The Library's Legal Answer Book Mary Minow,Tomas A. Lipinski,2003-01-23
With coverage of all the issues of the day—filters, fair use, copyright, Web publishing and Internet use, software sharing, ADA compliance, free speech, privacy, access, and employment and liability issues—you will have a librarian's J.D. in short order!

The New Legal Realism: Volume 1 Elizabeth Mertz,Stewart Macaulay,Thomas W. Mitchell,2016-05-03 This is the first of two volumes announcing the emergence of the new legal realism as a field of study. At a time when the legal academy is turning to social science for new approaches, these volumes chart a new course for interdisciplinary research by synthesizing law on the ground, empirical research, and theory. Volume 1 lays the groundwork for this novel and comprehensive approach with an innovative mix of theoretical, historical, pedagogical, and empirical perspectives. Their empirical work covers such wide-ranging topics as the financial crisis, intellectual property battles, the legal disenfranchisement of African-American landowners, and gender and racial prejudice on law school faculties. The methodological blueprint offered here will be essential for anyone interested in the future of law-and-society.

Collected Legal Papers Oliver Wendell Holmes (Jr.),1920 Collected speeches and journal articles by Oliver Wendell Holmes.

Expert Legal Writing Terri LeClercq,1995-11 For ten years, Terri LeClercq's

Legal Writing column in the Texas Bar Journal has helped polish the prose of lawyers and law students, judges and clerks, paralegals, writing instructors, and legal secretaries. This book collects all the advice she has given in her columns into one authoritative guide for expert legal writing. LeClerc covers everything a legal writer needs to know, from the mechanics of grammar and punctuation to the finer points of style, organization, and clarity of meaning. With her practical, readable, and often humorous advice, those who prepare legal documents can rid their prose of mind-numbing legalese and write with the clarity and precision that characterize the very best legal writing.

Casenote Legal Briefs for Business Organizations, Keyed to Hamilton, Macey and Moll Casenote Legal Briefs, 2016-01-31 After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. The series is trusted for its expert summary of the principal cases in your casebook. Its proven reliability makes Casenote Legal Briefs the most popular case brief series available. With more than 100 titles keyed to the current editions of major casebooks, you know you can find the help you need. The brief for each case saves you time and helps you retain important issues. Each brief has a succinct statement of the rule of law/black letter law, description of the facts, and important points of the holding and decision. Quicknotes are short definitions of the legal terms used at the end of each brief. Use the Glossary in the end of your text to define common Latin legal

terms. Such an overview, combined with case analysis, helps broaden your understanding and supports you in classroom discussion. Each title is keyed to the current edition of a specific casebook; it's your trusted guide to the text throughout the semester. The brief for each principal case in the casebook saves you time and helps you retain important issues. Each brief has a succinct statement of the rule of law/black letter law, description of the facts, important points of the holding and decision, and concurrences and dissents included in the casebook excerpt. This overview is combined with a short analysis: all to help you broaden your understanding and support you in classroom discussion. Quicknotes at end of each brief give you short definitions of the legal terms used. A handy Glossary of common Latin words and phrases is included in every Casenote. Detailed instruction on how to brief a case is provided for you. A free Quick Course Outline accompanies all Casenote Legal Briefs in these course areas: Civil Procedure, Constitutional Law, Contracts, Criminal Law, Criminal Procedure, Evidence, Property, and Torts.

Casenote Legal Briefs for Criminal Law, Keyed to Dressler and Garvey
Casenote Legal Briefs, 2022-11-01 After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. Expert case studies and analyses and quicknote definitions of legal terms help you prepare for class discussion. Here is why you need Casenote Legal Briefs to help you understand cases in your most difficult courses: Each Casenote

includes expert case summaries, which include the black letter law, facts, majority opinion, concurrences, and dissents, as well as analysis of the case. There is a Casenote for you! With dozens of Casenote Legal Briefs, you can find the Casenote to work with your assigned casebook and give you the extra understanding of all cases Casenotes in 1L subjects include a Quick Course Outline to help you understand the relationships between course topics.

