Opening the Xbox Dean Takahashi,2002 Is this new Microsoft venture just another experiment that, like WebTV, was launched to much fanfare but will be quickly forgotten? Or will it become the next Windows, finding its way into the homes and lives of millions of people around the world?.

Explode The Code Nancy M. Hall,Rena Price,2005 A phonics bestseller for over 30 years, Explode the code has helped millions of students nationwide build the essential literacy skills needed for reading success: phonological awareness, decoding, vocabulary, comprehension, fluency, and spelling.

High Winds Sylvan Oswald,2017-06-10 How does sleep--or its absence--change us? At the end of another wakeful night, High Winds tears off on a hallucinatory road trip in search of his estranged half brother, led by cryptic signs and coincidences. Part modern-day pillow book, part picture book for adults, and told in an associative, elliptical style, the narrative takes readers deep into a dreamlike Western landscape. Jessica Fleischmann's atmospheric imagery amplifies the words on every page, referencing 1980s graphics, net art, and something yet unseen; Sylvan Oswald's text inhabits and draws meaning from this visual environment. Gas stations, local legends, and unlikely rock formations become terrain for explorations of fear, fantasy, masculinity, medication, spatial structures, and bodily functions--inspired by the author's experience of gender transition, insomnia, and moving to Los Angeles. Poetic and funny, surreal and beautiful--High Winds makes a delightful companion, before or instead of a good night's sleep.
