**Advantage Yahtzee** Olaf Vancura,2010 Hasbro's dice game YAHTZEE sells some 50 million copies every year, thanks to a winning combination of simple rules, competitive scoring, and modest price. But until now, most players relied on dumb luck in their quest for victory. Advantage YAHTZEE provides a surefire winning edge: an original strategy developed by an expert on game theory that virtually guarantees a high score, yet is simple and straightforward enough for the average player to use on every roll. There are millions of fiercely devoted YAHTZEE players out there, and this is the game-beating system they've been waiting for.

**Trekking in Ladakh** Radek Kucharski,2015-11-02 This trekking guidebook gives detailed descriptions of eight different treks across the Ladakh, Zaskar and Markha Valley in northern India. Ranging from moderate difficulty to very demanding, the treks vary between 6 to 12 days in length, each trek is broken down into multiple stages, and has information on difficulty, available accommodation and access, as well as the many combinations and alternative routes open to exploration. Trek 1: Kharnak, 148 km / 10 days. Starts in Kharu in the Indus Valley and ends in Pang, on the Manali-Leh road. Trek 2: Tsarab Chu, 174km / 12 days. Starts in Pang and ends in Padum, Zaskar. Trek 3: Darcha to Padum - the classic trek to Zaskar, 135km / 9 days. Starts in Darcha and ends in Padum. Trek 4: Round Sultanlango, 112km / 6 days. Starts in Padum and ends in Stongde, Zaskar. Trek 5: Padum to Lamayuru - the classic trek from Zaskar, 148km / 8 days. Starts in Padum and ends in Lamayuru on the Kargil-Leh road. Trek 6: Padum to Lamayuru via the Kanji La, 169km / 10 days Trek 7: Alchi - a circuit over five passes, 98km / 8 days. Starts in Alchi in the Indus Valley and ends in Phanjila, Wanla, Lamayuru, Nurla or Mangyu Trek 8: Markha Valley, 113km / 9 days. Starts in Spituk, southwest of Leh and ends in Hemis near the Indus Valley Known as Little Tibet; for both its landscape and culture, Ladakh lies at the northern tip of India. The region is bisected by the great River Indus and neighbours Tibet and Kashmir. This quiet corner of the Himalaya has developed a strong trekking culture over recent years for adventurous trekkers. Trekking in this remote, high-altitude region is extremely challenging, as paths are not signed and there are only a limited number of villages. However, its magnificent landscape (a huge area full of limitless trekking possibilities), hospitable people, rich heritage and limited number of tourists make Ladakh an amazing destination. The guide includes background information on local culture, history and religion, as well as all the planning detail you need on crucial aspects such as environmental responsibility, health and safety in the mountains, trekking practicalities and preparation for altitude.

**The Islamic Invasion** Ph. D. Robert a. Morey,2011-08 The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated. The Islamic Invasion As Mosques appear across the country people are asking-What do I need to Know about Islam? Islam- once an obscure Middle Eastern religion-has rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States! What attraction does Islam hold for its followers? What part does it play in shaping the outlook and attitudes of nearly one billion people? Noted author Dr. Robert A. Morey, internationally recognized authority on the origins of the teachings and rituals of Islam- - explores the pre-Islamic history of Allah, and the doctrines and customs of Islam - reveals Islam's teaching about current issues such as religious freedom and the role of women The Islamic Invasion will give you the insight you need to understand Islam and the challenge it poses today. Dr. Morey warned the United States and Europe about Islam during the early 1980's long before 9/11. Most books on Islam since 9/11 have used his analysis of the Qur'an or Hadith. Special thanks to Professor Colin Akridge-who is a Vietnam Veteran and black scholar in the field of comparative religions-for his valuable and insightful contributions and working with him for researching and writing the section entitled The Black Muslim Movement in America. **An Astronaut's Guide to Life on Earth** Chris Hadfield,2013-10-29 Travel to space and back with astronaut Chris Hadfield's enthralling bestseller as your eye-opening guide (Slate). Colonel Chris Hadfield has spent decades training as an astronaut and has logged nearly 4000 hours in space. During this time he has broken into a Space Station with a Swiss army knife, disposed of a live snake while piloting a plane, and been temporarily blinded while clinging to the exterior of an orbiting spacecraft. The secret to Col. Hadfield's success-and survival-is an unconventional philosophy he learned at NASA: prepare for the worst- and enjoy every moment of it. In An Astronaut's Guide to Life on Earth, Col. Hadfield takes readers deep into his years of training and space exploration to show how to make the impossible possible. Through eye-opening, entertaining stories filled with the adrenaline of launch, the mesmerizing wonder of spacewalks, and the measured, calm responses mandated by crises, he explains how conventional wisdom can get in the way of achievement — and happiness. His own extraordinary education in space has taught him some counterintuitive lessons: don't visualize success, do care what others think, and always sweat the small stuff. You might never be able to build a robot, pilot a spacecraft, make a music video or perform basic surgery in zero gravity like Col. Hadfield. But his vivid and refreshing insights will teach you how to think like an astronaut, and will change, completely, the way you view life on Earth — especially your own. Hadfield proves himself to be not only a fierce explorer of the universe, but also a deeply thoughtful explorer of the human condition. —Maria Popova, Brain Pickings

**The Best Interface Is No Interface** Golden Krishna,2015-01-31 Our love affair with the digital interface is out of control. We've embraced it in the boardroom, the bedroom, and the bathroom. Screens have taken over our lives. Most people spend over eight hours a day staring at a screen, and some "technological innovators" are hoping to grab even more of your eyeball time. You have screens in your pocket, in your car, on your appliances, and maybe even on your face. Average smartphone users check their phones 150 times a day, responding to the addictive buzz of Facebook or emails or Twitter. Are you sick? There's an app for that! Need to pray? There's an app for that! Dead? Well, there's an app for that, too! And most apps are intentionally addictive distractions that end up taking our attention away from things like family, friends, sleep, and oncoming traffic. There's a better way. In this book, innovator Golden Krishna challenges our world of nagging, screen-based bondage, and shows how we can build a technologically

advanced world without digital interfaces. In his insightful, raw, and often hilarious criticism, Golden reveals fascinating ways to think beyond screens using three principles that lead to more meaningful innovation. Whether you’re working in technology, or just wary of a gadget-filled future, you’ll be enlightened and entertained while discovering that the best interface is no interface.

**From Joseph to Joshua** H H Rowley,1950-01-01 The story of the Exodus has been one of the most vexing historico-Biblical problems to confront scholars. The fundamental chronological problems are of the utmost complexity, yet they materially affect the view that is taken of Israel's religious development. Delivered in 1948, these lectures consider the Biblical traditions, the surviving extra-Biblical texts, and the archaeological evidence.
