The System Is the Key at Roulette V. I. Brown,2009-09-30 The System Is The Key At Roulette Herein all aspects of roulette are explained, from the basic rules to the decorum which one should expect and adhere when gaming at roulette. The primary aim is to encourage the player to examine the game from a more structured perspective. Since roulette came into being, practitioners have sought a means to beat the house. This book shows that in devising systems to overcome the house advantage, one is only limited by ones imagination. Further, any apprehensions about playing roulette and any pre-conceived notions about the game should likewise be dispelled. This book further demonstrates that roulette is not just a game of chance. It is a game which is, the author argues, should be accorded a place in the study of numerology and of the occult. The author demonstrates that the numbers in this game are influenced by supernatural forces. One can always observe definite patterns in roulette numbers. The key is to detect these patterns and capitalize on them. In addition, the author demonstrates that the number theories which he advocates and the patterns which he has observed can also be seen in other games of chance. ForeWord Clarion Book Review

Understanding Roulette Nick Radchen,2018-06-12 Roulette wheels have been in existence for over two hundred years, and during this time many books have been published on the subject of how to beat them. Only a tiny fraction of players who take up the challenge do so though. Just why is this? Within "Understanding Roulette, Nick Radchen examines the underlying dynamics of the game; the numbers, the probabilities, the impact of the house edge and the myths, and sets out to explain why becoming a lifetime winning player at Roulette is a tall order. Understanding Roulette is an ideal primer for those looking to inform themselves about the game and offers some practical pointers for playing recreationally, as well as touching on the subject of advantage play and the thorny matter of problem and compulsive gambling behaviour. If you're going to play Roulette, even for modest amounts of money, it makes sense to understand just why you win and why you lose. This book has been written with the aim of helping you to understand just that
