Harris, guides readers in applying the contributions of recent communication theory to improving everyday communication among the races. The authors offer a comprehensive, practical foundation for dialogue on interracial communication, as well as a resource that stimulates thinking and encourages readers to become active participants in dialogue across racial barriers. Part I provides a foundation for studying interracial communication and includes chapters on the history of race and racial categories, the importance of language, the development of racial and cultural identities, and current and classical theoretical approaches. Part II applies this information to interracial communication practices in specific, everyday contexts, including friendships, romantic relationships, the mass media, and organizational, public, and group settings. This Third Edition includes the latest data, new research studies and examples, all-new photos, and important new topics.

*Nanotechnology in Phytopharmaceuticals* Tarique Mahmood, Arshiya Shamim, Mohammed Haris Siddiqui, Farogh Ahsan, 2023-07-18 Bringing together expert writings from diligent authors in the fields of nanobiomedicines, nanopharmaceuticals and herbal nanocosmeceuticals, this book pragmatically covers pharmacological, clinical, safety and regulatory aspects of herbal nanoproducts. It will assist curious minds and researchers in delving into, and capturing, holistic knowledge on this intriguing subject.

**The Vanishing Black African Woman: Volume Two** Olumide, Yetunde Mercy, 2016-10-06 Skin-lightening is currently one of the most common forms of potentially harmful body modification practices in the world and African women are among some of the most widely represented users of skin-lightening products. The overall objective of this book is to provide up-to-date evidence-based recommendations for reducing the global burden of cosmetic skin bleaching and preventing injuries related to skin bleaching in sub-Saharan Africa and Africans in diaspora. The book aims to: offer an appraisal of all relevant literature on cosmetic bleaching practices to-date, focusing on any key developments; identify and address important medical, public health issues as well as historical, genetic, psychosocial, cultural, behavioural, socioeconomic, political, institutional and environmental determinants; provide guideline recommendations that would help attenuate the burden and possibly eliminate the injuries related to skin bleaching; discuss potential developments and future directions.

*Handbook of Cosmetic Science and Technology* André O. Barel, Marc Paye, Howard I. Maibach, 2014-04-09 Written by experienced and internationally renowned contributors, this is the fourth edition of what has become the standard reference for cosmetic scientists and dermatologists seeking the latest innovations and technology for the formulation, design, testing, use, and production of cosmetic products for skin, hair, and nails. New to this fourth e

Nanocosmeceuticals Malay K. Das, 2022-08-23 Cosmetics are a fast-growing segment in the global personal care industry and the application of nanocosmeceuticals are on the rise. Conventional cosmetics greatly lack specific delivery systems, prolong effects and relatively heavy doses may be necessary. One of the common complaints of consumers is rather short-term activity of cosmetics, especially in face care products. Nanocosmeceuticals, having more advanced nutrient delivery mechanisms, carry more task

specific nutrients to the skin deep where it can be metabolized and used to nourish cells. It can help to increase the aesthetic appeal of a product influencing the purchase decision of a consumer.

**Nanocosmeceuticals: Innovation, Application and Safety** highlights the trends and applications of nanotechnology in cosmeceuticals for more advance and task specific nutrients delivery and long term effects of personal care products using liposome, solid lipid nanoparticles, nanostructured lipid carriers, transferosomes, niosomes, phytosomes, nanoemulsions, silver nanoparticles, chitin nanofibrils etc. It also provides the detailed information on regulatory laws, safety and marketing aspects of cosmeceuticals. This book offers an indispensable guide for professors, researchers, students, formulation chemists as well as formulation scientists in academia and industry; beauticians and decision-makers in consumer organizations. First book on 'Nanocosmeceuticals' Serves as a valuable resource of scientific innovations, novel applications, safety and regulations of Nanocosmeceuticals Offers an updated and highly structured reference material for students, researchers, professors, formulation chemists and scientists

**Advanced Materials and Structural Engineering** Jong Wan Hu, 2016-02-03 The ICAMEST 2015 Conference covered new developments in advanced materials and engineering structural technology. Applications in civil, mechanical, industrial and material science are covered in this book. Providing high-quality, scholarly research, addressing developments, applications and implications in the field of structural health monitoring, construction safety and management, sensors and measurements. This volume contains new models for nonlinear structural analysis and applications of modeling identification. Furthermore, advanced chemical materials are discussed with applications in mechanical and civil engineering and for the maintenance of new materials. In addition, a new system of pressure regulating and water conveyance based on small and middle hydropower stations is discussed. An experimental investigation of the ultimate strength and behavior of the three types of steel tubular K-joints was presented. Furthermore, real-time and frequency linear and nonlinear modeling performance of materials of structures contents were concluded with the notion of a fully brittle material, and this approach is implemented in the book by outlining a finite-element method for the prediction of the construction performance and cracking patterns of arbitrary structural concrete forms. This book is an ideal reference for practicing engineers in material, mechanical and civil engineering and consultants (design, construction, maintenance), and can also be used as a reference for students in mechanical and civil engineering courses.

The Biology of Beauty Rachelle M. Smith, 2018-06-08 This thought-provoking book examines the science behind human attractiveness—the ratios, proportions, and other factors that to a large extent dictate what we find beautiful. It's said that beauty is in the eye of the beholder, but recent scientific research suggests that human attractiveness is much more objective than we once thought, deeply rooted in our biology and evolutionary history. For instance, facial symmetry is considered extremely attractive because it indicates good health and nutrition during the formative developmental years. This book explores these insights. Part I of *The Biology of Beauty: The Science behind Human Attractiveness* takes a closer look at what traits we find the most alluring and why. It discusses why attractiveness is important from an evolutionary standpoint and the advantages (and disadvantages) of being attractive. In addition to exploring these beauty universals, it examines how beauty ideals can be shaped by factors such as culture, religion, and the media. Part II provides an in-depth analysis of individual features that contribute to attractiveness, offering scientific explanations for our preferences. The book also includes a collection of insightful sidebars that highlight beauty ideals in different parts of the world and at other times in history.

**Introducing Anthropology** Laura Pountney, Tomislav Marić, 2021-04-28 The perfect starting point for any student new to this fascinating subject, offering a serious yet accessible introduction to anthropology. Across a series of fourteen chapters, *Introducing Anthropology* addresses the different fields and approaches within anthropology, covers an extensive range of themes and emphasizes the active role and promise of anthropology in the world today. The new edition foregrounds in particular the need for anthropology in understanding and addressing today’s environmental crisis, as well as the exciting developments of digital anthropology. This book has been designed by two authors with a passion for teaching and a commitment to communicating the excitement of anthropology to newcomers. Each chapter includes clear explanations of classic and contemporary anthropological research and connects anthropological theories to real-life issues at the local and global levels. The vibrancy and importance of anthropology is a core focus of the book, with numerous interviews with key anthropologists about their work and the discipline as a whole, and plenty of ethnographic studies to consider and use as inspiration for readers’ own personal investigations. A clear glossary, a range of activities and discussion points, and carefully selected further reading and suggested ethnographic films further support and extend students’ learning. *Introducing Anthropology* aims to inspire and enthuse a new generation of anthropologists. It is suitable for a range of different readers, from students studying the subject at school-level to university students looking for a clear and engaging entry point into anthropology.
