*An Introduction to Clinical Emergency Medicine* Swaminatha V. Mahadevan,Gus M. Garmel,2005-05-26 An Introduction to Clinical Emergency Medicine focuses on the skills necessary to provide emergency care.

**Precarious Power** Susan Booysen,2021-02-01 An incisive analysis of South Africa's ANC power-as party, as government, as state South Africa's African National Congress (ANC) is in decline, its hegemony has been weakened, its legitimacy diluted. President Cyril Ramaphosa's appointment suspended the ANC's electoral decline, it also heightened internal tensions between those who would deepen its acquired status as corrupt and captured, and those who would remodel it as redeemable. These are the incontrovertible knowns of South African politics; what will evolve from this is less certain. In *Precarious Power*, renowned political scientist Susan Booysen uses in-depth research and analysis to distill that which is bound to shape South Africa's political future, Booysen focuses on contradictory party politics and internal ANC dissent that is veiled for the sake of retaining an electoral following. Also exposed is the incongruous, populist policymaking, protest politics and the use of soft law to ensure it does not alienate angry citizens, fueling further discontent and protest. The ANC's power has become exceedingly precarious. *Precarious Power* is the name of the political game, for the foreseeable future. The comprehensive analysis in *Precarious Power* will appeal not only to political scientists and postgraduate students, but to all who take a keen interest in current affairs.

*Mandela* Martin Meredith,2010-03-30 Nelson Mandela stands out as one of the most admired political figures of the twentieth century. It was his leadership and moral courage above all that helped to deliver a peaceful end to apartheid in South Africa after years of racial division and violence and to establish a fledgling democracy there. Martin Meredith's vivid portrayal of this towering leader was originally acclaimed as an exemplary work of biography: instructive, illuminating, as well as felicitously written (Kirkus Reviews), providing new insights on the man and his time (Washington Post). Now Meredith has revisited and significantly updated his biography to incorporate a decade of additional perspective and hindsight on the man and his legacy and to examine how far his hopes for the new South Africa have been realized. Published as South Africa celebrates 100 years since its founding and hosts the 2010 World Cup, Nelson Mandela is the most thorough and up-to-date account available of the life of its most revered hero.

**In The Shadow of Mandela** Alexander Johnston,2019-12-12 This outstanding and original work goes to the heart of South Africa's political problems - doubts as to the sustainability of the post-apartheid settlement, beset with divisions in the ruling ANC, factionalism, corruption and the widening of fault-lines in state and society. The 'leadership issue' has become key and this will be the first specific examination of leadership in the light of Mandela's legacy and its effect on his successor as potential and actual leaders - all in 'the shadow of Mandela' as the architect of the transition from apartheid to democracy, and with overarching moral authority and international reputation. Alexander Johnston shows how his successors are judged against Mandela's achievements, including the potentially impressive 'lost' leaders and concentrating on his immediate successors, Thabo Mbeki and Jacob Zuma. The book concludes with an in-depth assessment of new president Cyril Ramaphosa's potential to be a leader for a 'new dawn'. This is an objective and critical work by a close observer who acknowledges the achievement of South African leadership but is acutely aware of the doubts as to the sustainability of South Africa's hard won democratic settlement. An essential read for all readers interested in leadership and in the traumatic history and future of Africa's leading state, as the continent rises to global importance.

**The Zuma Years** Richard Calland,2013-08-16 The face of power in South Africa is rapidly changing - for better and for worse. The years since Thabo Mbeki was swept aside by Jacob Zuma's 'coalition of the wounded' have been especially tumultuous, with the rise and fall of populist politicians such as Julius Malema, the terrible events at Marikana, and the embarrassing Guptagate scandal. What lies behind these developments? How does the Zuma presidency exercise its power? Who makes our foreign policy? What goes on in cabinet meetings? What is the state of play in the Alliance - is the SACP really more powerful than before? And, as the landscape shifts, what are the opposition's prospects? In *The Zuma Years*, Richard Calland attempts to answer these questions, and more, by holding up a mirror to the new establishment; by exploring how people such as Malema, Chief Justice Mogoeng Mogoeng and DA parliamentary leader Lindiwe Mazibuko have risen so fast; by examining key drivers of transformation in South Africa, such as the professions and the universities; and by training a spotlight on the toxic mix of money and politics. *The Zuma Years* is a fly-on-the-wall, insider's approach to the people who control the power that affects us all. It takes you along the corridors of government and corporate power, mixing solid research with vivid anecdote and interviews with key players. The result is an accessible yet authoritative account of who runs South Africa, and how, today.

