Namaste Is a Greeting Suma

Subramaniam,2022-10-11 Discover namaste's many meanings in a simple, lyrical text, paired with a charmingly detailed visual narrative about a little girl's kindness. Namaste calms your heart when things aren't going right. Namaste is saying "You matter." What is namaste? It's found in a smile, a friendship, a celebration. It exists in silence; it can be said when you're happy or when you're feeling low. For one small girl in a bustling city, namaste ("I bow to you") is all around her as she and her mother navigate a busy marketplace—and when she returns with a little plant and chooses to give it to an elderly neighbor, it can be seen in the caring bond between them. In a sweet, universal text, debut author Suma Subramaniam shines a light on a word with significance far beyond yoga class, while artist Sandhya Prabhat makes the concept of mindfulness come alive in delightful illustrations likely to draw children in again and again.

Greeting in Islam - ,

The role of religion in shaping politeness during greeting encounters in Arabic. A matter of conflict or understanding Abdelaziz

Bouchara,Bouchra Qorchi,2016-07-07 Politeness is

one of the very important issues in the field of sociolinguistics and pragmatics, as it can be seen in almost every type of our interactions. Since the evolving of the politeness theory (Brown and Levinson 1978), cross-cultural pragmatics has gained the attention of many researchers in this field. However, the Arab society has been far less investigated. Therefore, this book widens the scope of cross-cultural pragmatics by investigating politeness in (Moroccan) Arabic and contrasting the behavior of Arab and German speakers with regard to one type of politeness, namely the speech act of greeting. Furthermore, the implications of this study for foreign language teaching and cross-cultural training indicate that politeness and face concerns in different cultures should be part of any learning process. Hopefully, besides being informative, especially to scholars from other fields of intercultural communication research, this study should contribute to raise the awareness of sociolinguists in particular with respect to the role of religion in shaping politeness in Arabic and to serious confusion and misunderstandings that may come into being, when communicators from different cultural backgrounds cannot identify the pragmatic (implicit or indirect) meaning of their interlocutor's utterance.
