Good Night Zoo Adam Gamble,2011-11-14 One of the first books in the Good Night series to focus on a general environment rather than a specific geographic location, this vividly illustrated board book follows a multicultural group of people during a trip to the zoo. Designed to soothe children before bedtime with rhythmic language while instilling an early appreciation for the wonders of the natural world, this book features adults and children experiencing all that the zoo has to offer while guiding readers through both the passage of a single day and the four seasons.

ZooBorns Cats! Andrew Bleiman,Chris Eastland,2015-06-30 ZooBorns showcases the newest and cutest animal babies from accredited zoos and aquariums around the world. With interesting animal facts and background stories on the featured babies, ZooBorns illustrates the connections between zoo births and conservation initiatives in the wild.

**A Different Nature** David Hancocks,2001 A well-written and provocative, opinion-rich account of zoos, their history, and their goals and purposes. Hancocks has earned the right to speak authoritatively about these subjects, thanks to his tenure as director of two leading U. S. zoos. This book will appeal to general readers and to all persons interested in zoos and their role in conservation and education.—John Alcock, author of *Animal Behavior: An Evolutionary Approach* Giraffes, elephants, gorillas, snakes, and toucans respond poorly to the usual conventions of human architecture. Zoo architects usually respond no less poorly to the needs of animals. David Hancocks draws on a lifetime's experience working as a zoo director and zoo architect to explore this dilemma, and offers a compelling vision for the future. This is an important book for those interested in conservation as well as for zoo and museum buffs.—William Conway, former President and General Director of the Wildlife Conservation Society and the Bronx Zoo For over two decades David Hancocks has fervently tried to reform the fundamental character and mission of zoos. This book is his most thorough analysis of what is wrong with them and his most detailed and compelling plea for improvement. Every conscientious zoo administrator, curator, and keeper should read it from cover to cover with an open mind. Professionals in botanical gardens, museums, and nature parks should also consider this treatise because Hancocks advocates that a fusion of all of these institutions into a new entity better positioned to interpret the entire biosphere.-Mark A. Dimmitt, Director of Natural History, Arizona-Sonora Desert Museum

**Great Zoos Of The World** Lord Zuckerman,2019-03-13 This book illustrates how some best zoos in the world have evolved, by reference to the history of a few. It contains a list of names of the present and former professional staff of the Zoological Society of London.

Sailing with Noah Jeffrey P. Bonner,2013-06-03 Written by the president of the nation's number-one zoo, Sailing with Noah is an intensely personal, behind-the-scenes look at modern zoos. Jeffrey P. Bonner, who was trained as an anthropologist and came to the zoo world quite by accident, shares some of the most compelling stories ever told about contemporary zoos. The stories jump between zoos in different cities and between countries on different continents. Some are fun and funny. Others are sad, even tragic. Pete Hoskins, the director of the Philadelphia Zoo, is in bed, sound asleep, when his phone rings. . . . "There's been a fire in the World of Primates," he is told. "You've got to get over here." Whatever he has been dreaming, it is nothing like the nightmare he will find now that he is awake. . . . "They're all gone. They're all gone." All of the animals in the building—the gorillas, the lemurs, the orangutans, and the gibbons—all twenty-three of them are dead. Written in a lively, accessible style, Sailing with Noah explores the role of zoos in today's society and their future as institutions of education, conservation, and research. Along the way, Bonner relates a variety of true stories about animals and those who care for them (or abuse them), offering his perspective on heavily publicized incidents and describing less-well-known events with compassion and humor in turn. By bringing the stories of the animals' lives before us, Bonner gives them a voice. He strongly believes that zoos must act for living things, and he argues that conservation is a shared responsibility of all mankind. This book helps us to understand why biodiversity is important and what it means to be a steward of life on earth. From the day-to-day aspects of caring for some of the world's most exotic creatures to the role of zoos as field conservation organizations, saving wild things in wild places, this book takes the reader on an incredible journey—a journey that begins within the zoo and continues around the globe. Everyone—from zoo visitors to animal lovers to professional conservationists, the young and old alike—will be fascinated by this extraordinary book.