*Crunch!* Dirk Burhans,2008-11-05 The potato chip has been one of America's favorite snacks since its accidental origin in a nineteenth-century kitchen. *Crunch! A History of the Great American Potato Chip* tells the story of this crispy, salty treat, from the early sales of locally made chips at corner groceries, county fairs, and cafes to the mass marketing and corporate consolidation of the modern snack food industry. *Crunch!* also uncovers a dark side of potato chip history, including a federal investigation of the snack food industry in the 1990s following widespread allegations of antitrust activity, illegal buyouts, and predatory pricing. In the wake of these Great Potato Chip Wars, corporate snack divisions closed and dozens of family-owned companies went bankrupt. Yet, despite consolidation, many small chippers persist into the twenty-first century, as mom-and-pop companies and upstart boutique businesses serve both new consumers and markets with strong regional loyalties. Illustrated with images of early snack food paraphernalia and clever packaging from the glory days of American advertising art, *Crunch!* is an informative tour of large and small business in America and the vicissitudes of popular tastes.

**The Heroes of February 22nd, Volume 1** D. B. Gibb,2024-08-27 Fourteen-year-old Zach Davidson’s burden of being abandoned by his father and raised by a single mother, juggling three jobs, weighed constantly on his mind. Growing up as a late bloomer, black, and bisexual in a predominantly white, rural Utah town only amplified his struggles—until he got abducted by aliens. Then things got crazy. Zach and his friends, Wilkie and Liza, vanish after witnessing UFOs at Blue Lake during a night of fishing and swimming. The trio wakes up in an arid wilderness over two hundred miles away, devoid of any memory of their abduction or how they got there—except for one revelation: they now possess supernatural abilities. As they return to civilization, they find themselves forced into a clandestine world of competing extraterrestrial empires vying for control over Earth through human proxies, all eager to employ Zach, Wilkie, and Liza’s newfound powers. Their journey of discovery unfolds amid navigating through militant human-alien factions and shadow government organizations—with the goal of deciding which of these groups (if any) they should join to stop the impending conquest of Earth. D.B. Gibb’s science fiction novel, *The Heroes of February 22nd, Volume I* (or HOF22), is set in modern times and captures the spirit of “The Lives of Tao” and “The X-Files.” Written from a historian’s perspective in 2114, it follows key players involved with the historically significant Blue Lake Event (a precursor to the Proxy Wars) on February 22, 2017. Fans of alternative history and science fiction about reluctant heroes thrust into a secretive world of alien abduction and conspiracies will enjoy reading *The Heroes of February 22nd, Volume I*.

**Joan Wulff's Fly Fishing** Joan Wulff,2024-02-06 Landmark book by expert caster, teacher, and role model Now in paperback with new preface The celebrated Joan Wulff was one of the first and few women to earn a reputation as a noteworthy fly fisher. She first published this immensely helpful book for women who are learning the sport or those wanting to improve, and, because of its solid approach, it has found an audience with all who enjoy angling with a fly. “To get the most out of this sport,” says Joan, “you must be independent: capable of choosing your tackle, tying on leader tippets and flies, reading water, wading safely, and playing fish with skill.” The book teaches all these things and the myriad techniques that have worked for Joan in her lifetime of practicing and perfecting the sport.

*The Ultimate Canoe Challenge* Brand Frentz,Verlen Kruger,2004-12 Verlen Kruger and his partner Steve Landick wanted to take a canoe trip that would surpass all others, and they did. Paddling their canoes or carrying them on the connecting land passages, they toured North America, from the Arctic Ocean to Baja California, from New Orleans to the coast of Maine, crossing the USA from south to north and west to east. They mastered wild storms on the ocean, often paddled 75-100 miles or more in a day, shot through deadly rapids going downstream, and paddled up several major rivers, reaching the climax by going up the Grand Canyon. Again and again they were warned, It can't be done or You'll never make it, but each time they rose to the challenge and kept going, finally competing a canoe trip of 28,000 miles that lasted three and a half years and was appropriately named *The Ultimate Canoe Challenge*. This is the story as Verlen lived it.

**Horizontal Vertigo** Juan Villoro,2021-03-23 At once intimate and wide-ranging, and as enthralling, surprising, and vivid as the place itself, this is a uniquely eye-opening tour of one of the great metropolises of the world, and its largest Spanish-speaking city. *Horizontal Vertigo*: The title refers to the fear of ever-impending earthquakes that led Mexicans to build their capital city outward rather than upward. With the perspicacity of a keenly observant flaneur, Juan Villoro wanders through Mexico City seemingly without a plan, describing people, places, and things while brilliantly drawing connections among them. In so doing he reveals, in all its multitudinous glory, the vicissitudes and triumphs of the city’s cultural, political, and social history: from indigenous antiquity to the Aztec period, from the Spanish conquest to Mexico City today—one of the world’s leading cultural and financial centers. In this deeply iconoclastic book, Villoro organizes his text around a recurring series of topics: “Living in the City,” “City Characters,” “Shocks,” “Crossings,” and “Ceremonies.” What he achieves, miraculously, is a stunning, intriguingly coherent meditation on Mexico City’s genius loci, its spirit of place.
