Children of the Rainforest Camilla Morelli,2023-06-16 Children of the Rainforest explores the lives of children growing up in a time of radical change in Amazonia. The book draws on ethnographic fieldwork conducted with the Matses, a group of hunter-gatherer forest dwellers who have lived in voluntary isolation until fairly recently. Having worked with them for over a decade, returning every year to their villages in the rainforest, Camilla Morelli follows closely the life-trajectories of Matses children, watching them shift away from the forest-based lifestyles of their elders and move towards new horizons crisscrossed by concrete paving, lit by the glow of electric lights and television screens, and centered around urban practices and people. The book uses drawings and photographs taken by the children themselves to trace the children's journeys—lived and imagined—from their own perspectives, proposing an ethnographic analysis that recognizes children's imaginations, play, and shifting desires as powerful catalysts of social change.

And Merely Teach Arthur Edward Lean,1976 Arthur E. Lean's irreverent and con-troversial essays represent the distillation of many ideas about education--ideas developed during most of a lifetime spent in and about schools. In the second edition of this popular work, to which he has added eight new essays, he presents his latest observations on current ele-ments and programs in education--such as the grading system, academic rank, the teaching process, assessment of edu-cational progress--concluding that many of them are not only unnecessary but actually harmful to the very process which they are supposed to serve. Covering a broad spectrum of current issues in its criticism of American edu-cation at all levels, And Merely Teach is a book to be read by veteran educator, beginning teacher, and lay citizen alike. Though critical of the teaching profes-sion, Arthur Lean also offers constructive suggestions in the form of practical solu-tions that are urgently needed to save our ailing educational system.
