and cultural appropriation to the model minority myth in an attempt to make the seemingly impossible possible: honest conversations about race, and about how racism infects every aspect of American life. Simply put: Ijeoma Oluo is a necessary voice and intellectual for these times, and any time, truth be told. —Phoebe Robinson, New York Times bestselling author of *You Can't Touch My Hair*

The Word in Black and White Dana D. Nelson, 1994 Dana Nelson provides a study of the ways in which Anglo-American authors constructed race in their works from the time of the first British colonists through the period of the Civil War. She focuses on some eleven texts, ranging from widely-known to little-considered, that deal with the relations among Native, African, and Anglo-Americans, and places her readings in the historical, social, and material contexts of an evolving U.S. colonialism and internal imperialism. Nelson shows how a novel such as *The Last of the Mohicans* sought to reify the Anglo historical past and simultaneously suggested strategies that would serve Anglo-Americans against Native Americans as the frontier pushed farther west. Concluding her work with a reading of Harriet Jacobs's *Incidents in the Life of a Slave Girl*, Nelson shows how that text undercuts the racist structures of the pre-Civil War period by positing a revised model of sympathy that authorizes alternative cultural perspectives and requires Anglo-Americans to question their own involvement with racism.

Race-Baiter: How the Media Wields Dangerous Words to Divide a Nation Eric Deggans, 2012-10-30 A prominent media critic demonstrates how the media manipulates language to incite cultural divides, tracing the history of race-baiting while revealing how tactics that deliberately play on prejudice and fear are used to secure audiences and demonize opposing groups. 30,000 first printing.

The Passing of the Great Race Madison Grant, 1916

The Grace of Silence Michele Norris, 2011-09-06 ONE OF THE BEST BOOKS OF THE YEAR: San Francisco Chronicle, The Christian Science Monitor, Kansas City Star. A profoundly moving and deeply personal memoir by the co-host of National Public Radio's flagship program *All Things Considered*. While exploring the hidden conversation on race unfolding throughout America in the wake of President Obama's election, Michele Norris discovered that there were painful secrets within her own family that had been willfully withheld. These revelations—from her father's shooting by a Birmingham police officer to her maternal grandmother's job as an itinerant Aunt Jemima in the Midwest—inspired a bracing journey into her family's past, from her childhood home in Minneapolis to her ancestral roots in the Deep South. The result is a rich and extraordinary family memoir—filled with stories that elegantly explore the power of silence and secrets—that boldly examines racial legacy and what it means to be an American.

An Ugly Word Ann Morning, Marcello Maneri, 2022-05-20 Scholars and politicians often assume a significant gap between the ways that Americans and Europeans think about race. According to this template, in the U.S. race is associated with physical characteristics, while in Western Europe race has disappeared, and discrimination is based on insurmountable cultural differences. However, little research has addressed how average Americans and Europeans actually think and talk about race. In *An Ugly Word*, sociologists Ann Morning and Marcello Maneri examine American and Italian understandings of group difference in order to determine if and how they may differ. Morning and Maneri interviewed over 150 people across the two countries about differences among what they refer to as “descent-based groups.” Using this concept allowed them to sidestep the language of “race” and “ethnicity,” which can be unnecessarily narrow, poorly defined, or even offensive to some. Drawing on these interviews, the authors find that while ways of speaking about group difference vary considerably across the Atlantic, underlying beliefs about it do not. The similarity in American and Italian understandings of difference was particularly evident when discussing sports. Both groups relied heavily on traditional stereotypes of Black physicality to explain Black athletes’ overrepresentation in sports like U.S. football and their underrepresentation in sports like swimming – contradicting the claims that a biological notion of race is a distinctly American phenomenon. While American and Italian concepts of difference may overlap extensively, they are not identical. Interviews in Italy were more likely to reveal beliefs about groups’ innate, unchangeable temperaments, such as friendly Senegalese and dishonest Roma. And where physical difference was seen by Italians as superficial and unimportant, cultural difference was perceived as deeply meaningful and consequential. In contrast, U.S. interviewees saw cultural difference as supremely malleable—and often ascribed the same fluidity to racial identity, which they believed stemmed from culture as well as biology. In light of their findings, Morning and Maneri propose a new approach to understanding cross-cultural beliefs about descent-based difference that includes identifying the traits people believe differentiate groups, how they believe those traits are acquired, and whether they believe these traits can change. *An Ugly Word* is an illuminating, cross-national examination of the ways in which people around the world make sense of race and difference.

Man's Origin and Destiny Sketched from the Platform of the Sciences, in a Course of Lectures Delivered Before the Lowell Institute, in Boston...1865-6 J. Peter Lesley, 1869

Jewish Identities in Postcommunist Russia and Ukraine Zvi Gitelman, 2012-10-15 Before the USSR collapsed, ethnic identities were imposed by the state. This book analyzes how and why Jews decided what being Jewish meant to them after the state dissolved and describes the historical evolution of Jewish identities. Surveys of more than 6,000 Jews in the early and late 1990s reveal that Russian and Ukrainian Jews have a deep sense of their Jewishness but are uncertain what it means. They see little connection between Judaism and being Jewish. Their attitudes toward Judaism, intermarriage and Jewish nationhood differ dramatically from those of Jews

elsewhere. Many think Jews can believe in Christianity and do not condemn marrying non-Jews. This complicates their connections with other Jews, resettlement in Israel, the United States and Germany, and the rebuilding of public Jewish life in Russia and Ukraine. Post-Communist Jews, especially the young, are transforming religious-based practices into ethnic traditions and increasingly manifesting their Jewishness in public.

