The Law of Assisted Reproduction Seamus Burns, 2020-03-04 The Law of Assisted Reproduction, Second Edition examines the impact of the Human Fertilisation and Embryology Act 2008 (HFEA 2008) and the ongoing controversial issues that surround it from legal, ethical, moral, social and medical points of view. It also examines the contribution of Parliament in fashioning the legal provisions in the amended legislation. The second edition is updated to cover: - Abortion controversy and the current law in England and Wales - New case law on parentage of children born from IVF - ECHR case law concerning embryo research and fertility treatment - The Human Fertilisation and Embryology Act 1990 - the birth of the Human Fertilisation and Embryology Authority - The NHS IVF postcode lottery - Human Fertilisation and Embryology (Mitochondrial Donation) Regulations 2015 - The Supreme Court case (In the matter of an application by the Northern Ireland Human Rights Commission for Judicial - Review (Northern Ireland) [2018] UKSC 27) on NI abortion law compatibility with ECHR - Sarah Ewart case - Re Z (A Child: Human Fertilisation and Embryology Act: Parental

Order) - Parillo v Italy - Re A and others (Human Fertilisation and Embryology Act) - Consideration of ECHR dimensions The second edition also contains new chapters on: - Abortion law developments in Northern Ireland and the Republic of Ireland - Controversies relating to fertility treatment, embryonic research and abortion - Three parent Children-Mitochondrial Donation - Consideration of the key changes to the Code of Practice, (9th Edition), January 2019 This is an essential title for practitioners in medical/healthcare law and ethics, as well as national and international law libraries and students.

BBC Channels (UK) ,

Social Media at BBC News Valerie Belair-Gagnon, 2015-02-11 Since the emergence of social media in the journalistic landscape, the BBC has sought to produce reporting more connected to its audience while retaining its authority as a public broadcaster in crisis reporting. Using empirical analysis of crisis news production at the BBC, this book shows that the emergence of social media at the BBC and the need to manage this kind of material led to a new media logic in which tech-savvy journalists take on a new centrality in the newsroom. In this changed context, the politico-economic

and socio-cultural logic have led to a more connected newsroom involving this new breed of journalists and BBC audience. This examination of news production events shows that in the midst of transformations in journalistic practices and norms, including newsgathering, sourcing, distribution and impartiality, the BBC has reasserted its authority as a public broadcaster. [Click here](#) for a short video about the book.

Familiar Strangers, Juvenile Panic and the British Press James Morrison, 2016-04-08 This book argues that Britain is gripped by an endemic and ongoing panic about the position of children in society – which frames them as, alternately, victims and threats. It argues the press is a key player in promoting this discourse, which is rooted in a wide-scale breakdown in social trust.

[The New Authoritarianism](#) Alan Waring, 2018-11-21 This two-volume book considers from a risk perspective the current phenomenon of the new Alt-Right authoritarianism and whether it represents ‘real’ democracy or an unacceptable hegemony potentially resulting in elected dictatorships and abuses as well as dysfunctional government. Contributing authors represent an eclectic range of

disciplines, including cognitive, organizational and political psychology, sociology, history, political science, international relations, linguistics and discourse analysis, and risk analysis. The Alt-Right threats and risk exposures, whether to democracy, human rights, law and order, social welfare, racial harmony, the economy, national security, the environment, and international relations, are identified and analysed across a number of selected countries. While Vol. 1 focusses on the US, Vol. 2 (ISBN 978-3-8382-1263-0) illuminates the phenomenon in the UK, Austria, France, Germany, Netherlands, Norway, Italy, Hungary, and Russia. Potential strategies to limit the Alt-Right threat are proposed.

