**The Future of Political Science** Harold D. Lasswell, 2017-09-04 Harold D. Lasswell is arguably the quintessential face of political science to the larger public of the past century. However, there is a side to Lasswell less well known, but of special importance in this day and age: the place of the profession of politics as an academic activity. This book, written at the start of the culture wars thirty years ago, outlines the basic core position of political science practitioners. It helps to explain why the field kept its collective cool, when other social science professionals veered to more extreme activist positions. The Future of Political Science grew out of the phenomenally rapid expansion of the study of government in the United States and elsewhere. The study of professionalism among physical scientists, lawyers, engineers, etc. was not matched by such internal examination within the social sciences until much later. Lasswell's overview centered on developments in the United States. There unfettered study of government reached unprecedented heights in the final stage of the twentieth century. The key concept of this volume, one that continues to inform discourse, is the relationship of political science as a mechanism for the study and teaching of the political system to the field as a tool of the Establishment. This concern grew in the wake of a variety of scandals and secret support sponsored by both government and non-government organizations alike. The Future of Political Science covers areas ranging from membership size and disparities, intervention scenarios in world events, the nature of creativity in political research collaboration in projects with the other social sciences, and the location of scientific centers of gravity in the study of politics. Because of Lasswell's works we have a field of the political science of knowledge as well as the sociology of knowledge. Harold D. Lasswell served as Ford Foundation Professor of the Social Sciences at Yale University, Distinguished Professor of Policy Sciences at Joh

**The Revival of Labor Liberalism** Andrew Battista, 2023-12-11 The Revival of Labor Liberalism is a careful analysis of the twentieth-century decline of the labor-liberal coalition and the important efforts to revive their political fortunes. Andrew Battista chronicles the efforts of several new political organizations that arose in the 1970s and 1980s with the goal of reuniting unions and liberals. Drawing from extensive documentary research and in-depth interviews with union leaders and political activists, Battista shows that the new organizations such as the Progressive Alliance, Citizen Labor Energy Coalition, and National Labor Committee made limited but real progress in reconstructing and strengthening the labor-liberal coalition. Although the labor-liberal alliance remained far weaker than the rival business-conservative alliance, Battista illuminates that it held a crucial role in labor and political history after 1968. Focuses on a fraught but evolving partnership, Battista provides a broad analysis of factional divisions among both unions and liberals and considers the future of unionism and the labor-liberal coalition in America.

*The Chinese Corporate Ecosystem* Colin S. C. Hawes, 2022-08-04 Challenging simplistic claims that Chinese corporations merely serve Communist Party goals, this book argues we cannot understand these corporations without tracing their dynamic evolution within a unique socio-political ecosystem. Vivid case studies illuminate the strange hybrid structures and networks that are essential for corporate success in the Chinese habitat. Tracing the reciprocal impacts between Chinese corporations and their environment, Colin S. C. Hawes reveals how corporations' political adaptations have raised serious obstacles for their international expansion and worsened China's environmental crisis. Adopting an interdisciplinary approach that synthesizes insights from behavioural economics, science and Chinese philosophy, this book proposes innovative solutions to the damaging impacts of Chinese corporations. It makes a compelling case for redirecting the vital energy of corporations and government officials in more productive and sustainable directions.

**The Politics of Intimacy** Anna Durnová, 2018-07-23 Debates on the end-of-life controversy are complex because they seem to hijack national and cultural traditions. Where previous books have focused on ideological grounds, *The Politics of Intimacy* explores dying as the site where policies are negotiated and implemented. Intimacy comprises the emotional experience of the end of life and how we acknowledge it—or not—through institutions. This process shows that end-of-life controversy relies on the conflict between the individual and these institutions, a relationship that is the cornerstone of Western liberal democracies. Through interviews with mourners, stakeholders, and medical professionals, examination of media debates in France and the Czech Republic, Durnová shows that liberal institutions, in their attempts to accommodate the emotional experience at the end of life, ultimately fail. She describes this deadlock as the “politics of intimacy,” revealing that political institutions deploy power through collective acknowledgment of individual emotions but fail to maintain this recognition because of this same experience.