Legal Education and the Reproduction of Hierarchy Duncan Kennedy, 2004-07-01
In 1983 Harvard law professor Duncan Kennedy self-published a biting critique of the law school system called *Legal Education and the Reproduction of Hierarchy*. This controversial booklet was reviewed in several major law journals—unprecedented for a self-published work—and influenced a generation of law students and teachers. In this well-known critique, Duncan Kennedy argues that legal education reinforces class, race, and gender inequality in our society. However, Kennedy proposes a radical egalitarian alternative vision of what legal education should become, and a strategy, starting from the anarchist idea of workplace organizing, for struggle in that direction. *Legal Education and the Reproduction of Hierarchy* is comprehensive, covering everything about law school from the first day to moot court to job placement to life after law school. Kennedy's book remains one of the most cited works on American legal education. The visually striking original text is reprinted here, making it available to a new generation. The text is buttressed by

commentaries by five prominent legal scholars who consider its meaning for today, as well as by an introduction and afterword by the author that describes the context in which Kennedy wrote the book, including a brief history of critical legal studies.

Casenote Legal Briefs for Civil Procedure, Keyed to Friedenthal, Miller, Sexton, and Hershkoff Casenote Legal Briefs, 2019-01-21 After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. Expert case studies and analyses and quicknote definitions of legal terms help you prepare for class discussion. Here is why you need Casenote Legal Briefs to help you understand cases in your most difficult courses: Each Casenote includes expert case summaries, which include the black letter law, facts, majority opinion, concurrences, and dissents, as well as analysis of the case. With dozens of Casenote Legal Briefs, you can find the Casenote to work with your assigned casebook and give you the extra understanding of all cases Casenotes in 1L subjects include a Quick Course Outline to help you understand the relationships between course topics.

A Legal History of Mississippi Joseph A. Ranney, 2019-04-23 In *A Legal History of Mississippi: Race, Class, and the Struggle for Opportunity*, legal scholar Joseph A. Ranney surveys the evolution of Mississippi's legal system and analyzes the ways in which that system has changed during the state's first two hundred years. Through close research, qualitative analysis,

published court decisions, statutes, and law review articles, along with unusual secondary sources including nineteenth-century political and legal journals and journals of state constitutional conventions, Ranney indicates how Mississippi law has both shaped and reflected the state's character and, to a certain extent, how Mississippi's legal evolution compares with that of other states. Ranney examines the interaction of Mississippi law and society during key periods of change including the colonial and territorial eras and the early years of statehood when the legal foundations were laid; the evolution of slavery and slave law in Mississippi; the state's antebellum role as a leader of Jacksonian legal reform; the unfolding of the response to emancipation and wartime devastation during Reconstruction and the early Jim Crow era; Mississippi's legal evolution during the Progressive Era and its legal response to the crisis of the Great Depression; and the legal response to the civil rights revolution of the mid-twentieth century and the cultural revolutions of the late twentieth century. Histories of the law in other states are starting to appear, but there is none for Mississippi. Ranney fills that gap to help us better understand the state as it enters its third century.

Legal Research Stephen Elias, Editors of Nolo, 2018-08-30 Legal Research: Take the law into your own hands Do you have legal questions at home, at work, or as part of law-related course work? Legal Research provides everything you need, laying out easy-to-follow research methods that will

help you find the right answers. Find out how to: locate and understand statutes, regulations, and cases make sure your research is 100% up to date, and organize your research results into a memorandum of law for use at school, at work, or in court. Completely updated for the 18th edition, Legal Research shows you how to find statutes, cases, background information, and answers to specific legal questions online. Even more important, you'll be guided to the most reliable and user-friendly sites, so you won't drown in an information flood. Lots of examples and easy-to-understand instructions teach you how to master all the basic legal research tools, including: online search engines reliable free legal websites legal encyclopedias, periodicals, and treatises annotated legal codes and statutes published reports of state and federal court cases case digests and Shepard's Citations, and the best legal blogs.

Legal Methods Jane C. Ginsburg, 2008 This casebook serves a course in introduction to legal reasoning. It is designed to initiate students in the legal methods of case law analysis and statutory interpretation. In a course of this kind, students should acquire or refine the techniques of close reading, analogizing, distinguishing, positing related fact patterns, and criticizing judicial and legislative exposition and logic. Law students' introduction to law can be unsettling: the sink or swim approach favored by many schools casts students adrift in a sea of substantive rules, forms and methods. By contrast, the Legal Methods course seeks to acquaint students

with their new rhetorical and logical surroundings before, or together with, the students' first encounters with the substance of contracts, torts, or other first year courses. This approach may not only be user friendly; it should also prompt students to take a critical distance from the wielding of the methods. In this way, students may avoid (or at le

