**How To Write: A Screenplay** Mark Evan Schwartz,2007-04-15 There are hundreds of books on the market, all trying to teach you how to write a screenplay. Several of them are excellent and useful books. But never - until now - has there been a screenwriting manual written in the form of a screenplay. Our hero, the aspiring screenwriter Danny, is hopelessly in love with Bebe, a hot young starlet. But Bebe won't go out with Danny until he proves that he can write a brilliant screenplay for her. Helped along the way by a mysterious guide (Virgil) with seemingly magical powers, Danny travels to Screenwriting Hell to see what happens to writers who never make the grade. Virgil teaches him the tricks of the trade, the fundamental techniques that all screenwriters have to master, no matter how great their ideas. But there's something a little strange about Virgil, and Danny is never sure whether to trust him or not... As well as the screenplay itself, the book includes an introduction explaining how to get the most out of the screenplay, the log line, the synopsis, character bios, the treatment, and The Pitch - a short scene that shows the author pitching his screenplay to a big-shot producer.

**Writing the Character-Centered Screenplay, Updated and Expanded edition** Andrew Horton, 2000-02-23 We need good screenwriters who understand character. Everywhere Andrew Horton traveled in researching this book—from Hollywood to Hungary—he heard the same refrain. Yet most of the standard how-to books on screenwriting follow the film industry's earlier lead in focusing almost exclusively on plot and formulaic structures. With this book, Horton, a film scholar and successful screenwriter, provides the definitive work on the character-based screenplay. Exceptionally wide-ranging—covering American, international, mainstream, and off-Hollywood films, as well as television—the book offers creative strategies and essential practical information. Horton begins by placing screenwriting in the context of the storytelling tradition, arguing through literary and cultural analysis that all great stories revolve around a strong central character. He then suggests specific techniques and concepts to help any writer—whether new or experienced—build more vivid characters and screenplays. Centering his discussion around four film examples—including *Thelma & Louise* and *The Silence of the Lambs*—and the television series, *Northern Exposure*, he takes the reader step-by-step through the screenwriting process, starting with the development of multi-dimensional characters and continuing through to rewrite. Finally, he includes a wealth of information about contests, fellowships, and film festivals. Espousing a new, character-based approach to screenwriting, this engaging, insightful work will prove an essential guide to all of those involved in the writing and development of film scripts.
