Jane Mayer

Zero Dark Thirty Mark Boal,2013-07-16 The hunt for Osama bin Laden preoccupied the world and two American presidential administrations for more than a decade. But in the end, it took a small, dedicated team of CIA operatives to track him down. Every aspect of their mission was shrouded in secrecy. Though some of the details have since been made public, many of the most significant parts of the intelligence operation—including the central role played by that team—are brought to the screen for the first time in a nuanced and gripping new film by the Oscar®-winning creative duo of Kathryn Bigelow and Mark Boal, starring Jessica Chastain, Jason Clarke, Joel Edgerton, Jennifer Ehle, Mark Strong, Kyle Chandler, and Edgar Ramirez. The Newmarket Shooting Script Book includes: Introduction by Kathryn Bigelow Complete shooting script Q&A with Mark Boal by Rob Feld Production notes Storyboards Complete cast and crew credits

The Killing of Osama Bin Laden Seymour M. Hersh,2016-04-12 Electrifying investigation of White House lies about the assassination of Osama bin Laden In 2011, an elite group of US Navy SEALs stormed an enclosure in the Pakistani city of Abbottabad and killed Osama bin Laden, the man the United States had begun chasing before the devastating attacks of 9/11. The news did much to boost President Obama's first term and played a major part in his reelection victory of the following year. But much of the story of that night, as presented to the world, was incomplete, or a lie. The evidence of what actually went on remains hidden. At the same time, the full story of the United States' involvement in the Syrian civil war has been kept behind a diplomatic curtain, concealed by doublespeak. It is a policy of obfuscation that has compelled the White House to turn a blind eye to Turkey's involvement in supporting ISIS and its predecessors in Syria. This investigation, which began as a series of essays in the London Review of Books, has ignited a firestorm of controversy in the world media. In his introduction, Hersh asks what will be the legacy of Obama's time in office. Was it an era of "change we can believe in" or a season of lies and compromises that continued George W. Bush's misconceived War on Terror? How did he lose the confidence of the general in charge of America's forces who acted in direct contradiction to the White House? What else do we not know?

The Finish Mark Bowden,2012-10-16 New York Times bestseller: The true behind-the-scenes story of the manhunt for the 9/11 mastermind is "a page-turner" (Minneapolis Star-Tribune). From the author of Black Hawk Down and Hue 1968, this is a gripping account of the hunt for Osama bin Laden. With access to key sources, Mark Bowden takes us inside the rooms where decisions were made and on the ground where the action unfolded. After masterminding the attacks of September 11, 2001, Osama bin Laden managed to vanish. Over the next ten years, as Bowden shows, America found that its war with al Qaeda—a scattered group of individuals who were almost impossible to track—demanded an innovative approach. Step by step, Bowden describes the development of a new tactical strategy to fight this war—the fusion of intel from various agencies and on-the-ground special ops. After thousands of special forces missions in Iraq and Afghanistan, the right weapon to go after bin Laden had finally evolved. By spring 2011, intelligence pointed to a compound in Abbottabad; it was estimated that there was a 50/50 chance that Osama was there. Bowden shows how three strategies were mooted: a drone strike, a precision bombing, or an assault by Navy SEALs. In the end, the president had to make the final decision. It was time for the finish. "In-depth interviews with Obama and other insiders reveal a White House on edge, facing top-secret options, white-knuckle decisions, and unforeseen obstacles . . . Bowden weaves together accounts from Obama and top decision-makers for the full story behind the daring operation." —Vanity Fair "The most accessible and satisfying book yet written on the climactic event in the United States' long war against al Qaeda." —San Francisco Chronicle

Manhunt Peter L. Bergen,2012-05-01 From the author of the New York Times bestselling Holy War, Inc., this is the definitive account of the decade-long manhunt for the world's most wanted man, Osama bin Laden. Al Qaeda expert and CNN national security analyst Peter Bergen paints a multidimensional picture of the hunt for Osama bin Laden over the past decade, including the operation that killed him. Other key elements of the book will include: - A careful account of Obama's decision-making process as the raid was planned - The fascinating story of a group of women CIA analysts who never gave up assembling the tiniest clues about bin Laden's whereabouts - The untold and action-packed history of the Joint Special Operations Command (JSOC) and the SEALs - An analysis of what the death of bin Laden means for Al Qaeda and for Obama's legacy Just as Hugh Trevor-Roper's The Last Days of Hitler was the definitive account of the death of the Nazi dictator, Manhunt is the authoritative, immersive account of the death of the man who organized the largest mass murder in American history.

Hard Measures Jose A. Rodriguez,Bill Harlow,2013-04-30 An explosive memoir about the creation and implementation of the controversial Enhanced Interrogation Techniques by the former Chief Operations Officer for the CIA's Counterterrorism Center.