The Chicago Legal News , 1905

A Guide to Critical Legal Studies Mark Kelman, 1987 Until now there has been no summary or overview of the wide range of work contributing to critical legal studies, the movement that has aroused such a furor in the communities of law and political philosophy. This book outlines and evaluates the

principal strands of critical legal studies, and achieves much more as well. A good deal of the writing in critical legal studies has been devoted to laying bare the contradictions in liberal thought. There have been attacks and counterattacks on the liberal position and on the more conservative law and economics position. Now Mark Kelman demonstrates that any critique of law and economics is inextricably tied to a broader critique of liberalism. There are three central contradictions in liberal thought: between a commitment to mechanically applicable rules and to standards that fluctuate with situations; between intrinsic individual values and the objective knowledge of ethical truths; and between free will and determinism. Kelman shows us the pervasiveness of these contradictions in legal doctrine; their connection to broader political theory and to visions of human nature; and, finally, the degree to which mainstream thought tends to privilege certain of these commitments over others. The author also analyzes two of the most significant components of jurisprudence today the law and economics discipline and the legal process school. He concludes with a lively discussion of the role of law generally and of cognitive legitimation, or the ways in which legal thought can make the unnecessary, the contingent, and the unjust seem natural, inevitable, and fair.

The Mind and Method of the Legal Academic J. M. Smits, 2012-01-01 iJan Smits has long been one of the most interesting and original authors on European private law theory. Now he offers his views on legal scholarship, and they

are as original as they are thought-provoking. His plea for a legal scholarship that maintains its identity vis-ö-vis neighboring disciplines without collapsing into doctrinairism is bound to yield lively discussions _ and hopefully will help re-establish a proper place for legal scholarship, in Europe and beyond.Í _ Ralf Michaels, Duke University, US iThe Mind and Method of the Legal Academic is a valuable contribution to the discussion on legal methodology and legal theory, which offers an acute insight in contemporary academic discussions. Smits provides us with fresh ideas as to the (non)importance of social sciences for law, comparative law and what makes an academic discipline. He does so in a clear style and barely hundred pages text. It therefore can be highly recommended to all students of jurisprudence.Í _ Ewoud Hondius, University of Utrecht, The Netherlands iA wonderful little book which explains to newcomers and old hands alike what legal academics are doing, how they are doing it, how they ought to be doing it, what kind of research environment they would need, and how all this should affect their teaching. Smits brings comparative and interdisciplinary approaches home to the core of scholarly legal work.Í _ Gerhard Dannemann, Centre for British Studies, Berlin, Germany iThis book is a wide-ranging and bold exploration of the nature of legal scholarship. Lucid and learned, Smits draws upon a variety of sources to recommend a multi-faceted approach to the normative dimension of law. As such, it provides a theoretical base for comparative law but also for any inquiry into what law or legal principle is

appropriate for a given problem or situation. All those engaged in critically examining the law will benefit from its insights.Í _ Anthony Ogus, University of Manchester, UK and University of Rotterdam, The Netherlands iAcademic debate over law and legal scholarship has placed legal research and legal education under pressure. Jan SmitsÍ book is intellectual self-defence of legal scholarship tailored for the needs of tomorrow. The Mind and Method of the Legal Academic is fluid, creative and original. Makes wonderful reading for those who are concerned about the future of legal research and legal education in a globalized world.Í _ Jaakko Husa, University of Lapland, Finland In a context of changing times and current debate, this highly topical book discusses the aims, methods and organization of legal scholarship. Jan Smits assesses the recent turn away from doctrinal research towards a more empirical and theoretical way of legal investigation and offers a fresh perspective on what it is that legal academics should deal with and how they should do it. The book also considers the consequences which follow for the organization of the legal discipline by universities and uses this context to discuss the key questions of the internationalization of law schools, quality assessments, legal education and the research culture. Being the first book to address the aim and goals of legal scholarship in an international context, this insightful study will appeal to academics, graduate students, researchers and policymakers in higher education.

Where the Law is Joanne D. S. Armstrong, Christopher A. Knott, 2009 This

newly updated law school textbook and course reference is designed specifically for advanced legal research classes and for upper-level students who want to achieve a better understanding of how to use the sources of legal information that they learned about in their introductory courses. It provides in-depth guidance through the research process, advice on format selection, and detail about the tools and techniques needed to function as skilled legal researchers. Up-to-date discussion of all media is fully integrated throughout, focusing on the types of information the researcher needs, rather than on descriptions of particular information products.

