**R. M. Burgess**

ZON Maureen A. Miller,2020-06-22 From USA TODAY bestselling author, Maureen A. Miller, comes this young adult cosmic adventure. With a father from the planet, Ziratak, and a mother from Earth, Zon's challenges are galactic. Zon doesn't possess superpowers, though. If anything, he's a bit of a klutz. In Ziratakian folklore, the tale of the Temple of the Monarch has been passed down for generations. As legend has it, a series of miniature globes lead to the temple's gate.Folklore...nothing more.Except, Zon knows of a cave with small globes in it. And with one clumsy mishap, he triggers the gate-opening a portal to other worlds.A trip through this vortex transports him to Earth, where the first human he encounters is a young woman with challenges of her own. This is a brand new saga, and a new generation. There is no need to read the BEYOND series. However, for readers of the series, you will enjoy this continuation of the epic science fiction adventure.

**Divided We Fall** Calvin Goddard Zon,2014 The Southern war for independence was ultimately lost on the battlefield, but the collapse of the home front was equally decisive. Northern opposition to the war, from the peacenik Copperheads to the New York draft riot, is a familiar story. Much less is known about the widespread Southern opposition to the Confederacy which, this book argues in a state-by-state account, led to its downfall. Dissent took many forms: the initial rejection of secession by four Southern states, secret peace organizations, Unionist guerilla bands, urban spy networks, resistance to the draft, a rising tide of desertions, food riots, and the states' rights dogma that undermined strategic military cooperation with the government in Richmond. Anti-Confederate activity was scattered across a surprising number of towns, cities, and counties in the 11 states of the Confederacy. Opposition to secession was especially strong in the mountainous, mostly non-slaveholding sections of North Carolina, South Carolina, Tennessee, Georgia, Alabama, and Mississippi. Some 100,000 white Southerners enlisted in the Union army, and a state-by-state breakdown is included. Policies enacted by the Confederate Congress which favored wealthy slaveholders aggravated class disparities, and contributed to a growing disenchantment and active obstruction of the Southern cause. Each of the 11 states is examined, in order of their secession, and accounts are given of activities and organizations of Southern Unionists and their leaders, who ranged from high-society spies and a turncoat Confederate general to dirt-farmer guerrillas, propagandists, and politicians.

23 Days of Intensive Care Zon G. Quewea,2010-05 After five years of continuous prayers for a child, God answered. Zon and Daniella Quewea of Johnson City, Tennessee were about to become parents. But their joy was tempered as Daniella experienced complications such as high blood pressure and preeclampsia. A day after delivering her son John by Caesarean section, Daniella collapsed suddenly from blood clots in her lungs. In this memoir, author Zon Quewea chronicles his wife's brush with death and her struggle to survive during the twenty-three days she spent in the hospital's intensive care unit. Quewea explores the doubts, fears, and perplexities he and his family experienced and illustrates how he found comfort and guidance in the Bible. He tells of this journey where faith and prayer were robustly tested while only a miracle of God could possibly bring relief. Honest and disclosing, 23 Days of Intensive Care: A Story of Miracles is a personal testament to the awesome power of prayer and the miracles of God.

**Globalized Finance and Varieties of Capitalism** H. van Zon,Hans van Zon,2016-05-01 Hans van Zon analyzes the financialization of developed capitalism, and argues that the emergence of finance as a dominant force has contributed to the relative decline of the West. He demonstrates that the neo-liberal model is inherently unstable and undermines capitalist economies, which can only function if they are embedded in institutions that are non- or even pre-capitalist. He shows how a toxic combination of financialization, corporate globalization, and a deregulated and parasitic financial industry have led to structural economic stagnation in both the USA and the greater part of the EU.

**Emergency Care for Birds** Rob van Zon,2023-12-06 Most general veterinarians don't have time to read 'big' books about exotic medicine, but they do need to know how to treat birds in case of emergency: this concise guide offers all the practical information they need. The book can be read by veterinarians from cover-to-cover but it can also be dipped into for a quick reference re a specific problem during an emergency consultation, or when owners call about what to do in case of certain emergencies. The only book to focus solely on critical care in birds. Over 100 full colour illustrations Provides guidance to vets for giving advice to bird owners who need to do basic first aid at home, advising when and why to visit a veterinarian as soon as possible.

The Political Economy of Independent Ukraine H. van Zon,2000-11-30 The Political Economy of Independent Ukraine analyses the reasons for the abysmal economic performance of Ukraine during the 1990s. The main thesis is that economic development was blocked by a set of parasitic mechanisms at all levels of the economy that prevented the development of value-added economic activities. These parasitic mechanisms already developed under Soviet rule ('beating the system' by redistributing goods and services while disregarding formal rules) became a widespread practice.

**Evolution and Victorian Musical Culture** Bennett Zon,2017-10-12 This engaging book explores the dynamic relationship between evolutionary science and musical culture in Victorian Britain, drawing upon a wealth of popular scientific and musical literature to contextualize evolutionary theories of the Darwinian and non-Darwinian revolutions. Bennett Zon uses musical culture to question the hegemonic role ascribed to Darwin by later thinkers, and interrogates the conceptual premise of modern debates in evolutionary musicology. Structured around the Great Chain of Being, chapters are organized by discipline in successively ascending order according to their object of study, from zoology and the study of animal music to theology and the music of God. Evolution and Victorian Musical Culture takes a non-Darwinian approach to the interpretation of Victorian scientific and musical interrelationships, debunking the idea that the arts had little influence on contemporary scientific ideas and, by probing the origins of musical interdisciplinarity, the volume shows how music helped ideas about evolution to evolve.
