Breaking Down the "Messages" of the Christian Music Industry. Xavier Naidoo and His Album "Telegramm für X" Raymond Teodo,2020-12-17 Essay from the year 2009 in the subject Musicology - Contemporary music, University of Queensland (St. Lucia Campus), course: MUSC2700 - Music in the Digital Age, language: English, abstract: Contemporary Christian music has always had its niche in popular music culture. This essay discusses the politics behind the Christian Music Industry in comparison with the mainstream Music Industry, using German hip-hop artist Xavier Naidoo and his album Telegramm für X as an example of this discussion in motion. The genre is arguably the most scrutinised in terms of quality and content, particularly when discussing artists' public image in concurrence with the messages they are producing in their music. Consequently, the essay details the struggles the Christian Music Industry has in competing with mainstream competition, as well as what techniques contemporary Christian artists have had to employ in order for their music to attract a fan base. In short, it brings to the reader's attention the sort of lengths contemporary Christian artists must undertake in order to break into the mainstream and become recognised.

Black Europe and the African Diaspora Darlene Clark Hine,Trica Danielle Keaton,Stephen Small,2023-12-11 The presence of Blacks in a number of European societies has drawn increasing interest from scholars, policymakers, and the general public. This interdisciplinary and multi-disciplinary collection penetrates the multifaceted Black presence in Europe, and, in so doing, complicates the notions of race, belonging, desire, and identities assumed and presumed in revealing portraits of Black experiences in a European context. In focusing on contemporary intellectual currents and themes, the contributors theorize and re-imagine a range of historical and contemporary issues related to the broader questions of blackness, diaspora, hegemony, transnationalism, and Black Europe itself as lived and perceived realities. Contributors are Allison Blakely, Jacqueline Nassy Brown, Tina Campt, Fred Constant, Alessandra Di Maio, Philomena Essed, Terri Francis, Barnor Hesse, Darlene Clark Hine, Dienne Hondius, Eileen Julien, Trica Danielle Keaton, Kwame Nimako, Tiffany Ruby Patterson, T. Denean Sharpley-Whiting, Stephen Small, Tyler Stovall, Alexander G. Weheliye, Gloria Wekker, and Michelle M. Wright.

Feenin Alexander Ghedi Weheliye,2023-09-29 In Feenin, Alexander Ghedi Weheliye traces R&B music's continuing centrality in Black life since the late 1970s. Focusing on various musical production and reproduction technologies such as auto-tune and the materiality of the BlackFem singing voice, Weheliye counteracts the widespread popular and scholarly narratives of the genre's decline and death. He shows how R&B remains a thriving venue for the expression of Black thought and life and a primary archive of the contemporary moment. Among other topics, Weheliye discusses the postdisco evolution of house music in Chicago and techno in Detroit, Prince and David Bowie in relation to appropriations of Blackness and Euro-whiteness in the 1980s, how the BlackFem voice functions as a repository of Black knowledge, the methods contemporary R&B musicians use to bring attention to Black Lives Matter, and the ways vocal distortion technologies such as the vocoder demonstrate Black music's relevance to discussions of humanism and posthumanism. Ultimately, Feenin represents Weheliye's capacious thinking about R&B as the site through which to consider questions of Blackness, technology, history, humanity, community, diaspora, and nationhood.

The Nature of Conspiracy Theories Michael Butter,2020-10-06 Conspiracy theories seem to be proliferating today. Long relegated to a niche existence, conspiracy theories are now pervasive, and older conspiracy theories have been joined by a constant stream of new ones – that the USA carried out the 9/11 attacks itself, that the Ukrainian crisis was orchestrated by NATO, that we are being secretly controlled by a New World Order that keep us docile via chemtrails and vaccinations. Not to mention the moon landing that never happened. But what are conspiracy theories and why do people believe them? Have they always existed or are they something new, a feature of our modern world? In this book Michael Butter provides a clear and comprehensive introduction to the nature

and development of conspiracy theories. Contrary to popular belief, he shows that conspiracy theories are less popular and influential today than they were in the past. Up to the 1950s, the Western world regarded conspiracy theories as a legitimate form of knowledge and it was therefore normal to believe in them. It was only after the Second World War that this knowledge was delegitimized, causing conspiracy theories to be banished from public discourse and relegated to subcultures. The recent renaissance of conspiracy theories is linked to internet which gives them wider exposure and contributes to the fragmentation of the public sphere. Conspiracy theories are still stigmatized today in many sections of mainstream culture but are being accepted once again as legitimate knowledge in others. It is the clash between these domains and their different conceptions of truth that is fuelling the current debate over conspiracy theories.

Contract II, 2009-11-16 The present volume is the second of a series. In addition to revising those parts of the ACQP which were published in the “Contract I” volume, it presents numerous new rules, in particular on remedies for non-performance and on certain specific situations or contracts such as delivery of goods, package travel and payment services. The work is particularly aimed at enriching the current controversial debate on the way forward for European contract and consumer law stimulated by the European Commission's Proposal for a Directive on Consumer Rights. The Acquis Principles include: - General rules formulated on the basis of existing EC law - An accompanying commentary, outlining the foundations in the Acquis - Definitions of core legal terms and a glossary on terminology The Acquis Group aims to reformulate the present patchwork of directives, regulations and judgments on EC private law as a coherent Restatement, the Acquis Principles (ACQP). These Principles present the current state of EC law in a structure which allows readers to identify commonalities, contradictions and gaps in the Acquis.

European Muslim Antisemitism Günther Jikeli, 2015-02-16 Antisemitism from Muslims has become a serious issue in Western Europe, although not often acknowledged as such. Looking for insights into the views and rationales of young Muslims toward Jews, Günther Jikeli and his colleagues interviewed 117 ordinary Muslim men in London (chiefly of South Asian background), Paris (chiefly North African), and Berlin (chiefly Turkish). The researchers sought information about stereotypes of Jews, arguments used to support hostility toward Jews, the role played by the Middle East conflict and Islamist ideology in perceptions of Jews, the possible sources of antisemitic views, and, by contrast, what would motivate Muslims to actively oppose antisemitism. They also learned how the men perceive discrimination and exclusion as well as their own national identification. This study is rich in qualitative data that will mark a significant step along the path toward a better understanding of contemporary antisemitism in Europe.

Language Variation - European Perspectives VIII Hans Van de Velde, Nanna Haug Hilton, Remco Knooihuizen, 2021-06-16 This volume contains a selection of papers from the 10th International Conference on Language Variation in Europe (ICLaVE 10), which was organized by the Fryske Akademy and held in Leeuwarden/Ljouwert (the Netherlands) in June 2019. The editors have selected thirteen papers on a wide range of language varieties, geographically ranging from Dutch-Frisian contact varieties in Leeuwarden to English in Sydney, Australia. The selection includes traditional quantitative and qualitative approaches to different types of linguistic variables, as well as state-of-the-art techniques for the analysis of speech sounds, new dialectometrical methods, covariation analysis, and a range of statistical methods. The papers are based on data from traditional sources such as sociolinguistic interviews, speech corpora and newspapers, but also on hip hop lyrics, historical private letters and administrative documents, as well as re-analyses of dialect atlas data and older dialect recordings. The reader will enjoy the vibrant diversity of language variation studies presented in this volume.