Covering Bin Laden Susan Jeffords,Fahed Al-Sumait,2015-01-30 Starting in 2001, much of the world media used the image of Osama bin Laden as a shorthand for terrorism. Bin Laden himself considered media manipulation on a par with military, political, and ideological tools, and intentionally used interviews, taped speeches, and distributed statements to further al-Qaida's ends. In Covering Bin Laden, editors Susan Jeffords and Fahed Yahya Al-Sumait collect perspectives from global scholars exploring a startling premise: that media depictions of Bin Laden not only diverge but often contradict each other, depending on the media provider and format, the place in which the depiction is presented, and the viewer's political and cultural background. The contributors analyze the representations of the many Bin Ladens, ranging from Al Jazeera broadcasts to video games. They examine the media's dominant role in shaping our understanding of terrorists and why/how they should be feared, and they engage with the ways the mosaic of Bin Laden images and narratives have influenced policies and actions around the world. Contributors include Fahed Al-Sumait, Saranaz Barforoush, Aditi Bhatia, Purnima Bose, Ryan Croken, Simon Ferrari, Andrew Hill, Richard Jackson, Susan Jeffords, Joanna Margueritte-Giecewicz, Noha Mellor, Susan Moeller, Brigitte Nacos, Courtney C. Radsch, and Alexander Spencer.

The Torture Debate in America Karen J. Greenberg,2005-11-21 As a result of the work assembling the documents, memoranda, and reports that constitute the material in The Torture Papers the question of the rationale behind the Bush administration's decision to condone the use of coercive interrogation techniques in the interrogation of detainees suspected of terrorist connections was raised. The condoned use of torture in any society is questionable but its use by the United States, a liberal democracy that champions human rights and is a party to international conventions forbidding torture, has sparked an intense debate within America. The Torture Debate in America captures these arguments with essays from individuals in different disciplines. This volume is divided into two sections with essays covering all sides of the argument from those who embrace absolute prohibition of torture to those who see it as a viable option in the war on terror and with documents complementing the essays.

American Cinema in the Shadow of 9/11 Terence McSweeney,2016-12-05 American Cinema in the Shadow of 9/11 is a ground-breaking collection of essays by some of the foremost scholars writing in the field of contemporary American film. Through a dynamic critical analysis of the defining films of the turbulent post-9/11 decade, the volume explores and interrogates the impact of 9/11 and the 'War on Terror' on American cinema and culture. In a vibrant discussion of films like American Sniper (2014), Zero Dark Thirty (2012), Spectre (2015), The Hateful Eight (2015), Lincoln (2012), The Mist (2007), Children of Men (2006), Edge of Tomorrow (2014) and Avengers: Age of Ultron (2015), noted authors Geoff King, Guy Westwell, John Shelton Lawrence, Ian Scott, Andrew Schopp, James Kendrick, Sean Redmond, Steffen Hantke and many others consider the power of popular film to function as a potent cultural artefact, able to both reflect the defining fears and anxieties of the tumultuous era, but also shape them in compelling and resonant ways.

The Mind-Game Film Thomas Elsaesser,2021-03-28 This book represents the culmination of Thomas Elsaesser's intense and passionate thinking

about the Hollywood mind-game film from the previous two decades. In order to answer what the mind-game film is, why they exist, and how they function, Elsaesser maps the industrial-institutional challenges and constraints facing Hollywood, and the broader philosophic horizon within which American cinema thrives today. He demonstrates how the ‘Persistence of Hollywood’ continues as it has adapted to include new twists and turns, as well as revisions of past concerns, as film moves through the 21st century. Through examples such as *Minority Report*, *Mulholland Drive*, *Source Code*, and *Back to the Future*, Elsaesser explores how mind-game films challenge us and play games with our perception of reality, creating skepticism and (self-) doubt. He also highlights the mind-game film's tendency to intervene in a complex fashion in the political moment by questioning the dominant power’s intent to program both body and mind alike. Prescient and compelling, *The Mind-Game Film* will appeal to students, scholars, and enthusiasts of media studies, film studies, philosophy, and politics.

The Dark Side Jane Mayer,2009-05-08 *The Dark Side* is a dramatic, riveting, and definitive narrative account of how the United States made self-destructive decisions in the pursuit of terrorists around the world—decisions that not only violated the Constitution, but also hampered the pursuit of Al Qaeda. In spellbinding detail, Jane Mayer relates the impact of these decisions by which key players, namely Vice President Dick Cheney and his powerful, secretive adviser David Addington, exploited September 11 to further a long held agenda to enhance presidential powers to a degree never known in U.S. history, and obliterate Constitutional protections that define the very essence of the American experiment. With a new afterward. One of *The New York Times* 10 Best Books of the Year National Bestseller National Book Critics Circle Award Finalist A Best Book of the Year: Salon, Slate, *The Economist*, *The Washington Post*, *Cleveland Plain-Dealer*

