Split Swati Avasthi,2012-01-24 A riveting portrait of life after abuse from an award-winning novelist. Sixteen-Year-Old Jace Witherspoon arrives at the doorstep of his estranged brother Christian with a re-landscaped face (courtesy of his father's fist), \$3.84, and a secret. He tries to move on, going for new friends, a new school, and a new job, but all his changes can't make him forget what he left behind—his mother, who is still trapped with his dad, and his ex-girlfriend, who is keeping his secret. At least so far. Worst of all, Jace realizes that if he really wants to move forward, he may first have to do what scares him most: He may have to go back. Award-winning novelist Swati Avasthi has created a riveting and remarkably nuanced portrait of what happens after. After you've said enough, after you've run, after you've made the split—how do you begin to live again? Readers won't be able to put this intense page-turner down.

Split Lee Kofman,2019-05-20 In this compelling anthology of personal essays, curated by award-winning author Lee Kofman, some of Australia's most beloved writers reveal, for the first time, powerful, occasionally funny and often heartbreaking stories of significant endings and their aftermath. Graeme Simsion, author of *The Rosie Project*, shares how he discarded his past – perhaps autistic – self, while comedian Sami Shah writes about his public split from Islam, the religion of his birth. Ramona Koval delves into the bittersweet end to her career at the ABC and Fiona Wright explores how her anorexia has affected her romantic relationships. Whereas Kate Holden suggests that for some, splitting – whether from memorabilia, books or lovers – is unimaginable. Join eighteen acclaimed storytellers in their candid and courageous reflections on the intrinsic human experience of loss and leaving, that acknowledge the price

we can often pay for a much-needed end, or new beginning.

Split Suzanne Finnamore,2008-04-17 ?Not only funny, it?s also fully triumphant...a heartbreaking pleasure to read.?(Elle) Suzanne Finnamore didn?t see it coming. Well, she saw some things?for example, a cocktail napkin on which her husband had scribbled a Cole Porter love song and an indecipherable name?but she refused to acknowledge it. She was busy tending to their son and creating the perfect home.

Until the night it all imploded. 'I deserve happiness,' he said, which apparently translated into ousting her from his life. At once funny, sad, and unflinchingly fierce, this memoir will resonate with anyone who has endured the end of a relationship?and come out on the other side changed.

The Split Economy Nimi Wariboko, 2020-11-01 Starting with Marx and Freud, scholars have attempted to identify the primary ethical challenge of capitalism. They have named injustice, inequality, repression, exploitative empires, and capitalism's psychic hold over all of us, among other ills. Nimi Wariboko instead argues that the core ethical problem of capitalism lies in the split nature of the modern economy, an economy divided against itself. Production is set against finance, consumption against saving, and the future against the present. As the rich enjoy their lifestyle, their fellow citizens live in servitude. The economy mimics the structure of our human subjectivity as Saint Paul theorizes in Romans 7: the law constitutes the subject as split, traversed by negativity. The economy is split, shot through with a fundamental antagonism. This fundamental negativity at the core of the economy disturbs its stability and identity, generating its destructive drive. The Split Economy develops a robust theoretical framework at the intersection of continental philosophy, psychoanalytic theory, theology, and political economy to reveal a fundamental dynamic at the heart of capitalism.

The Split Self Peter Bruce Waldeck, 1979 The theme of the split self -- defined as a division of personality between an emancipated adult incapable of love and a child still endowed with this basic capacity but oppressed by the father figure -- is analyzed in a series of works of German literature.

Self-Consciousness and "Split" Brains Elizabeth Schechter, 2018-05-24 Could a single human being ever have multiple conscious minds? Some human beings do. The corpus callosum is a large pathway connecting the two hemispheres of the brain. In the second half of the twentieth century a number of people had this pathway cut through as a treatment for epilepsy. They became colloquially known as split-brain subjects. After the two hemispheres of the brain are cortically separated in this way, they begin to operate unusually independently of each other in the realm of thought, action, and conscious experience, almost as if each hemisphere now had a mind of its own. Philosophical discussion of the split-brain cases has overwhelmingly focused on questions of psychological identity in split-brain subjects, questions like: how many subjects of experience is a split-brain subject? How many intentional agents? How many persons? On the one hand, under experimental conditions, split-brain subjects often act in ways difficult to understand except in terms of each of them having two distinct streams or centers of consciousness. Split-brain subjects thus evoke the duality intuition: that a single split-brain human being is somehow composed of two thinking, experiencing, and acting things. On the other hand, a split-brain subject nonetheless seems like

one of us, at the end of the day, rather than like two people sharing one body. In other words, split-brain subjects also evoke the unity intuition: that a split-brain subject is one person. Elizabeth Schechter argues that there are in fact two minds, subjects of experience, and intentional agents inside each split-brain human being: right and left. On the other hand, each split-brain subject is nonetheless one of us. The key to reconciling these two claims is to understand the ways in which each of us is transformed by self-consciousness.

