Professional ASP.NET MVC 1.0 Rob Conery,Scott Hanselman,Phil Haack,Scott Guthrie,2009-07-01 This book begins with you working along as Scott Guthrie builds a complete ASP.NET MVC reference application. He begins NerdDinner by using the File->New Project menu command within Visual Studio to create a new ASP.NET MVC Application. You'll then incrementally add functionality and features. Along the way you'll cover how to create a database, build a model layer with business rule validations, implement listing/details data browsing, provide CRUD (Create, Update, Delete) data form entry support, implement efficient data paging, reuse UI using master pages and partials, secure the application using authentication and authorization, use AJAX to deliver dynamic updates and interactive map support, and implement automated unit testing. From there, the bulk of the rest of the book begins with the basic concepts around the model view controller pattern, including the little history and the state of the MVC on the web today. We'll then go into the ways that MVC is different from ASP.NET Web Forms. We'll explore the structure of a standard MVC application and see what you get out of the box. Next we dig deep into routing and see the role URLs play in your application. We'll deep dive into controllers and views and see what role the Ajax plays in your applications. The last third of the book focuses entirely on advanced techniques and extending the framework. In some places, we assume that you're somewhat familiar with ASP.NET WebForms, at least peripherally. There are a lot of ASP.NET WebForms developers out there who are interested in ASP.NET MVC so there are a number of places in this book where we contrast the two technologies. Even if you're not already an ASP.NET developer, you might still find these sections interesting for context, as well as for your own edification as ASP.NET MVC may not be the web technology that you're looking for.

Four Blood Moons John Hagee,2013-10-08 ...There will be signs in the sun, in the moon, and in the stars...Now when these things begin to happen, look up and lift up your heads, because your redemption draws near. Luke 21:25a, 28 It is rare that Scripture, science, and history align with each other, yet the last three series of Four Blood Moons have done exactly that. Are these the signs that God refers to in His Word? If they are, what do they mean? What is their prophetic significance?

The Smithsonian's History of America in 101 Objects Richard Kurin,2016-10-25 The Smithsonian Institution is America's largest, most important, and most beloved repository for the objects that define our common heritage. Now Under Secretary for Art, History, and Culture Richard Kurin, aided by a team of top Smithsonian curators and scholars, has assembled a literary exhibition of 101 objects from across the Smithsonian's museums that together offer a marvelous new perspective on the history of the United States. Ranging from the earliest years of the pre-Columbian continent to the digital age, and from the American Revolution to Vietnam, each entry pairs the fascinating history surrounding each object with the story of its creation or discovery and the place it has come to occupy in our national memory. Kurin sheds remarkable new light on objects we think we know well, from Lincoln's hat to Dorothy's ruby slippers and Julia Child's kitchen, including the often astonishing tales of how each made its way into the collections of the Smithsonian. Other objects will be eye-opening new discoveries for many, but no less evocative of the most poignant and important moments of the American experience. Some objects, such as Harriet Tubman's hymnal, Sitting Bull's ledger, Cesar Chavez's union jacket, and the Enola Gay bomber, tell difficult stories from the nation's history, and inspire controversies when exhibited at the Smithsonian. Others, from George Washington's sword to the space shuttle Discovery, celebrate the richness and vitality of the American spirit. In Kurin's hands, each object comes to vivid life, providing a tactile connection to American history. Beautifully designed and illustrated with color photographs throughout, The Smithsonian's History of America in 101 Objects is a rich and fascinating journey through America's collective memory, and a beautiful object in its own right.

Music In Video Games K.J. Donnelly,William Gibbons,Neil Lerner,2014-03-26 From its earliest days as little more than a series of monophonic outbursts to its current-day scores that can rival major symphonic film scores, video game music has gone through its own particular set of stylistic and functional metamorphoses while both borrowing and recontextualizing the earlier models from which it borrows. With topics ranging from early classics like Donkey Kong and Super Mario Bros. to more recent hits like Plants vs. Zombies, the eleven essays in Music in Video Games draw on the scholarly fields of musicology and music theory, film theory, and game studies, to investigate the history, function, style, and conventions of video game music.

Strategic Alliances, Mergers and Acquisitions J. M. Ulijn,Geert Duysters,Elise Meijer,2010-01-01 Organizational flirts and marriages alliances, mergers and acquisitions are dramatic examples of how soft cultures can produce hard facts of success or failure. Decisions born from human vanity can lead to destruction of human capital. The chapters selected by Ulijn, Duysters and Meijer illustrate the many facets of organizational family life for the scholar and, hopefully, for the decision-maker who considers another move. Geert Hofstede, author of Culture s Consequences This unique book focuses on the link between different types of culture (national, corporate, professional) and the success of strategic alliances, mergers and acquisitions. Over the past decades we have seen a significant increase in the number of strategic alliances, mergers and acquisitions. Despite this proliferation many recent studies have reported high failure rates. This failure is often attributed to cultural differences between partners, which has led to a growing body of literature on the subject. To date, most of these studies have focused on national and corporate culture, whereas this book also places particular emphasis on the importance of culture at the professional level. The authors clearly show that all three levels of culture may have a profound impact upon the ultimate success or failure of alliances, mergers and acquisitions. Researchers in the field of international business, strategic management, and strategic alliances, mergers and acquisitions will find this book to be of invaluable interest. Managers in multinational corporations and international business students should also not be without this important resource.

Lady Cadogan's Illustrated Games of Solitaire Lady Cadogan,2008-11 Lady Adelaide Cadogan, nee Paget (1820-1890) was the British author of Illustrated Games of Patience (also known as Illustrated Games of Solitaire or Patience (1875)). Her book was the first collection of solitaire card games in the English language and has been reprinted several times. Before this, there was no literature about solitaire, not even in such books as Charles Cottonas The Compleat Gamester (1674), Abbe Bellecouras Academie des Jeux (1674), and Bohnas Handbook of Games (1850), all of which are used as reference on card games. Lady Cadoganas book spawned other collections such as Patience by E. D. Cheney, Amusements for Invalids by Annie B. Henshaw (1870), and later Dickas Games of Patience. Other books about solitaire written towards the end of the 19th century were by H. E. Jones (a.

k.a. Cavendish), Angelo Lewis (a. k.a. Professor Hoffman), Basil Dalton, and Ernest Bergholt.