**Zeitschrift für Kulturmanagement: Kunst, Politik, Wirtschaft und Gesellschaft** Steffen Höhne, Martin Tröndle, Bruno Seger, Leticia Labaronne, 2017-04-30 Die jährlich in zwei Heften erscheinende, referierte »Zeitschrift für Kulturmanagement« initiiert und fördert eine wissenschaftliche Auseinandersetzung mit Kulturmanagement im Hinblick auf eine methodologische und theoretische Fundierung des Faches. Das international orientierte Periodikum nimmt nicht nur ökonomische Fragestellungen, sondern ebenso sehr die historischen, politischen, sozialen und wirtschaftlichen Bedingungen und Verflechtungen im Bereich Kultur in den Blick. Explizit sind daher auch Fachvertreterinnen und -vertreter akademischer Nachbardisziplinen wie der Kulturosoziologie und -politologie, der Kunst-, Musik- und Theaterwissenschaft, der Kunst- und Kulturpädagogik, der Wirtschaftswissenschaft etc. angesprochen, mit ihren Beiträgen den Kulturmanagementdiskurs kritisch zu bereichern. Gastherausgeber dieses Themenheftes zu »Evaluation im Kulturbereich« sind Leticia Labaronne und Bruno Seger (ZHAW Winterthur). Die Beiträge kreisen um Fragen der Spezifika, Formatierung und Operationalisierung von Evaluationsmodellen und der Bedeutung von Evaluationsresultaten für Kulturmanagement, -förderung und politik.

**Corporate Social Responsibility in Europe** Samuel O. Idowu, René Schmidpeter, Matthias S. Fifka, 2015-02-12 This book explores the current state of Corporate Social Responsibility (CSR) in 24 European nations, examining the state of the development and practice of CSR and sustainability for organizations in these countries. The common denominator for all of the book's 25 chapters is a management perspective rather than an ethical discourse. The book therefore represents a comprehensive survey of initiatives and activities in the field of CSR and provides a

wealth of complete cases and examples for different approaches to sustainable and responsible management practice. The book also reviews the relevant political and governmental guidelines and frameworks for organizations, both on a national and a European level. Europe has taken a leading role in the promotion and implementation of CSR. This book showcases how, through CSR, enterprises can significantly contribute to achieving the European Union's treaty objectives of sustainable development and a highly competitive social market economy.

**The Routledge Handbook of State-Owned Enterprises** Luc Bernier, Massimo Florio, Philippe Bance, 2020-05-27 State-owned enterprises make up roughly 10 percent of the world economy, yet they are woefully understudied. This handbook offers the first synthesis of the topic since the 1980s and offers a comprehensive reference for a generation. The authors provide a detailed explanation of the theory that underpins the expansion of state-owned enterprises in the 21st century. Each chapter delivers an overview of current knowledge, as well as identifying issues and relevant debates for future research. The authors explain how state-owned enterprises are used in both developed and developing countries and offer an insight into complex and fascinating organizations such as the German municipal conglomerates or the multinational companies owned by states. New modes of governance and regulation have been invented to make sure they act in the public interest. This handbook brings together a wealth of international scholars, offering multiple theoretical perspectives to help shape a brave new world. It will be of interest to teachers and students of Economics, Public Administration and Business, academics, established researchers and PhD students seeking rigorous literature reviews on specific aspects of SOEs, as well as practitioners and decision makers in international organizations.

**Expressions of Radicalization** Kristian Steiner, Andreas Önnarfors, 2017-12-15 This edited collection considers whether it is possible to discern how the level of ideology is affected by radicalization. In other words: what happens in the minds of people before they decide to use political violence as means to attain their goals? Also this book asks: what has to happen in the minds of people in order to preclude them from using political violence as a way of attaining their goals? This volume unites scholars from several disciplines and perspectives from a number of different geographical, social and cultural contexts with the overarching aim to refine our understanding of what 'radicalization' actually implies.

*The Politics and Policies of Big Data* Ann Rudinow Sætnan, Ingrid Schneider, Nicola Green, 2018-05-08 Big Data, gathered together and re-analysed, can be used to form endless variations of our persons – so-called 'data doubles'. Whilst never a precise portrayal of who we are, they unarguably contain glimpses of details about us that, when deployed into various routines (such as management, policing and advertising) can affect us in many ways. How are we to deal with Big Data? When is it beneficial to us? When is it harmful? How might we regulate it? Offering careful and critical analyses, this timely volume aims to broaden well-informed, unprejudiced discourse, focusing on: the tenets of Big Data, the politics of governance and regulation; and Big Data practices, performance and resistance. An interdisciplinary volume, *The Politics of Big Data* will appeal to undergraduate and postgraduate students, as well as postdoctoral and senior researchers interested in fields such as Technology, Politics and Surveillance.
