The Nation's Youth Elizabeth Herzog, 1912

Youth for Nation Charles R. Kim, 2017-06-30 This in-depth exploration of culture, media, and protest follows South Korea's transition from the Korean War to the start of the political struggles and socioeconomic transformations of the Park Chung Hee era. Although the post-Korean War years are commonly remembered as a time of crisis and disarray, Charles Kim contends that they also created a formative and productive juncture in which South Koreans reworked pre-1945 constructions of national identity to meet the political and cultural needs of postcolonial nation-building. He explores how state ideologues and mainstream intellectuals expanded their efforts by elevating the nation's youth as the core protagonist of a newly independent Korea. By designating students and young men and women as the hope and exemplars of the new nation-state, the discursive stage was set for the remarkable

outburst of the April Revolution in 1960. Kim's interpretation of this seminal event underscores student participants' recasting of anticolonial resistance memories into South Korea's postcolonial politics. This pivotal innovation enabled protestors to circumvent the state's official anticommunism and, in doing so, brought about the formation of a culture of protest that lay at the heart of the country's democracy movement from the 1960s to the 1980s. The positioning of women as subordinates in the nation-building enterprise is also shown to be a direct translation of postwar and Cold War exigencies into the sphere of culture; this cultural conservatism went on to shape the terrain of gender relations in subsequent decades. A meticulously researched cultural history, *Youth for Nation* illuminates the historical significance of the postwar period through a rigorous analysis of magazines, films, textbooks, archival documents, and personal testimonies. In addition to scholars and students of twentieth-century Korea, the book will be welcomed by those interested in Cold War cultures, social movements, and democratization in East Asia.

Children and Youth in a New Nation James Marten, 2009 In the early years of the Republic, as

Americans tried to determine what it meant to be an American, they also wondered what it meant to be an American child. A defensive, even fearful, approach to childhood gave way to a more optimistic campaign to integrate young Americans into the Republican experiment. In *Children and Youth in a New Nation*, historians unearth the experiences of and attitudes about children and youth during the decades following the American Revolution. Beginning with the revolution itself, the contributors explore a broad range of topics, from the ways in which American children and youth participated in and learned from the revolt and its aftermaths, to developing notions of “ideal” childhoods as they were imagined by new religious denominations and competing ethnic groups, to the struggle by educators over how the society that came out of the Revolution could best be served by its educational systems. The volume concludes by foreshadowing future “child-saving” efforts by reformers committed to constructing adequate systems of public health and child welfare institutions. Rooted in the historical literature and primary sources, *Children and Youth in a New Nation* is a key resource in our understanding of origins of modern ideas about children and youth and the conflation

of national purpose and ideas related to child development.

Youth and Nation-Building in Cameroon. A Study of National Youth Day Messages and Leadership Discourse (1949-2009) Churchill Ewumbue-Monono, 2009-07-15 This meticulous and comprehensive documentation of Cameroonian Youth Day Messages and leadership discourse on youth from 1949 - 2009 is a gold mine for researchers, historians and anyone interested in studying youth, politics and society in Africa. The book presents and explores themes and content of Youth Day Messages: how these messages tied in with, or veered away from, key events and issues of the time; how they served as a platform for West Cameroon governments, and the Ahidjo and Biya regimes to articulate their political vision, justify their policies, sell their respective ideologies to the youth; and what lessons could be drawn from them on competing, conflicting and complementary perspectives on youth agency in Cameroon and Africa. Churchill links the Youth Day to ongoing discussions in Africa about the role and place of youths as agents of development in Africa. Most significantly, he finally puts Cameroon's controversial Youth Day in its appropriate historical context - not as a political device created by the

Francophone politicians to distort Cameroonian history and erase 'plebiscite day' from the collective memory as Anglophone nationalists claim, but as a British Cameroons colonial legacy, successfully sold to the Ahidjo regime as a day to be commemorated throughout the federation, by leaders of the federated state of West Cameroon. Churchill Ewumbue-Monono, a senior career diplomat, is Minister Counsellor in the Cameroon Embassy in Moscow. A graduate of the International Higher School of Journalism, and the International Relations Institute of Cameroon in the University of Yaounde, he was a 1991-92 Fellow in Public Diplomacy in Boston University, USA. He has served in Cameroon in various professional capacities. Ewumbue-Monono has written extensively on Cameroon's political history, and his books include *Men of Courage*, published in 2005.

Youth of Darkest England Troy Boone, 2005-08-29 This book examines the representation of English working-class children – the youthful inhabitants of the poor urban neighborhoods that a number of writers dubbed darkest England – in Victorian and Edwardian imperialist literature. In particular, Boone focuses on how the writings for and about youth undertook an ideological project to enlist working-class children into the British imperial enterprise, demonstrating convincingly that the British working-class youth resisted a nationalist identification process that tended to eradicate or obfuscate class differences.
