West African Challenge to Empire Mahir Şaul,Patrick Royer,2022-11-08 West African Challenge to Empire examines the anticolonial war in the Volta and Bani region in 1915–16. It was the largest challenge that the French ever faced in their West African colonial empire, and one of the largest armed oppositions to colonialism anywhere in Africa. How such a movement could be organized in the face of European technological superiority despite the fact that this region is generally described as having consisted of rival villages and descent groups is a puzzle. In this jointly written book the two authors provide a detailed political and military history of this event based on archival research and ethnographic fieldwork. Using cultural and sociological analysis, it probes the origins of the movement, its internal organization, its strategy, and the reasons for its initial success and why it spread. In 2001 the authors of West African Challenge to Empire were awarded the Amaury Talbot Prize for African Anthropology by the Royal Anthropological Institute.

Bubbas of the Apocalypse Selina Rosen,2020-03-14 IT'S THE END OF THE WORLD AS WE KNOW ITSo kick back, grab a beer, fire up the grill, hunker down, and enjoy the ride. Eighteen of Sci-fi and Horror's most inventive and -- dare we say demented -- minds have come together to compose a vision of the future which will scare the bejesus out of most normal folk. Listen up! The world as we know it is going to end, just as you thought -- only not for the reasons you predicted. It's not the meek who're going to inherit the earth, or the rich, or the famous, or the well-prepared. No, the folks who survive the end of civilization are those who never needed it much anyway and for reasons... well, you're not likely to guess why, but I promise you, once you've read Bubbas of the Apocalypse, you're going to have a whole new perspective on the real mainstays of South'm cuisine: Twinkies, Spam, and rot-gut red sauce. YARD DOG PRESS has collected nineteen of the darn strangest visions of the apocalypse and every one's a keeper. So get yourself some Mountain Dew and settle in for a great read. Lynn Abbey, Author of Jerlayne and Sanctuary Off the wall and unusual... Rosen does it again... A wild and creative blend of southern humor and fantasy. C.J. Cherryh, Author of Hammer Fall With stories by: Bill Allen, Garrett Peck, Robert Brown, Mark Shepherd, Ed Cain, Selina Rosen, Gary Jonas, Laura Underwood, James Dorr, Mark Fewell, Everett Bell, Rob Gates, Lee Martindale, Bradley Sinor, William Gagliani, Keith Berdak, and poetry by Ajax.

Dark Pool of Light, Volume Two Richard Grossinger,2012-08-28 In books like Embyogenesis and Embryos, Galaxies, and Sentient Beings, author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied (The embryo is the universe writing itself on its own body). In Dark Pool of Light, his three-volume series of books discussing the nature of reality and consciousness, Grossinger weaves neuroscience-based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate: our own existence. In Volume 1, Grossinger begins with the scientific and philosophical, analytical views of reality; the subtitle of that volume is The Neuroscience, Evolution, and Ontology of Consciousness. In Volume 2, Consciousness in Psychospiritual and Psychic Ranges, he examines psychic sensitivity and planes of existence from diverse experiential perspectives, including theosophy and Buddhism. In 2008, Grossinger began studying with noted psychic teacher John Friedlander, who helped him refine his vision of cerebral and somatic awareness to still-subtler levels. Dark Pool of Light began unnamed in the journals of my psychic work with John Friedlander, says Grossinger, not so much a record of actual practices as insights from them and extensions out of them. An expansive inquiry into the nature of consciousness, this volume includes these field notes and observations from Grossinger's studies in the imaginal psychic realm, as well as exercises to invite the reader to experience these dimensions for themselves.
