Satire TV Jonathan Gray, Jeffrey P. Jones, Ethan Thompson, 2009-04-01 A fascinating look into what happens when comedy becomes political and politics becomes comedy. Satirical TV has become mandatory viewing for citizens wishing to make sense of the bizarre contemporary state of political life. Shifts in industry economics and audience tastes have re-made television comedy, once considered a wasteland of escapist humor, into what is arguably the most popular source of political critique. From fake news and pundit shows to animated sitcoms and mash-up videos, satire has become an important avenue for processing politics in informative and entertaining ways, and satire TV is now its own thriving, viable television genre. Satire TV examines what happens when comedy becomes political, and politics become funny. A series of original essays focus on a range of programs, from The Daily Show to South Park, Da Ali G Show to The Colbert Report, The Boondocks to Saturday Night Live, Lil' Bush to Chappelle's Show, along with Internet D.I.Y. satire and essays on British and Canadian satire. They all offer insights into what today's class of satire tells us about the current state of politics, of television, of citizenship, all the while suggesting what satire adds to the political realm that news and documentaries cannot.

Gendered Ways of Transnational Un-Belonging from a Comparative Literature Perspective Indrani Mukherjee, Java Singh, 2019-05-03 As the outcome of an international conference held at Jawaharlal Nehru University, India, this

book provides a collection of productive texts on, and novel critical approaches to, comparative literature for young scholars. The wide range of analytical approaches employed here allow for the opening up of texts to new readings. The contributions here encompass readings of cinema, advertisements and literary representations, such as novels, poems and short stories, and are pertinent for scholars in media studies, cultural studies, gender studies, sociology and literature. As a commentary on contemporary representations of gender, the book is also relevant for all higher education institutions which seek to heighten gender sensitivity.

Revolutionary Has No Clothes A.C. Clark, 2009-09-29 During the forty or so years that preceded Hugo Chavez's seizing of power, Venezuela had the most stable democracy in Latin America, the fastest-growing economy and the highest standard of living in the region. After Chavez seized power in 1999, however, things have changed radically. Today, Venezuela can no longer be seen as a democracy and rather than attracting immigrants as it once did, Venezuelans themselves are fleeing the country. Yet, somehow, the vast majority of contemporary references to Venezuela and to Chavez's rule are laudatory. In *The Revolutionary Has No Clothes: Hugo Chavez's Bolivarian Farce*, A.C. Clark corrects this warped take on Hugo Chavez and the "Bolivarian Revolution" in Venezuela and skewers those grotesquely admiring

portraits of Mr. Chavez painted by panegyrists from Noam Chomsky to Sean Penn. Clark explores Chavez's embarrassing public displays, perilous policy platforms and close relationships with rogue states to reveal Chavez for what he truly is: a dangerous "buffoon" leading a once prosperous nation down a path to ruin. Most shockingly, Clark exposes both Chavez's ambitions for asymmetrical warfare against the United States and Venezuela's insidious lobbying network within our own borders. In the end, *The Revolutionary Has No Clothes* is the definitive portrait of one of the world's depraved leaders and a disturbing chronicle of Venezuela's decline from a prosperous democracy to an autocratic bully-state.

Global LGBTQ+ Concerns in a Contemporary World: Politics, Prejudice, and Community Rajput, Namita, Katyal, Aishwarya, Katyal, Radhhika, 2022-09-16
Despite the empowering pride culture that has evolved globally in the past half-century, the LGBTQAI+ community continues to face widespread discrimination. They are often subjected to cruelty and discrimination and are the bearers of a heavy psychological burden and frustration that stems from not coming out and expressing their concerns freely. Today, the invisibility of this community and its concerns have become enormous challenges for the world as their interests often go unrepresented and unaddressed by governments due to various barriers. *Global LGBTQ+ Concerns in a Contemporary World: Politics, Prejudice, and Community* considers the harsh realities of the LGBTQAI+ community and draws attention to key issues such as

violation of their rights and disparities in access to basic amenities such as healthcare, employment, and security. Covering key topics such as inclusion, mental health, queer communities, and human rights, this reference work is ideal for activists, advocates, politicians, sociologists, gender studies specialists, policymakers, government officials, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.