Inverter Mini Split Operation and Service Procedures Craig Migliaccio, 2022-12-16 The demand for inverter mini split system installations is growing rapidly due to the versatility, functionality, and electrical efficiency of these units. As a result, inverter mini split system installations and servicing are becoming more common for individuals in the HVACR trade. Technicians must know the step-by-step service procedures associated with these systems and how they differ from traditional single speed systems. Procedures Included: · Line Set Connection · Leak Testing and Vacuuming · Charging and Recovery · Guidance on Checking the Charge · Power and Communication Wiring · Electrical Component Troubleshooting · Common Problems and Diagnosis

Split Images Elmore Leonard, 2009-10-13 “Constant action and top-notch writing.” —New York Times A Palm Beach playboy who amuses himself with murder finds himself on a collision course with a vacationing Motown cop in Elmore Leonard’s *Split Images*—a gripping and electrifying example of noir gold from “the coolest, hottest writer in America” (Chicago Tribune). *Split Images* is Grand Master Leonard

at the top of his game, a bravura example of how exemplary crime fiction is done by a writer who stands tall among the all-time mystery greats: John D. MacDonald, Dashiell Hammett, James M. Cain, et al. The brilliant creator of U.S. Marshal Raylan Givens (of TV's *Justified*) now brings us a cast of vivid and unforgettable characters on both sides of the law, in a twisting masterwork of unrelenting suspense that the *Washington Post* calls, "Brilliant...impressive...superb."

The Split and the Structure Rudolf Arnheim, 1996-10-17 Rudolf Arnheim's great forte is his ability to illuminate the perceptual processes that go into the making and reception of artworks—painting, sculpture, architecture, and film. Over the years, his pioneering mode of reading art from a unique scientific/philosophic perspective has garnered him an established and devoted audience. That audience will take pleasure in Arnheim's most recent collection of essays, one that covers a range of topics and includes titles such as *Outer Space and Inner Space*, *What Is an Aesthetic Fact?*, *As I Saw Children's Art*, *Two Ways of Being Human*, *Consciousness—an Island of Images*, and *From Chaos to Wholeness*. The notion of structure is Arnheim's guide in these explorations. Most of the essays examine the nature of structure affirmatively: how it comes about, its incentives and objectives, its celebration of perfection. He is interested in how artists grope for structure to shape powerful, enlightening images, and how a scientist's search for truth is a search for structure. Writing with enviable clarity, even when deploying complex arguments, Arnheim makes it easy and exciting to follow him as he thinks. America is not abundantly supplied with public intellectuals such as Rudolf Arnheim—to have his writings with us is cause for celebration. The word 'structure' appears for good reason in the title of this collection. . . . Structure seems to be needed as an

arbiter wherever this civilization of ours is split by selfish interests and fighting for either/or decisions. The essays want to speak with the voice of reason, because they want to show how the parts require the whole.

Splitting Theorems for Certain Equivariant Spectra L. Gaunce Lewis, 2000 Let G be a compact Lie group, Π be a normal subgroup of G , $\mathcal{G} = G/\Pi$, X be a G -space and Y be a G -space. There are a number of results in the literature giving a direct sum decomposition of the group $[\Sigma^\infty X, \Sigma^\infty Y]_{\mathcal{G}}$ of equivariant stable homotopy classes of maps from X to Y . Here, these results are extended to a decomposition of the group $[B, C]_{\mathcal{G}}$ of equivariant stable homotopy classes of maps from an arbitrary finite G -CW spectrum B to any G -spectrum C carrying a geometric splitting (a new type of structure introduced here). Any naive G -spectrum, and any spectrum derived from such by a change of universe functor, carries a geometric splitting. Our decomposition of $[B, C]_{\mathcal{G}}$ is a consequence of the fact that, if C is geometrically split and $(\mathfrak{F}', \mathfrak{F})$ is any reasonable pair of families of subgroups of G , then there is a splitting of the cofibre sequence $(E\mathfrak{F}_+ \wedge C)^{\Pi} \rightarrow (E\mathfrak{F}'_+ \wedge C)^{\Pi} \rightarrow (E(\mathfrak{F}', \mathfrak{F}) \wedge C)^{\Pi}$ constructed from the universal spaces for the families. Both the decomposition of the group $[B, C]_{\mathcal{G}}$ and the splitting of the cofibre sequence are proven here not just for complete G -universes, but for arbitrary G -universes. Various technical results about incomplete G -universes that should be of independent interest are also included in this paper. These include versions of the Adams and Wirthmuller isomorphisms for incomplete universes. Also included is a vanishing theorem for the fixed-point spectrum $(E(\mathfrak{F}', \mathfrak{F}) \wedge C)^{\Pi}$ which gives

computational force to the intuition that what really matters about a \mathbb{G} -universe \mathcal{U} is which orbits \mathbb{G}/H embed as \mathbb{G} -spaces in \mathcal{U} .
