**All Data Are Local** Yanni Alexander Loukissas, 2019-04-30 How to analyze data settings rather than data sets, acknowledging the meaning-making power of the local. In our data-driven society, it is too easy to assume the transparency of data. Instead, Yanni Loukissas argues in *All Data Are Local*, we should approach data sets with an awareness that data are created by humans and their dutiful machines, at a time, in a place, with the instruments at hand, for audiences that are conditioned to receive them. The term data set implies something discrete, complete, and portable, but it is none of those things. Examining a series of data sources important for understanding the state of public life in the United States—Harvard's Arnold Arboretum, the Digital Public Library of America, UCLA's Television News Archive, and the real estate marketplace Zillow—Loukissas shows us how to analyze data settings rather than data sets. Loukissas sets out six principles: all data are local; data have complex attachments to place; data are collected from heterogeneous sources; data and algorithms are inextricably entangled; interfaces recontextualize data; and data are indexes to local knowledge. He then provides a set of practical guidelines to follow. To make his argument, Loukissas employs a combination of qualitative research on data cultures and exploratory data visualizations. Rebutting the “myth of digital universalism,” Loukissas reminds us of the meaning-making power of the local.

**Yanni in Words** Yanni, David Rensin, 2003-02-12 Yanni is practically a force of nature. With global sales of over 20 million albums, 35 gold and platinum awards, and a fan base of untold millions in nearly every corner of the world, this self-taught musician and composer has achieved a cult-like following. The Washington Post has called Yanni's career 'a miracle, a lesson in pluck that could be taught in business school, preached from pulpits and woven into bedtime stories.' In this long-awaited memoir, Yanni offers an inside look at his fascinating journey, from his boyhood in Greece, where he taught himself to play piano at the age of six, to his current status as a musical star. His path to success was sometimes rocky. With unprecedented candor, Yanni describes his long struggle to separate himself from the 'New Age' label, his ongoing battles with a music industry bewildered by his work, and the depression that threatened to derail his career. With great affection, he also discusses his long relationship with Linda Evans and shares the lessons about love and truth that he's learned from his father along the way.

*Children of Marx and Coca-Cola* Xiaoping Lin, 2009-11-02 *Children of Marx and Coca-Cola* affords a deep study of Chinese avant-garde art and independent cinema from the mid-1990s to the beginning of the twenty-first century. Informed by the author's experience in Beijing and New York—global cities with extensive access to an emergent transnational Chinese visual culture—this work situates selected artworks and films in the context of Chinese nationalism and post-socialism and against the background of the capitalist globalization that has so radically affected contemporary China. It juxtaposes and compares artists and independent filmmakers from a number of intertwined perspectives, particularly in their shared avant-garde postures and perceptions. Xiaoping Lin provides illuminating close readings of a variety of visual texts and artistic practices, including installation, performance, painting, photography, video, and film. Throughout he sustains a theoretical discussion of representative artworks and films and succeeds in delineating a variegated postsocialist cultural landscape saturated by market forces, confused values, and lost faith. This refreshing approach is due to Lin's ability to tackle both Chinese art and cinema rigorously within a shared discursive space. He, for example, aptly conceptualizes a central thematic concern in both genres as postsocialist trauma aggravated by capitalist globalization. By thus focusing exclusively on the two parallel and often intersecting movements or phenomena in the visual arts, his work brings about a fruitful dialogue between the narrow field of traditional art history and visual studies more generally. *Children of Marx and Coca-Cola* will be a major contribution to China studies, art history, film studies, and cultural studies. Multiple audiences—specialists, teachers, and students in these disciplines, as well as general readers with an interest in contemporary Chinese society and culture—will find

that this work fulfills an urgent need for sophisticated analysis of China's cultural production as it assumes a key role in capitalist globalization.

**Living on Campus** Carla Yanni, 2019-04-02 An exploration of the architecture of dormitories that exposes deeply held American beliefs about education, youth, and citizenship Every fall on move-in day, parents tearfully bid farewell to their beloved sons and daughters at college dormitories: it is an age-old ritual. The residence hall has come to mark the threshold between childhood and adulthood, housing young people during a transformational time in their lives. Whether a Gothic stone pile, a quaint Colonial box, or a concrete slab, the dormitory is decidedly unhomelike, yet it takes center stage in the dramatic arc of many American families. This richly illustrated book examines the architecture of dormitories in the United States from the eighteenth century to 1968, asking fundamental questions: Why have American educators believed for so long that housing students is essential to educating them? And how has architecture validated that idea? Living on Campus is the first architectural history of this critical building type. Grounded in extensive archival research, Carla Yanni's study highlights the opinions of architects, professors, and deans, and also includes the voices of students. For centuries, academic leaders in the United States asserted that on-campus living enhanced the moral character of youth; that somewhat dubious claim nonetheless influenced the design and planning of these ubiquitous yet often overlooked campus buildings. Through nuanced architectural analysis and detailed social history, Yanni offers unexpected glimpses into the past: double-loaded corridors (which made surveillance easy but echoed with noise), staircase plans (which prevented roughhousing but offered no communal space), lavish lounges in women's halls (intended to civilize male visitors), specially designed upholstered benches for courting couples, mixed-gender saunas for students in the radical 1960s, and lazy rivers for the twenty-first century's stressed-out undergraduates. Against the backdrop of sweeping societal changes, communal living endured because it bolstered

networking, if not studying. Housing policies often enabled discrimination according to class, race, and gender, despite the fact that deans envisioned the residence hall as a democratic alternative to the elitist fraternity. Yanni focuses on the dormitory as a place of exclusion as much as a site of fellowship, and considers the uncertain future of residence halls in the age of distance learning.

**Yanni's Story** N. R. Walker, 2017-09-07 When Yanni Tomaras is kicked out of his family home, his parents' final words are religious insults and an order to never return. Homeless and desperate, he's lured in by Lance-charming on the outside, an evil predator underneath-who abuses Yanni until he finds the courage to leave. Yanni should feel free. But by the time Spencer Cohen finds him, he's resigned to being handed back to Lance and once again being caged by fear. Starting school and a part-time job, Yanni begins to reclaim his life. But a love for silent films leads him to Peter Hannikov, a man with a kind heart but who's twice his age. An unlikely friendship between them blooms into so much more. Neither man knows what he wants, at first. Finding out exactly what he needs is Yanni's story. I'd spent years as a bird, caged with my wings clipped, tormented and beaten. I thought I'd escaped when I'd left my abuser, but in hindsight, I could see that I was still caged, this time by fear and self-doubt. Spencer and Andrew, and Andrew's parents, opened the door to the cage that confined me. But it was Peter who taught me how to fly.