YouTube Jean Burgess, Joshua Green, 2013-09-04 YouTube is one of the most

well-known and widely discussed sites of participatory media in the contemporary online environment, and it is the first genuinely mass-popular platform for user-created video. In this timely and comprehensive introduction to how YouTube is being used and why it matters, Burgess and Green discuss the ways that it relates to wider transformations in culture, society and the economy. The book critically examines the public debates surrounding the site, demonstrating how it is central to struggles for authority and control in the new media environment. Drawing on a range of theoretical sources and empirical research, the authors discuss how YouTube is being used by the media industries, by audiences and amateur producers, and by particular communities of interest, and the ways in which these uses challenge existing ideas about cultural 'production' and 'consumption'. Rich with both concrete examples and featuring specially commissioned chapters by Henry Jenkins and John Hartley, the book is essential reading for anyone interested in the contemporary and future implications of online media. It will be particularly valuable for students and scholars in media, communication and cultural studies.

America Goes Hawaiian Geoff Alexander, 2018-12-31 How did Hawaiian and Polynesian culture come to dramatically alter American music, fashion and decor, as well as ideas about race, in less than a century? It began with mainland hula and musical performances in the late 19th century, rose dramatically as millions shipped to Hawaii during the Pacific War, then made

big leap with the advent of low-cost air travel. By the end of the 1950s, mainlanders were hosting tiki parties, listening to exotic music, lazing on rattan furniture in Hawaiian shirts and, of course, surfing. Increasingly, they were marrying people outside of their own racial groups as well. The author describes how this cultural conquest came about and the people and events that led to it.

Trade Unions on YouTube Jenny Jansson, Katrin Uba, 2019-08-01 This open access book investigates how trade unions representing different social classes use YouTube videos for renewal purposes. Information and communication technology has undoubtedly offered new opportunities for social movements, but while research suggests that these new means of communication can be used for trade union revitalization, few studies have examined what unions actually do on social media. By analysing more than 4500 videos that have been uploaded by Swedish trade unions, Jansson and Uba explore how unions use YouTube to address issues such as recruiting new members, improving internal democracy, promoting political campaigns and constructing (new) self-images. The results demonstrate that trade unions representing a range of social classes use different revitalization strategies via YouTube. This research will be of use to students and scholars researching European politics and political participation, trade unionism and labour movements in the digital age.

Crisis Intervention Alan A. Cavaiola, Joseph E. Colford, 2017-10-24 Crisis Intervention takes into account various environments and populations across the lifespan to provide students with practical guidelines for managing crises. Drawing on over 25 years of relevant experience, authors Alan A. Cavaiola and Joseph E. Colford cover several different types of crises frequently encountered by professionals in medical, school, work, and community settings. Models for effectively managing these crises are presented along with the authors' own step-by-step approach, the

Listen–Assess–Plan–Commit (LAPC) model, giving students the freedom to select a model that best fits their personal style or a given crisis. Future mental health professionals will gain the knowledge, skills, and confidence to help their clients manage the crises they will encounter in their day-to-day lives.

Discourses of Authenticity on YouTube Georgia

Riboni, 2020-08-25T00:00:00+02:00 This book explores the discourse of authenticity on the popular social media platform YouTube. It investigates how popular users negotiate their identity and discursively portray themselves as authentic in their videos. In so doing, it adds to the development of new perspectives on social media communication and offers an outlook on issues concerning the complexities of contemporary identity practices. Starting from the premise that authenticity is a discursive construction, the study adopts a linguistics-based approach and relies on a hybrid methodological toolkit that draws on the analytical tools provided by Social Media Critical Discourse Studies (SM-CDS), a newly-introduced framework comprised of different but interconnected levels of description. The volume presents three case studies which investigate the discursive and rhetorical strategies used by well-known users in order to come across as authentic. Videos produced by popular content creators belonging to different communities of practice (scientists, stay-at-home mothers, and makeup artists) are explored. The analysis reveals that they share a common set of

identity characteristics, a common core of authentic traits famous YouTubers conventionally display to discursively depict themselves as genuine and credible.