The Operator Robert O'Neill,2017-04-25 This instant *New York Times* bestseller—“a jaw-dropping, fast-paced account” (*New York Post*) recounts SEAL Team Operator Robert O’Neill’s incredible four-hundred-mission career, including the attempts to rescue “Lone Survivor” Marcus Luttrell and abducted-by-Somali-pirates Captain Richard Phillips, and which culminated in the death of the world’s most wanted terrorist—Osama bin Laden. In *The Operator*, Robert O’Neill describes his idyllic childhood in Butte, Montana; his impulsive decision to join the SEALs; the arduous evaluation and training process; and the even tougher gauntlet he had to run to join the SEALs’ most elite unit. After officially becoming a SEAL, O’Neill would spend more than a decade in the most intense counterterror effort in US history. For extended periods, not a night passed without him and his small team recording multiple enemy kills—and though he was lucky enough to survive, several of the SEALs he’d trained with and fought beside never made it home. “Impossible to put down...*The Operator* is unique, surprising, a kind of counternarrative, and certainly the other half of the story of one of the world’s most famous military operations...In the larger sense, this book is about...how to be human while in the very same moment dealing with death, destruction, combat” (Doug Stanton, *New York Times* bestselling author). O’Neill describes the nonstop action of his deployments in Iraq and Afghanistan, evokes the black humor of years-long combat, brings to vivid life the lethal efficiency of the military’s most selective units, and reveals details of the most celebrated terrorist takedown in history. This is “a riveting, unvarnished, and wholly unforgettable portrait of America’s most storied commandos at war” (Joby Warrick).

Spooked Nicholas Schou,2016-06-28 The American people depend on a free press to keep a close and impartial watch on the national security operations that are carried out in our name. But in many cases, this trust is sadly misplaced, as leading journalists are seduced and manipulated by the secretive agencies they cover. While the press remains silent about its corrupting relationship with the intelligence community—a relationship that dates back to the Cold War—*Spooking the News* will blow the lid off this unseemly arrangement. Schou will name names and shine a spotlight on flagrant examples of collusion, when respected reporters have crossed the line and sold out to powerful agencies. The book will also document how the CIA has embedded itself in “liberal” Hollywood to ensure that its fictional spies get the hero treatment on screen. Among the revelations in *Spooking the News*: • The CIA created a special public affairs unit to influence the production of Hollywood films and TV shows, allowing celebrities involved in pro-CIA projects—including Harrison Ford and Ben Affleck—unique access inside the agency's headquarters. • The CIA vets articles on controversial topics like the drone assassination program and grants friendly reporters background briefings on classified material, while simultaneously prosecuting ex-officers who spill the beans on damaging information.

The Black Banners Ali H. Soufan,2012 A book that will change the way we think about al-Qaeda, intelligence, and the events that forever changed America.

The Philosophy of War Films David LaRocca,2015-01-06 Wars have played a momentous role in shaping the course of human history. The ever-present specter of conflict has made it an enduring topic of interest in popular culture, and many movies, from Hollywood blockbusters to independent films, have sought to show the complexities and horrors of war on-screen. In *The Philosophy of War Films*, David LaRocca compiles a series of essays by prominent scholars that examine the impact of representing war in film and the influence that cinematic images of battle have on human consciousness, belief, and action. The contributors explore a variety of topics, including the aesthetics of war as portrayed on-screen, the effect war has on personal identity, and the ethical problems presented by war. Drawing upon analyses of iconic and critically acclaimed war films such as *Saving Private Ryan* (1998), *The Thin Red Line* (1998), *Rescue Dawn* (2006), *Restrepo* (2010), and *Zero Dark Thirty* (2012), this volume's examination of the genre creates new ways of thinking about the philosophy of war. A fascinating look at the manner in which combat and its aftermath are depicted cinematically, *The Philosophy of War Films* is a timely and engaging read for any philosopher, filmmaker, reader, or viewer who desires a deeper understanding of war and its representation in popular culture.

Spaces of Surveillance Susan Flynn,Antonia Mackay,2017-08-22 In a world of ubiquitous surveillance, watching and being watched are the salient features of the lives depicted in many of our cultural productions. This collection examines surveillance as it is portrayed in art, literature, film and popular culture, and makes the connection between our sense of ‘self’ and what is ‘seen’. In our post-panoptical world which purports to proffer freedom of movement, technology notes our movements and habits at every turn. Surveillance seeps out from businesses and power structures to blur the lines of security and confidentiality. This unsettling loss of privacy plays out in contemporary narratives, where the ‘selves’ we create are troubled by surveillance. This collection will appeal to scholars of media and cultural studies, contemporary literature, film and art and American studies.