**ZooBorns Motherly Love** Andrew Bleiman,Chris Eastland,2022-10-11 An adorable installment in the ZooBorns series, ZooBorns Motherly Love celebrates the special bond between exotic animal mothers and their babies from every corner of the globe: "Animal babies make conservation cute," raves The New York Times. ZooBorns Motherly Love is all about mothers and their babies. Photographs that capture the power of a mother's love consistently attract explosive interest on the wildly popular ZooBorns website, and now, for the first time, they have been collected in this book. ZooBorns Motherly Love explores the special role mothers play in our lives: they do more for us than they do for themselves, worry about us more than we'll ever know, and love us more than anyone else can...no matter their species. By highlighting these adorable and recognizable moments, from a sea otter cradling her newborn pup to a lioness gently tugging her cub back to her side, ZooBorns connects you to the animals featured here and builds awareness for the challenges these species face in the wild. Remember, these babies are much more than just irresistible furry faces. They are ambassadors for their species, helping educate about conservation while they entertain. In fact, 10 percent of all ZooBorns' revenue from the sale of these books goes directly to the Association of Zoos and Aquariums' Conservation Endowment Fund. This book is sure to put a smile on your face and warm your heart.

ZooBorns! Andrew Bleiman,Chris Eastland,2011-04-05 A Classic Board Book edition of the bestselling and irresistible ZooBorns! Pulled from the pages of the wildly popular ZooBorns blog, this board book presents the most charming critters ever: baby animals, ranging from the adorable to the zany! Featuring full-color photographs on every page and a cozy text perfect for reading aloud, this book is sure to become a must-have for animal lovers of all ages, especially perfect for small hands.

**ZooBorns The Next Generation** Andrew Bleiman,Chris Eastland,2012-11-06 ZooBorns the Next Generation may be the most adorable baby animal book ever created! Featuring full-color photos and fascinating facts on exotic baby animals from every corner of the globe, this collection is irresistible to any animal lover. The new generation of zoo babies will reset the standard for devastating cuteness. From the creators of the smash hit ZooBorns series of books, ZooBorns The Next Generation features full-color photos and fascinating facts on exotic baby animals from every corner of the world. Filled with brand-new species and some beloved favorites, this collection is irresistible to any animal lover. These babies are much more than just adorable furry faces. They are ambassadors for their species in the wild, helping educate about conservation while they entertain.

**The Zoo at the Edge of the World** Eric Kahn Gale,2014-08-26 From the author of *The Bully Book* comes a timeless story about a young boy, his father, and the world that comes between them, which New York Times-bestselling author Peter Lerangis called magical, mysterious, fresh, original, and full of heart. Marlin is not slow, or mute; what he is is a stutterer, and that makes it impossible for him to convince people otherwise. What he is also is a Rackham: the younger son of the world-famous explorer Ronan Rackham, the owner and proprietor of the Zoo at the Edge of the World, a resort where the well-to-do from all over the globe can come to experience the last bit of the wild left at the end of the nineteenth century. In order to impress a powerful duke who comes to visit the zoo, Marlin's father ventures into the jungle and brings back a mysterious black jaguar, the only one in captivity. Everyone is terrified of it, including Marlin—until one night, when the jaguar confers upon him a powerful gift. Soon, Marlin finds himself with a difficult choice to make and, finally, something to say. If only he can figure out how to say it.

