How to Photograph the Moon and Planets with Your Digital Camera Tony Buick, 2007-12-29 Since the advent of astronomical CCD imaging it has been possible for amateurs to produce images of a quality that was attainable only by universities and professional observatories just a decade ago. However, astronomical CCD

cameras are still very expensive, and technology has now progressed so that digital cameras – the kind you use on holiday – are more than capable of photographing the brighter astronomical objects, notably the Moon and major planets. Tony Buick has worked for two years on the techniques involved, and has written this illustrated step-by-step manual for anyone who has a telescope (of any size) and a digital camera. The color images he has produced – there are over 300 of them in the book – are of breathtaking quality. His book is more than a manual of techniques (including details of how to make a low-cost DIY camera mount) and examples; it also provides a concise photographic atlas of the whole of the nearside of the Moon – with every image made using a standard digital camera – and describes the various lunar features, including the sites of manned and robotic landings.

Hearts Don't Lie, Book Six Mitch MacLaren has reasons for avoiding relationships, and in his opinion, they're pretty darn good. As the new president of RTC Bucking Bulls, difficult challenges occur daily. He certainly doesn't need another one in the form of a fiery, blue-eyed, redhead. Dana Ballard's new job forces her to work with the one MacLaren who can't seem to get over himself and lighten up. Their verbal sparring is second nature and entertaining until the night of Mitch's departure when he surprises her with a dare she doesn't refuse. With his assignment in Fire Mountain over, Mitch is free to return to Montana and run the business his father helped start. The glitch in his enthusiasm has to do with one irreversible mistake—the dare Dana didn't ignore. Now, for reasons that confound him, he just can't let it go. Working together is a circumstance neither wants, but both must accept. As their attraction grows, so do the accidents and strange illnesses of the animals RTC depends on to stay in business. Mitch's total focus should be on finding the reasons and

people behind the incidents. Instead, he finds himself torn between his unwanted desire for Dana and the business which is his life. In his mind, a simple proposition can solve one problem. Will Dana make the smart move and walk away? Or take the gamble and expose her heart?

His life is full, but he feels like something is missing. Exchanging messages with the anonymous, charming shopper who handles his groceries fills the void, but he longs to take their interactions into the real world. When Aspen Ocean, the attractive and aggravating captain of the under-thirty team, is revealed as the mystery man, Cam is forced to rethink their relationship and admit there's more to his fascination with Aspen than his ever-changing hair color and

kaleidoscope of tattoos. Aspen Ocean loves being a makeup artist, his tight-knit friend group, and captaining the under-thirty rugby team. His second job as a personal shopper was supposed to give him extra income, not find him a boyfriend. He's floored when the sexy single dad he's been flirting with is actually Cameron, who has been a thorn in his side for the last five years. The discovery compels him to concede there's something to the undercurrent of attraction swirling beneath their encounters on the pitch and acknowledge that he yearns to see what lies beneath the sarcasm and humor that Cam presents to the world. The decision to get to know one another allows Cam and Aspen to see each other in a new light. Beyond the attraction and chemistry, they find support, caring, and a connection that deepens with each passing day. But Cam is protective about who he allows into his and his daughter's lives and into their hearts, and Aspen feels ill-equipped to navigate anything traditional, including a relationship that is more than just him and Cam. Can the fire of what they've built blaze bright despite the obstacles, or will it fizzle out? Smolder is an enemies to lovers gay romance with rec league rugby playing heroes, found families, and friends as family.

Love & Rugby Susan Scott Shelley, Chantal Mer, Love &

Rugby, The Complete Collection contains the books in the Love & Rugby MM romance series: Spiral, Spark, Smolder, Shine, Surprise, and Swoon. Spiral: Mutually breaking up with their cheating ex bonds rugby teammates Easton and Kade and sets them free to explore the allure of each other. But Easton's been burned one time too many, and Kade's self-doubts run deep. One touch, one admission, one kiss, sets off a chain reaction neither of them expected, and risks their friendship, their team, and how much they depend on each other. Spark: Spending his fortieth birthday in a club filled with twenty-somethings and members of his brother's rugby team isn't Finlay's idea of fun, but falling into the arms of a sexy stranger changes that. Bouncer and rugby player Mateo's life is consumed with work, but meeting Finlay is a bright spark in his hectic life. Can they give in to the instant connection that ignites a desire for more? Smolder: An unexpected discovery forces rival rugby captains Cam and Aspen to see each other in a new light. Beyond the attraction and chemistry, they find support, caring, and a connection that deepens with each passing day. But Cam is protective about who he allows into his and his daughter's lives and into their hearts, and Aspen feels ill-equipped to navigate anything traditional, including a relationship that is more than just

him and Cam. Can the fire of what they've built blaze bright despite the obstacles, or will it fizzle out? Shine: After their matchmaking friends scheme to get them together, Hercules and Apollo take a tentative step that quickly falls into a heady rush of firsts. Kisses, dates, sharing pieces of themselves, they form a bond that opens up their worlds. But as Hercules wars with doubts about himself and Apollo navigates the unfamiliar territory of a romantic relationship, their summer romance is tested by Hercules's belief that people don't stick around and Apollo's worry about what will happen when he trusts someone with his heart. Surprise: After months of secret hookups, rugby teammates Greer and Owen realize they're catching feelings for each other, and a New Year's Eve spent with their mutual crush Storm shows the trio they click together like nothing else they've ever experienced. They want more of what they can bring to each other, but their deepening bond also brings vulnerabilities to light. Neither Greer nor Storm have been in a relationship with more than one person before, and Owen fears the reason his last triad ended could repeat itself. Sharing secrets, needs, and feelings isn't easy for three men who have good reasons for keeping defenses in place, but if they don't learn to trust in each other, they risk losing

everything. Swoon: When proud firefighter Gage gets stuck in a tree while rescuing a kitten, his secret fear of heights is thrust into full view of his rugby teammates and the guy he's crushed on all season. Taking part in the rescue, tree doctor Valentine glimpses the vulnerability behind the tough mask Gage wears and is determined, quirks and all, to pursue the intriguing man. Caring for the kitten, the men form a connection that feels like the solid foundation for a relationship, but will Gage's worries of how his phobia could color his teammates, and in turn, Valentine's opinion of him and Valentine's doubts over whether he can trust Gage to keep his word when others haven't, keep them from the promise of new beginnings they've found in each other? The Love & Rugby series features friends who are connected through a rec league rugby team in Philadelphia. The MM romance stories are low to medium angst and all have HEAs.

Inamorata Maggie Wells, Margaret Ethridge, 2020-09-12 The sequel to Paramour. After twenty-five years of cooling his jets in a wall sconce, Frank DeLuca figured the afterlife owed him a break. Hadn't he been a model ghost? He didn't possess little kids, screw up the television reception, or throw random objects across the room just to get attention. Hell, he never even made creepy noises

in the dead of night. All he asked was a peaceful existence where someone would turn him on every once in a while. The light, that is. He needed just a little bit of light in his afterlife. Instead, he got a sullen, silent little boy who cried for his mommy every night. The kid came with a set of hyper-tense grandparents whose marriage was crumbling under the weight of old insecurities and words left unspoken. As if that weren't enough to drive a guy to hide out in his light fixture, providence tossed in a little a spitfire of a girl who flipped his switch in every way. Gina Ferro turned out to be the kid's mother. She also happened to be a ghost. Thrown together by Fate and bound by history, Frank and Gina must learn to trust each other with the keys to their pasts in order to unlock their eternity.

Rider is trying to finish his senior year of high school while struggling to accept himself and hide his secret. It's difficult and he might have succeeded if not for two challenges in his way.
