Academic and Professional Writing in an Age of Accountability Shirley Wilson Logan,Wayne H. Slater,2018-12-27 What current theoretical frameworks inform academic and professional writing? What does research tell us about the effectiveness of academic and professional writing programs? What do we know about existing best practices? What are the current guidelines and procedures in evaluating a program's effectiveness? What are the possibilities in regard to future research and changes to best practices in these programs in an age of accountability? Editors Shirley Wilson Logan and Wayne H. Slater bring together leading scholars in rhetoric and composition to consider the history, trends, and future of academic and professional writing in higher education through the lens of these five central questions. The first two essays in the book provide a history of the academic and professional writing program at the University of Maryland. Subsequent essays explore successes and challenges in the establishment and development of writing programs at four other major institutions, identify the features of language that facilitate academic and professional communication, look at the ways digital practices in academic and professional writing have shaped how writers compose and respond to texts, and examine the role of assessment in curriculum and pedagogy. An afterword by distinguished rhetoric and composition scholars Jessica Enoch and Scott Wible offers perspectives on the future of academic and professional writing. This collection takes stock of the historical, rhetorical, linguistic, digital, and evaluative aspects of the teaching of writing in higher education. Among the critical issues addressed are how university writing programs were first established and what early challenges they faced, where writing programs were housed and who administered them, how the language backgrounds of composition students inform the way writing is taught, the ways in which current writing technologies create new digital environments, and how student learning and programmatic outcomes should be assessed.

Aprendizaje Basado en Juegos como metodología activa en la etapa de Educación Primaria José Luis Solas Martínez,Sara Suárez Manzano,Teresa Martínez Redecillas ,Alberto Ruiz Ariza, El Aprendizaje Basado en Juegos (ABJ) es una metodología innovadora que utiliza el juego para enseñar conceptos y habilidades específicas con el objetivo de lograr resultados de aprendizaje concretos de manera gradual y guiada. Además, esta metodología, puede transformarse en físicamente activa, coordinada desde la Educación Física e incluyendo en sus dinámicas el movimiento, aprovechando así las potencialidades de la actividad física de manera motivante, lúdica y participativa a través de numerosas alternativas, y de las cuales se mostrarán algunas opciones a lo largo del presente libro. Esta metodología de ABJ tiene un gran potencial para el aprendizaje y puede ser implementada tanto en la jornada escolar (propias clases de Educación Física, aula ordinaria, descansos activos o en los recreos), como en horario extraescolar, incentivada y supervisada desde el Centro escolar, y en colaboración con las familias. A través de ella, se pueden trabajar aspectos importantes como son la resolución de problemas, la cooperación o diversos contenidos curriculares mientras que, con esta inclusión del movimiento, permite también que los estudiantes se mantengan físicamente activos. Este libro presenta un marco teórico sobre el ABJ, detalla los beneficios de la actividad física regular en niños y adolescentes, y explica las bases para la creación del ABJ, resaltando la opción de cómo añadir el componente activo. También, expone varios protocolos de diseño de juegos con objetivos educativos y proporciona los recursos necesarios para crear este material. Finalmente, se presentan algunos ejemplos de ABJ con componente activo ya implementados en el aula y se muestra en detalle un juego activo para fomentar hábitos saludables en la etapa de Educación Primaria.

The Real Toy Story Eric Clark,2007-01-09 The American toy business is massive, world dominating, cutthroat, exciting, and increasingly willing to sacrifice our kids in its frantic rush for profit. And yet, for all its rapaciousness, the industry is in the business of delighting and fascinating our children. Toys are one of the most emotive subjects in the world. We all remember our own toys; we care desperately about those we choose for our kids, knowing these objects help shape children's lives. They are also a constantly newsworthy item: every Christmas, which toys are hot -- and the scramble by parents to grab them before the stores are empty -- is front-page and TV bulletin news. The Real Toy Story tells the tales of these toys and of the vast, world-dominating \$22 billion American industry that creates them. The rewards for success are enormous: a top toy can earn billions -- H. Ty Warner shot into Forbes's World's Richest People list with his creation of Beanie Babies. The price of failure is just as huge -- the battlefield is littered with the corpses of once-successful toy companies whose multimillion-dollar gambles did not pay off. It is a world of contrasts. The Real Toy Story looks at both sides: at Slinky, Elmo, Barbie, Transformers, and their creators, but also at the dark side of an industry that leads the way in cold-blooded marketing targeted at children. Parents will want to learn about how this seemingly benign industry exploits, sometimes surreptitiously, the many new media: cable television, the internet, CD-ROMs, sometimes even invading the playgrounds to peddle their wares to unsuspecting young people. Perhaps more disturbingly, this hard-hitting book examines the vast gap between the cuddly image of toys and how almost all toys destined for America are actually produced in China under sweatshop conditions. Today the toy industry is in the midst of rapid change. Tapping into the concern millions of adults have about the toys they choose for the children in their lives, this riveting exposé is essential reading for everyone who cares about kids.