*Zoo and Aquarium History* Vernon N. Kisling, Jr,2022-07-11 Wild animals have been housed in zoos and aquariums for 5,000 years, fascinating people living in virtually every society. Today, these institutions are at a new milestone in their history. This second edition of *Zoo and Aquarium History* takes the reader on a journey through the transition of private collections to menageries, to zoos, then zoological gardens, and more recently conservation centers and sanctuaries. Under the direction of Vernon N. Kisling, an expert in zoo history, an international team of authors has thoroughly updated the only comprehensive, global history of animal collections, menageries, zoos, and aquariums. The resulting book documents the continuum of efforts in maintaining wild animal collections from ancient civilizations through today, explaining how modern zoos have developed their mission statements around the core aims of conservation, education, research and recreation. This new edition pulls together regional information, including new chapters on zoological gardens of Canada, Latin America, China, Israel, the Middle East, and New Zealand, along with the cultural aspects of each region to provide a foundation upon which further research can be based. It presents a chronological listing of the world's zoos and aquariums and features many never-before published photographs. Sidebars present supplementary information on pertinent personalities, events, and wildlife conservation issues. The original Appendix has been expanded to include over 1,200 zoos and aquariums, providing an invaluable resource. This is an extensive, chronological introduction to the subject, highlighting the published and archival resources for those who want to know more.

*Zoo and Aquarium History* Vernon N. Kisling,2000-09-18 As one of the world's most popular cultural activities, wild animal collections have been attracting visitors for 5,000 years. Under the direction of Vernon N. Kisling, an expert in zoo history, an international team of authors has compiled the first comprehensive, global history of animal collections, menageries, zoos, and aquariums. *Zoo and Aquar Building a Future for Wildlife* Gerald Dick,Markus Gusset,2010-01-01 Building a future for wildlife is the slogan of the World Zooand Aquarium Conservation Strategy. Modern zoos and aquariums areindeed playing an increasingly active and important role inconserving species in their natural habitat. This richlyillustrated book provides an overview of the partners, approachesand achievements of the world zoo and aquarium community inwildlife conservation. The book's main focus is on 25 conservationsuccess stories from around the globe, portraying the many ways inwhich zoos and aquariums are committed to biodiversityconservation.This book was edited by Gerald Dick and Markus Gusset from theWorld Association of Zoos and Aquariums (WAZA), who are bothconservation biologists themselves.

**Riverbanks Zoo and Garden** Palmer "Satch" Krantz,Monique Blanchette Jacobs,2014-01-01 Recognized today as one of America’s best zoos, Riverbanks Zoo and Garden has become one of Columbia, South Carolina’s most popular tourist destinations and one of the most visited zoos in the southeastern United States. Riverbanks celebrates its fortieth anniversary on April 25, 2014. Over the last four decades both the zoo and the garden have been honored with many regional and national awards for excellence. Among its many accolades, Riverbanks has received five prestigious Edward H. Bean Awards from the Association of Zoos and Aquariums, most recently in 2011 for the long-term breeding and conservation of the endangered Bali mynah. Riverbanks also has been honored with three Travel Attraction of the Year Awards by the Southeast Tourism Society and two Governor’s Cup Awards by the South Carolina Department of Parks, Recreation, and Tourism as the state’s Most Outstanding Attraction. Riverbanks Botanical Garden has received praise by Horticulture magazine as one of ten gardens that inspire and by HGTV as one of twenty great public gardens in the United States. What began in the mid-1960s as a modest dream of a few business leaders to create a small children’s petting zoo has evolved into today’s nationally ranked Riverbanks Zoo and Garden, visited by more than one million guests annually and supported by a membership base of more than thirty-three thousand households. Riverbanks is home to more than two thousand animals, which reside in natural habitat exhibits with barriers that are designed to create an environment almost totally free of bars and cages. Much like the zoo itself, this book features extraordinary animals, dynamic natural habitats, and significant historic landmarks. Riverbanks’s rich history is captured here through anecdotal stories and nearly two hundred brilliant photographs and illustrations, making it easy to see why Riverbanks is recognized as one of the nation’s great zoological parks and botanical gardens. Readers will discover some of the world’s most magnificent and fascinating plants and animals that call Riverbanks home, while gaining a deeper understanding of how a midsized zoo gained world-class status as it pursued its mission: to foster an appreciation and concern for all living things.