The 'R' Word Kurt Barling, 2015-11-27 Race and racism remain an inescapable part of the lives of black people. Daily slights, often rooted in fears and misperceptions of the 'other', still damage lives. But does race matter as much as it used to? Many argue that the post-racial society is upon us and racism is no longer a block on opportunity - Kurt Barling doubts whether things are really that simple. Ever since, at the age of four, he wished for 'blue eyes and blond hair', skin colour has featured prominently as he, like so many others, navigated through a childhood and adolescence in which 'blackness' defined and dominated so much of social discourse. But despite the progress that has been made, he argues, the 'R' word is stubbornly resilient. In this powerful polemic, Barling tackles the paradoxes at the heart of anti-racism and asks whether, by adopting the language of the oppressor to liberate the oppressed, we are in fact paralysing ourselves within the false mythologies inherited from raciology, race and racism. Can society escape this so-called 'race-thinking' and re-imagine a Britain that is no longer 'Black' and 'White'? Is it yet possible to step out of our skins and leave the colour behind?

Struggles Over the Word Timothy Paul Caron, 2000 This literary critical study counters the usual tendency to segregate Southern literature from African American literary studies. Noting that William Faulkner and Flannery O'Connor are classified as Southern writers, whereas Zora Neale Hurston and Richard Wright are considered black authors, Timothy P. Caron argues for an integrated study of the South's literary culture. He shows that the interaction of Southern religion and race binds these four writers together. Caron broadens our understanding of Southern literature to include both white and African American voices. Analyzing O'Connor's *Wise Blood*, Faulkner's *Light in August*, Hurston's *Moses, Man of the Mountain*, and Wright's *Uncle Tom's Children*, Caron shows that these writers share an intertwined concern for issues of race and religion. These two significant components of Southern culture form the intertextual network that binds together such seemingly disparate texts. These authors not only interact among themselves in acknowledged and unacknowledged ways, but also with the South's discursive practices. Most particularly, Caron sees common struggles over the Word, as he investigates how these writers use the Bible in their understandings of race and religion in the American South. While all four authors argue for the centrality of the Bible in both the black and white Southern experience, each

offers a different view of how this iconic text has shaped Southern culture and its literature.

Heart of Darkness (Fourth International Student Edition) (Norton Critical Editions) Joseph Conrad, 2016-04-04 The Fourth Edition is again based on Robert Kimbrough's meticulously re-edited text. Missing words have been restored and the entire novel has been repunctuated in accordance with Conrad's style. The result is the first published version of Heart of Darkness that allows readers to hear Marlow's voice as Conrad heard it when he wrote the story. Backgrounds and Contexts provides readers with a generous collection of maps and photographs that bring the Belgian Congo to life. Textual materials, topically arranged, address nineteenth-century views of imperialism and racism and include autobiographical writings by Conrad on his life in the Congo. New to the Fourth Edition is an excerpt from Adam Hochschild's recent book, *King Leopold's Ghost*, as well as writings on race by Hegel, Darwin, and Galton. Criticism includes a wealth of new materials, including nine contemporary reviews and assessments of Conrad and Heart of Darkness and twelve recent essays by Chinua Achebe, Peter Brooks, Daphne Erdinast-Vulcan, Edward Said, and Paul B. Armstrong, among others. Also new to this edition is a section of writings on the connections between Heart of Darkness and the film *Apocalypse Now* by Louis K. Greiff, Margot Norris, and Lynda J. Dryden. A Chronology and Selected Bibliography are also included.

Sites of Race David Theo Goldberg, 2014-10-10 Critical social theorist and philosopher David Theo Goldberg is one of the defining figures in critical race theory. His work, unsurpassed in its analytical rigor and political urgency, has helped transform the way we think about race and racism across the humanities and social sciences, in critical, social and political theory and across geopolitical regions. In this timely collection of incisive and lively conversations with Susan Searls Giroux, Goldberg reflects upon his studies of race and racism, exploring the key elements in his thought and their contribution to current debates. *Sites of Race* is a comprehensive overview of Goldberg's central ideas and concepts, including the idea of the Racial State, his emphasis on militarism as a culture, and his treatment of the theology of race. Elegantly navigating between the theoretical and the concrete, he brings fresh insight to bear on significant recent events such as the War on Terror, Katrina, the killing of Trayvon Martin and Arizona's controversial immigration laws, in the process enriching and elaborating upon his vast body of work to date. *Sites of Race* offers fresh avenues into Goldberg's work for those already familiar with it, and provides an ideal entry point for students new to the field of critical race theory.
