**Spectacle and Diversity** Lee Artz,2021-12-30 This book shows how transnational media operate in the contemporary world and what their impact is on film, television, and the larger global culture. Where a company is based geographically no longer determines its outreach or output. As media consolidate and partner across national and cultural boundaries, global culture evolves. The new transnational media industry is universal in its operation, function, and social impact. It reflects a shared transnational culture of consumerism, authoritarianism, cultural diversity, and spectacle. From Wolf Warriors and Sanju to Valerian: City of 1000 Planets and Pokémon, new media combinations challenge old assumptions about cultural imperialism and reflect cross-boundary collaboration as well as boundary-breaking cultural interpretation. Intended for students of global studies and international communication at all levels, the book will appeal to a wide range of readers interested in the way transnational media work and how that shapes our culture.

**The Report: Trinidad & Tobago 2016** Oxford Business Group,2016-08-07 In its March 2016 Economic Bulletin, the Central Bank of T & T stated that after negative growth of 1% in 2014, T & T's economy contracted by a further 2.1% in 2015, as per provisional data. Meanwhile, government revenue fell by 6.2% in FY 2014/15, with a 35% decline in energy collections outstripping increases in non-energy and capital receipts. Nonetheless, the recessionary environment is not without opportunity for the country's new leadership. As the Government of Keith Rowley, which assumed office in September 2015, works to bring government spending under control, policies aimed at economic diversification could be set to gain further traction. Moreover, given that T & T has a safety buffer in the form of strong foreign currency reserves and a sovereign wealth fund, there is a relatively room to manoeuvre.

**Mass Communication and Journalism** Gail Robinson,2019-09-06 The study of mass communication is often associated with the practical applications of journalism (Print media), television and radio broadcasting, film, public relations, or advertising. With the diversification of media options, the study of communication has extended to include social media and new media, which have stronger feedback models than traditional media sources. While the field of mass communication is continually evolving, the following four fields are generally considered the major areas of study within mass communication. They exist in different forms and configurations at different schools or universities, but are (in some form) practiced at most institutions that study mass communication Advertising, in relation to mass communication, refers to marketing a product or service in a persuasive manner that encourages the audience to buy the product or use the service. **American Betiya** Anuradha D. Rajurkar,2021-03-09 A luminous story of a young artist grappling with first love, family boundaries and the complications of a cross-cultural relationship. Perfect for fans of Sandhya Menon, Erika Sanchez and Jandy Nelson. Rani Kelkar has never lied to her parents, until she meets Oliver. The same qualities that draw her in--his tattoos, his charisma, his passion for art--make him her mother's worst nightmare. They begin dating in secret, but when Oliver's troubled home life unravels, he starts to ask more of Rani than she knows how to give, desperately trying to fit into her world, no matter how high the cost. When a twist of fate leads Rani from Evanston, Illinois to Pune, India for a summer, she has a reckoning with herself--and what's really brewing beneath the surface of her first love. Winner of SCBWI's Emerging Voices award, Anuradha D. Rajurkar takes an honest look at the ways cultures can clash in an interracial relationship. Braiding together themes of sexuality, artistic expression, and appropriation, she gives voice to a girl claiming ownership of her identity, one shattered stereotype at a time. A brave, beautiful exploration of identity--those thrust upon us, and those we forge for ourselves. --Elana K. Arnold, award-winning author of What Girls Are Made Of

**Networked Bollywood** Swapnil Rai,2024-01-31 Networked Bollywood provides interdisciplinary analysis of the role of the stars in the transformation of Hindi cinema into a global entertainment industry. The first Indian film was made in 1913. However, filmmaking was recognized as an industry almost a hundred years later. Yet, Indian films have been circulating globally since their inception. This book unearths this oft-elided history of Bollywood's globalization through multilingual, transnational research and discursive cultural analysis. The author illustrates how over the decades, a handful of

primarily male megastars, as the heads of the industry's most prominent productions and corporations, combined overwhelming charismatic affect with unparalleled business influence. Through their star switching power, theorized here as a deeply gendered phenomenon and manifesting broader social inequalities, India's most prominent stars instigated new flows of cinema, industrial collaborations, structured distinctive business models, influenced state policy and diplomatic exchange, thereby defining the future of Bollywood's globalization.
