**Risk Taker, Spy Maker** Barry Michael Broman, 2020-07-20 "Broman's true tales of putting his life on the line recruiting and running spies in a dozen countries are the stuff of action movies." —Peter Arnett, Pulitzer Prize-winning author of *Live from the Battlefield* Joining the CIA after fighting in Vietnam as a Marine, Barry Broman's first posting was war-torn Cambodia. He was present at the fall of Phnom Penh in 1975, escaping just before the Khmer Rouge took power. During his career, he was twice chief of station, once a deputy chief of station, and he supervised an international paramilitary project in support of the Cambodian resistance to Vietnamese invaders. He was actively involved in several assignments in counter-narcotics operations in Southeast Asia including a major bust that yielded 551 kilograms of high-grade heroin from a major drug trafficker. His favorite agent against a variety of hard targets was a fellow whose only demand was that his assignments be "life threatening." (He survived them all.) As amazing as the characters Broman has met are the places he's been, with visits to little-known and rarely seen places like the Naga Hills on the India-Burma border, the world-famous but off-limits jade and ruby mines of Burma, and the isolated Banda Islands of Indonesia, the home of nutmeg. Broman's engaging tone is complemented by photographs taken throughout his career, many of them his own, made using the skills he learned as a teenager working for the Associated Press in Southeast Asia—including Marines in action in Vietnam, the ravages of war in Cambodia, and opium buyers forcing growers to sell in Burma. "[A] remarkable life story."

**Zoo Renewal** Lisa Uddin, 2015-04-01 Why do we feel bad at the zoo? In a fascinating counterhistory of American zoos in the 1960s and 1970s, Lisa Uddin revisits the familiar narrative of zoo reform, from naked cages to more naturalistic enclosures. She argues that reform belongs to the story of cities and feelings toward many of their human inhabitants. In *Zoo Renewal*, Uddin demonstrates how efforts to make the zoo more natural and a haven for particular species reflected white fears about the American city—and, pointedly, how the shame many visitors felt in observing confined animals drew on broader anxieties about race and urban life. Examining the campaign against cages, renovations at the National Zoo in Washington, D.C. and the San Diego Zoo, and the cases of a rare female white Bengal tiger and a collection of southern white rhinoceroses, Uddin unpacks episodes that challenge assumptions that zoos are about other worlds and other creatures and expand the history of U.S. urbanism. Uddin shows how the drive to protect endangered species and to ensure larger, safer zoos was shaped by struggles over urban decay, suburban growth, and the dilemmas of postwar American whiteness. In so doing, *Zoo Renewal* ultimately reveals how feeling bad, or good, at the zoo is connected to our feelings about American cities and their residents.

**Zombie Makers** Rebecca L. Johnson, 2017-01-01 Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! Are zombies real? As far as we know, dead people do not come back to life and start walking around, looking for trouble. But there are things that can take over the bodies and brains of innocent creatures, turning them into senseless slaves. Meet nature's zombie makers—including a fly-enslaving fungus, a suicide worm, and a cockroach-taming wasp—and their victims.

**Zoo** Bernard Livingston, 2000-11-07 In this book, *ZOO*, the author, Bernard Livingston will present a study of this world which treats it as social history. But the style will be a light-handed one similar to that of his previous social study, *Their Turf*, the story of the world of the racehorse and the people involved therein. It is to be hoped that the fun, drama, humor and yes, enlightenment inherent in the world of the zoo will not be lacking in this work.

**How Did They Build That? Zoo** Tamra B. Orr, 2011-08-01 Learn how zoos are built and what sorts of things zoo builders need to think of before construction begins.

**The Social Value of Zoos** John Fraser, Tawnya Switzer, 2021-04-15 Combining anecdotes with scientific data, this book is a journalistic inquiry into what is currently known about zoos and aquariums as sociocultural intersections of mission, public perception, and on-site meaning making. The authors draw on conservation psychology and other social science research to explore how zoos might develop and deliver more effective learning experiences to promote and nurture conservation values and collective action. While people use zoos with specific priorities and motivations in mind, these are social settings. Indeed, it is because they represent an important, vast, and trusted social enterprise that zoos have such powerful opportunities to change how diverse public audiences view, value, identify, and engage with animals and the broader biophysical environment.

**Zoopoetics** Aaron M. Moe, 2013-12-19 Zoopoetics assumes Aristotle was right. The general origin of poetry resides, in part, in the instinct to imitate. But it is an innovative imitation. An exploration of the oeuvres of Walt Whitman, E. E. Cummings, W. S. Merwin, and Brenda Hillman reveals the many places where an imitation of another species' poiesis (Greek, makings) contributes to breakthroughs in poetic form. However, humans are not the only imitators in the animal kingdom. Other species, too, achieve breakthroughs in their makings through an attentiveness to the ways-of-being of other animals. For this reason, mimic octopi, elephants, beluga whales, and many other species join the exploration of what zoopoetics encompasses. Zoopoetics provides further traction for people interested in the possibilities when and where species meet. Gestures are paramount to zoopoetics. Through the interplay of gestures, the human/animal/textual spheres merge making it possible to recognize how actual, biological animals impact the material makings of poetry. Moreover, as many species are makers, zoopoetics expands the poetic tradition to include nonhuman poiesis.