The Battle for Syria Christopher Phillips, 2020-07-01 An unprecedented analysis of the crucial but underexplored roles the United States and other nations have played in shaping Syria's ongoing civil war One of the best informed and non-partisan accounts of the Syrian tragedy yet published.--Patrick Cockburn, Independent Syria's brutal, long-lasting civil war is widely viewed as a domestic contest that began in 2011 and only later drew foreign nations into the fray. But in this book Christopher Phillips shows the crucial roles that were played by the United States, Russia, Iran, Saudi Arabia, Turkey, and

Qatar in Syria's war right from the start. Phillips untangles the international influences on the tragic conflict and illuminates the West's strategy against ISIS, the decline of U.S. power in the region, and much more. Originally published in 2016, the book has been updated with two new chapters.

History on Television Ann Gray, Erin Bell, 2013 This interdisciplinary study of history programming identifies and examines different genres employed by producers and tracks their commissioning, production, marketing and distribution histories. With comparative references to other European nations and North America, the authors focus on British history programming over the last two decades and analyse the relationship between the academy and media professionals. They outline and discuss often-competing discourses about how to 'do' history and the underlying assumptions about who watches history programmes. *History on Television* considers recent changes in the media landscape, which have affected to a great degree how history in general, and whose history in particular, appears onscreen.

Social Inequality Louise Warwick-Booth, 2022-04-02 This book provides up to date discussion and

evidence about inequalities, social divisions and stratification. Its innovative style engages readers and encourages them to reflect upon the many dimensions of social inequality. This updated third edition contains: Three new chapters on employment, sexualities and migration Updated coverage of intersectionality throughout Thirteen new in-depth case studies (one per chapter) This is a must read as a key introductory companion for students who wish to understand the dynamics of contemporary social inequality. Louise Warwick-Booth is a Reader at the School of Health, Leeds Beckett University

How the NHS Coped with Covid-19 Ellen Welch, 2022-08-09 2020 will forever be remembered as the year the Coronavirus pandemic changed life as we know it across the World. Economies crashed, livelihoods were eradicated, and thousands of lives were shortened or devastated by the effects of this novel virus. In the UK, the National Health Service was thrust into the limelight as the country watched our healthcare system respond to the consequences of this disease. This book traces a timeline of the COVID-19 pandemic, highlighting key events in how the UK and the NHS approached these unparalleled events. Comparisons are made with tactics used around the globe and the decisions of

our leaders questioned. Alongside the facts, are stories. Every one of us has a ‘Covid story’ to tell, and this book is a collection of some of these stories from our frontline staff. As the country went into rapid lockdown in March, the staff of the NHS donned their PPE and continued to go to work. They tell us what peak pandemic was like in the emergency departments, wards, ICUs, GP practices, care homes and the ambulances of the UK. We hear from a nurse who became a covid patient in her own ICU; staff from the rapidly constructed Nightingale hospital; a GP who returned from retirement to assist with the response; as well as stories from international healthcare professionals such as a cruise ship nurse in the Caribbean, a public health consultant in Australia and ED doctors in South Africa.

Image of U.S. Presidential Administrations Célia Belim, Patricia Calca, 2012-12-16 This edited collection analyzes two American presidential administrations—George W. and Barack Obama. This book gives a European point of view and contributes to the study of U.S. presidencies. Making a comparison and giving outlooks from European academics’ standpoints, the political image analyzed

fulfills a critical gap in the literature. Playing multiple hands, this work encompasses the vigor of young academics and the sapience of experienced researchers.

Qatar Diana Galeeva, 2022-05-03 This book explains the parameters of Qatar's political growth by developing an alternative theory of power – 'rented' power. The author demonstrates how Qatar's emergence as a regional power can be solely explained by its capacity as a gas-rich rentier state. By using Qatar as an empirical case study of the 'rented' power theory, readers will gain insight into Qatar's engagement with non-state actors (political Islam, tribes, media, sports, and others) to wield its power, allowing Qatar to 'rent' the well-established influence of non-state actors due to their transnational nature. The Qatari case demonstrates a state's ability to establish a patron-client relationship with non-state actors, overcoming limitations set by size or military strength to gain international influence. This book is accessible to a wide readership: it will be of interest of scholars, postgraduates, journalists, policy experts, and a general audience whose interests include the politics of the Middle East and the GCC states particularly