Law and Reputation Roy Shapira, 2020-09-17 The legal system affects behavior not just directly, by imposing sanctions, but also indirectly, by producing information on how people behave. For example, internal company documents exposed during litigation will help third parties assess whether they trust a company and want to keep doing business with it. The law therefore affects behavior by shaping reputations. Drawing on economics, communications, and a nascent multidisciplinary literature on reputation, Roy Shapira highlights how reputation works, and how information from the courtroom affects the court of public opinion, with a particular emphasis on the role of the media. By fleshing out interactions between law and reputation, Shapira corrects common misperceptions about the ability of market forces to discipline corporate behavior and adds to timely, ongoing debates such as the desirability of heightened pleading standards or mandatory arbitration

clauses. Law and Reputation should interest any scholar who invokes notions of market discipline in their work.

Reading The Legal Case Marco Wan, 2012-08-06 This volume examines the nature, function, development and epistemological assumptions of the legal case in an interdisciplinary context. Using the question of 'reading' as a guiding principle, it opens up new ways of understanding case law and the doctrine of precedent by bringing the law into dialogue with the humanities. What happens when a legal case is read not only by lawyers, but by literary critics, by linguists, by philosophers, or by historians? How do film makers and writers adapt and transform legal cases in their work? How might one interpret fiction in the context of the historical development of the common law? The essays in this volume test the boundaries of the legal case as a genre by inviting perspectives from other disciplines, and in doing so also raise more fundamental questions of what constitutes law and legal thinking. This book will be of interest to anyone seeking a better understanding of the common law, the humanities, and the intersection between them.

Legal Reasoning and Political Conflict Cass R. Sunstein, 2018-02-16 In *Legal Reasoning and Political Conflict*, Cass R. Sunstein, one of America's best known commentators on our legal system, offers a bold, new thesis about how the law should work in America, arguing that the courts best enable people to live together, despite their diversity, by resolving particular cases without taking sides in broader, more abstract conflicts. Professor Sunstein closely

analyzes the way the law can mediate disputes in a diverse society, examining how the law works in practical terms, and showing that, to arrive at workable, practical solutions, judges must avoid broad, abstract reasoning. He states that judges purposely limit the scope of their decisions to avoid reopening large-scale controversies, calling such actions incompletely theorized agreements. In identifying them as the core feature of legal reasoning, he takes issue with advocates of comprehensive theories and systemization, from Robert Bork to Jeremy Bentham, and Ronald Dworkin. Equally important, Sunstein goes on to argue that it is the living practice of the nation's citizens that truly makes law. Legal reasoning can seem impenetrable, mysterious, baroque. Legal Reasoning and Political Conflict helps dissolve the mystery. Whether discussing abortion, homosexuality, or free speech, the meaning of the Constitution, or the spell cast by the Warren Court, Cass Sunstein writes with grace and power, offering a striking and original vision of the role of the law in a diverse society. In his flexible, practical approach to legal reasoning, he moves the debate over fundamental values and principles out of the courts and back to its rightful place in a democratic state: to the legislatures elected by the people. In this Second Edition, the author updates the previous edition bringing the book into the current mainstream of twenty-first century legal reasoning and judicial decision-making focusing on the many relevant contemporary issues and developments that occurred since its initial 1996 publication.

American Criminal Courts Casey Welch, John Randolph Fuller, 2013-04-05

American Criminal Courts: Legal Process and Social Context provides a complete picture of both the theory and day-to-day reality of criminal courts in the United States. The book begins by exploring how democratic processes affect criminal law, the documents that define law, the organizational structure of courts at the federal and state levels, the overlapping authority of the appeals process, and the effect of legal processes such as precedent, jurisdiction, and the underlying philosophies of various types of courts. In practice, criminal courts are staffed by people who represent different perspectives, occupational pressures, and organizational goals. Thus, this book includes chapters on actors in the traditional courtroom workgroup (judges, prosecutors, and defense attorneys, etc.) as well as those outside the court who seek to influence it, including advocacy groups, the media, and politicians. It is the interplay between the court's legal processes and the social actors in the courtroom that makes the application of criminal law fascinating. By focusing on the tension between the law and the actors inside of it, *American Criminal Courts: Legal Process and Social Context* demonstrates how the courts are a product of law in action and presents content in a way that enables you to understand not only the how of the U.S. criminal court system, but also the why. Clearly explains both the principles underlying the development of criminal law and the practical reality of the court system in action A complete picture of the criminal

justice continuum, including prosecution, defense, judges, juries, sentencing, and pre-trial and appeals processes Feature boxes look at how courts are portrayed in the media; identify landmark due-process cases; illustrate the pros and cons of the courts' discretionary decision-making; examine procedures and the goals of justice; and highlight the various types of careers available within the criminal courts
