*Protection & Reversal Magick* Jason Miller, 2006-06-15 You could be the target of a spell or curse and not even know it! All people, witches or not, are susceptible to these attacks. The difference: witches and magicians can do something about it. Now you can too. *Protection & Reversal Magick* is a complete how-to manual on preventing, defending, and reversing magickal attacks of any kind. You will learn to: Set up early-warning systems. Appease angry spirits through offerings. Perform daily banishings and make amulets that will prevent most attacks. Make magickal “decoys” to absorb attacks against you. Summon guardian spirits or gods for help. Bind, confuse, or expel a persistent enemy who will not leave you be. These techniques aren't just for witches, either, but for ceremonial magicians, rootdoctors, and anyone else who puts magick to a practical use. Like the cunning men and women of old, now you can defend yourself and your loved ones against even the strongest attacks! “This book is not only one of my favorite books on ‘defense against the dark arts’, but is actually one of my favorite books in my whole library. Throughout the book Jason provides not only on protection, but also on recognizing the symptoms of attack and creating early warning system to alert you of magickal attacks.” —Mat Aurnyn, author of *Psychic Witch*

**Equal Protection** David L. Hudson Jr.,2018-06-08 This book uses primary sources to closely examine the Equal Protection Clause of the Fourteenth Amendment and to show how legal interpretations of it have had a profound impact on American life as we know it. The Fourteenth Amendment addresses many aspects of American citizenship, including the rights of citizens. The most commonly used—and frequently litigated—phrase in the amendment is equal protection of the laws. This phrase has figured prominently in a plethora of landmark cases in U.S. history dealing with a variety of issues, including *Brown v. Board of Education* (racial discrimination), *Roe v. Wade* (reproductive rights), *Bush v. Gore* (election recounts), *Reed v. Reed* (gender discrimination), *University of California v. Bakke* (racial quotas in college admissions), and *Obergefell v. Hodges* (gay

marriage). This book closely examines the history and development of the Equal Protection Clause and details the many ways in which it has shaped U.S. history. Selections show how the equal protection clause came into being in the post-Civil War era; feature seminal Supreme Court decisions on the nature and extent of applications of the equal protection clause in American life and law through the years; and include documents that consider the impact that the equal protection clause has had and may have on American society in the 21st century.