Talk Spanish Enhanced eBook (with audio) - Learn Spanish with BBC Active Almudena

Sanchez,Aurora Longo,2014-05-13 'Determined to learn the language but no time for nightschool? Try the BBC Talk short courses.' The Guardian Learn even faster and smarter with the flexibility, speed and convenience of this enhanced eBook. Everything you need is just where you need it: navigate the book with ease, practise your listening and speaking skills, test your progress and access valuable language notes all with one touch from the page you're on. Talk Spanish has already inspired thousands of people to learn Spanish from scratch and find the confidence to give it a go. It is a bestselling course, widely used both in the classroom and by independent learners. Make fast progress right from the start using the successful, proven Talk method - with specially designed activities, interactive audio and clear, jargon-free grammar explanations. Develop your language skills with tips and strategies to help you learn. Express yourself more confidently through taking part in real Spanish conversations. Whether you're learning for business, travel or just for fun, this straightforward, step-by-step approach will ensure you're soon able to speak Spanish in a range of everyday

situations. Want to improve your grammar? Get quickly up to speed with our bestselling Talk Spanish Grammar eBook. Easy to follow and specially written to work with this course, it'll help you easily demystify and unlock the key structures of Spanish grammar and boost your understanding, speaking and listening skills. Also available: Talk French Enhanced eBook, Talk Italian Enhanced eBook and Talk German Enhanced eBook; Talk Spanish Grammar eBook, Talk French Grammar eBook, Talk Italian Grammar eBook and Talk German Grammar eBook

Gaelic in Scotland Wilson McLeod, 2020-09-04 In this extensive study of the changing role of Gaelic in modern Scotland, Wilson McLeod looks at the policies of government and the work of

activists and campaigners who have sought to maintain and promote Gaelic.

The imperial premiership Sam Goodman, 2016-10-24 Recent votes in the House of Commons on British military intervention have put foreign policy at the heart of public consciousness. This book spans British foreign policy over the last fifty years and nine premierships from Harold Wilson to David Cameron. Based on the author's first-hand interviews with former foreign secretaries, Cabinet ministers, senior civil servants, party officials, military chiefs and diplomats it offers a unique account of the growing role of the prime minister in foreign policymaking and its impact. Written by a senior parliamentary researcher it offers an insider account of votes on military intervention in Syria. The prime minister now spends more time on foreign policy than any previous period outside war, yet the public and MPs themselves remain relatively ill-informed of foreign policy outside of crises. If we are to avoid the mistakes of the past and utilise our country's full capacity on the world stage we need a societal change in how we vet those who seek the office and in educating the electorate.

Children Forsaken Steven Walker, 2021-07-12 A shocking reminder of the cruel history of

childhood that has been largely hidden and forgotten. *Children Forsaken* provides a long, historical, overarching examination of the phenomenon of child abuse. In the UK battered child syndrome was 'discovered' in the 1960s, whilst child sexual abuse gained attention in the early 1980s. Subsequent enquiries, legislation and practice developments have focused narrowly on reacting to events giving the impression that child abuse is a recent problem. Yet the historical record provides a multitude of examples of the ritual slaughter, sexual and physical abuse of children continuing since Ancient times. This book places child abuse in the context of the way children and childhood have been understood throughout the ages, but also shows that despite legal definitions, and children's rights laws, children and young people continue to suffer. This book enables practitioners and those training in the helping professions to gain a deeper understanding of how embedded in human society child abuse has been and still is. Practitioners need to perceive child abuse as a long-standing problem about children's status in the World, their legal and human rights, and that much work is still needed to ensure children's needs and safety are paramount. This ambitious book paints an important and erudite

picture of child abuse and social responses to it, bringing us up-to-date with a call for continued vigilance, compassion, and action. Professor Jonathan Parker, Bournemouth University

