Frank Batten Connie Sage,2011 Frank Batten Sr. (1927-2009) created the Weather Channel in 1982, despite mocking by colleagues in the media that around-the-clock weather broadcasts would be as exciting as watching paint dry. The network, and later its companion website, Weather.com, became the largest private weather company in the world and an American cultural icon. Yet few have heard of Batten, a media pioneer whose Virginia newspaper was the only major daily to back school integration. At a time when American corporate greed was making headlines, without fanfare and limelight Batten built a media empire centered on honesty, integrity, and ethics. Starting out in his uncle's newspaper business in Norfolk, Virginia, as a reporter and advertising salesman, he assumed leadership of the Virginian-Pilot and Ledger-Star at the age of twenty-seven and grew Landmark Communications into a media powerhouse. He championed racial equality, a position not often taken in Virginia during the 1950s. His flagship newspaper, the Pilot, was the only daily paper in Virginia to back court-ordered school desegregation. He created two billion-dollar businesses and gave away more than \$400 million to charity, nearly all of it to education. As chairman of the Associated Press from 1982 to 1987, he helped guide the news agency back on a sound financial footing. Batten also faced a tremendous personal challenge that would have sidelined many: he lost his vocal cords to cancer two years before starting the Weather Channel. This is the untold story of a man whose name few recognize, yet who helped change the face of the media in the twentieth century.

The Weather Channel Pioneers Joseph D'Aleo,John Coleman,2018-03-02 A collection of personal stories and memories from the individuals that worked at The Weather Channel in its start-up days of the early 1980s; among these Weather Channel Pioneers, special focus is given to the leadership and vision of the channel's early champions John Coleman and Joe D'Aleo.

The Weather Channel Frank Batten,2002 Told by one of the key figures in the network's success, former Chairman and CEO Frank Batten, this is at once a deeply personal account of high-stakes entrepreneurship and a fascinating case study of a media business both experiencing and driving major change.--BOOK JACKET.

Great Plains Weather Kenneth F. Dewey,2019-05-01 The weather of the Great Plains is extreme and highly variable, from floods to droughts, blizzards to tornadoes. In Great Plains Weather Kenneth F. Dewey explains what makes this region's climate unique by presenting a historical climatology of extreme weather events. Beginning with tornadoes—perhaps the most formidable plains weather phenomena—he describes the climatology of these storms and discusses memorable tornadoes of the plains. As one of the storm chasers who travels the Great Plains in the spring and summer tracking severe weather, Dewey also shares some of his experiences on the road. Dewey then goes on to discuss famous blizzards, from the “School Children’s Storm” of 1888 to more recent storms, along with droughts and floods. Precipitation, or the lack thereof, has long determined human activity in the region; exacerbated by the vagaries of climate change, it continues to have a significant economic and cultural impact on the people of the plains. Dewey’s absorbing narrative is complemented by images of tornadoes, snowstorms, and flash floods that he amassed in forty years of climatological research.

Partly Sunny Alan Fields,1994 The American public has always taken delight in second-guessing mass-media meteorologists. Partly Sunny not only vindicates their efforts, but arms them with forecasting tools and information far more sophisticated than Uncle Henry's storm-sensitive bunions. 30 photos and line drawings.

Weather Channel presents El Niño! and La Niña Sally Rose,1999 Essential reading for the weather-wise with exciting information and tips in full-color photography. Wyoming Trucks, True Love, and the Weather Channel Jeffe Kennedy,2004 These essays explore the challenges Jeffe Kennedy has faced as a woman, a Westerner, a father-less daughter, a stepmother, a biologist, and a girl with hair of no specific color. From the book's opening in a cornfield, where Kennedy is searching for the twenty-five-year-old site of the plane crash that killed her father, she seems to be in constant motion. She is the feminist adolescent, ashamed to win a prize in home economics who learns to take joy in her pastry skills. She is the scientist struggling with mortality, the liberal learning to shoot a gun. With cheeky wisdom, Jeffe Kennedy explores the extraordinary moments that transform ordinary lives. No revelation--from the meaning of the death of a parent to being a blonde--is too big or small for this Colorado-born biologist to dissect. Her insights tell us a lot about the way lives enhanced by real convictions are formed.--Vicki Lindner, author of Outlaw Games [Kennedy] writes vividly and with great clarity. Her sensitivity and empathy for other people enhances an unusually authentic ability to establish three-dimensional characterization.--Lee Gutkind, editor, Creative Nonfiction