Writing Audio Drama Tim Crook, 2023-03-31 Writing Audio Drama is a comprehensive and intelligent guide to writing sound drama for broadcasting and online production. The book uses new and original research on the history of writing radio plays in the UK and USA to explore how this has informed and developed the art form for more than 100 years. Audio drama in the context of podcasting is now experiencing a global and exponential expansion. Through analysis of examples of past and present writing, the author explains how to originate and craft drama which can explore deeply psychological and intimate themes and achieve emotional, truthful, entertaining, and thought-provoking impact. Practical analysis of the key factors required to write successful audio drama is covered in chapters focusing on audio play beginnings and openings, sound story dialogue, sustaining the sound story, plotting for sound drama and the best ways of ending audio plays. Each chapter is supported by extensive companion online resources expanding and supporting the writers and subjects

discussed and explored, and extensive information on how to access online many exemplar and model sound dramas referenced in the chapters. This textbook will be an important resource for undergraduate and postgraduate students taking modules and courses on radio drama, theatre and media drama, audio theatre, audio drama, scriptwriting, media writing.

The Politics of War Commemoration in the UK and Russia Nataliya Danilova, 2016-01-13 This book analyses contemporary war commemoration in Britain and Russia. Focusing on the political aspects of remembrance, it explores the instrumentalisation of memory for managing civil-military relations and garnering public support for conflicts. It explains the nexus between remembrance, militarisation and nationalism in modern societies.

Minorities in Iran R. Elling, 2013-02-18 Based on the premise that nationalism is a dominant factor in Iranian identity politics despite the significant changes brought about by the Islamic Revolution, this cross-disciplinary work investigates the languages of nationalism in contemporary Iran through the prism of the minority issue.

The World through Soccer Tamir Bar-On, 2014-05-07 The world's most popular sport, soccer is a global and cultural phenomenon. The television audience for the 2010 World Cup included nearly half of the world's population, with viewers in nearly every country. As a reflection of soccer's significance, the sport impacts countless aspects of the world's culture, from politics and religion to business and the arts. In *The World through Soccer: The Cultural Impact of a Global Sport*, Tamir Bar-On utilizes soccer to provide insights into worldwide politics, religion, ethics, marketing, business, leadership, philosophy, and the arts. Bar-On examines the ways in which soccer influences and reflects these aspects of society, and vice versa. Each chapter features representative players, providing specific examples of how soccer comments on and informs our lives. These players—selected from a wide array of eras, countries, and backgrounds—include Diego Maradona, Pelé, Hugo Sánchez, Cha Bum-Kun, Roger Milla, José Luis Chilavert, Zinedine Zidane, Paolo Maldini, Cristiano Ronaldo, Xavi, Neymar, Clint Dempsey, Mia Hamm, and many others. Employing a unique lens to view a variety of topics, *The World through Soccer* reveals the sport's profound cultural impact. Combining

philosophical, popular, and academic insights about our world, this book is aimed at both soccer fans and academics, offering readers a new perspective into a sport that affects millions.

Fact-Checking Journalism and Political Argumentation Jen Birks, 2019-11-15 This timely book examines the role of fact-checking journalism within political policy debates, and its potential contribution to public engagement. Understanding facts not to operate in a political vacuum, the book argues for a wide remit for fact-checking journalism beyond empirically-checkable facts, to include the causal relationships and predictions that form part of wider political arguments and are central to electoral pledges. Whilst these statements cannot be proven or disproven, fact-checking can, and sometimes does, ask pertinent critical questions about the premises of those claims and arguments. The analysis centres on the three dedicated national British fact-checkers during the UK's 2017 snap general election, including their activity and engagement on Twitter. The book also makes a close political discourse and argumentation analysis of three key issue debates in flagship reporting from Channel 4 News and the BBC.
